GOOD NEWS

New Hire
The Department of Animal Science is pleased to announce that Mr. Adam Conover, MS has accepted the position of Academic Specialist Livestock. The position is a teaching intensive appointment and will assume coordination of the Institute of Agriculture and Technology beef cattle and swine certificate programs. He will also provide instruction in livestock courses offered in the 4 year undergraduate curriculum. Adam will coach the MSU Intercollegiate Livestock team. Adam will arrive on campus June 10th to assume his responsibilities.

MAKE A NOTE OF IT

EVENTS

Animal Science Department Picnic
The picnic is happening this afternoon, May 10, 2013, rain or shine, from 5-7pm at the Horse Farm. If it is too wet to be outside, the picnic will be held in the arena. Be sure to join us!

SEMINARS

UNDERGRADUATE STUDENTS

GRADUATE STUDENTS

Admissions
The following graduate applications have been approved by the Graduate Committee for recommendation for admission. The applications will be available for review until the date indicated; please contact me if interested. If there is no interest in these students by the date indicated, the applications will be forwarded to MSU Admissions for denial.

Kelsey Bruno – FS13 – MS – Forages or other beef nutrition area (possibly dairy nutrition also) – 5/22/13

Li An Fong – FS13 – MS – Ruminant nutrient utilization – 5/22/13

POSITION ANNOUNCEMENTS
The world’s smallest vertebrate, a frog known as Paedophryne amauensis, was discovered in 2009 in Papua New Guinea. The frog measures only 0.3 of an inch (7.7 millimeters), according to a 2012 study in the journal PLoS ONE. Scientists found the frog by sorting through leaf litter, although no one currently knows exactly what it eats or how it lives.
