GOOD NEWS

Congratulations

ANS Retired faculty, Dr. David Hawkins, is being honored this fall by having his portrait hung in the Saddle and Sirloin gallery in Louisville, KY. Dr. Hawkins is the third MSU Animal Science faculty member to have been recognized for this honor. For more details, please visit:

Thank You for Voting

The MSU Avian Science Club won the Reach Teach Learn Contest held by Zoetis. The Reach Teach Learn initiative focuses on spreading a positive message about the poultry industry encouraging conversations about what it takes to produce today’s poultry products. The Avian Science Club put forth a video that described their idea on how to educate the general public at MSU. The $7,500 grant will allow the club to bring their proposal to fruition. Zoetis will be working with the club to modify and refine their proposal as needed. For those that have not seen their proposal, visit the link and see what our students are planning to achieve in the coming year!

MAKE A NOTE OF IT

Lane Closure Notice

On Tuesday, May 21, 2013, from 6 a.m. – 12 p.m., the Infrastructure Planning and Facilities and their contractors will be closing the south lane of Shaw Lane, from the East Side of the Duffy Daugherty Football Building, to the East side of the Practice fields while pouring the foundation of a new Football Filming Tower. This lane closure has been coordinated with DPPS – the appropriate MDOT lane closure standards will be followed. If you have any questions or concerns please contact the Engineering and Architectural Services Department, Infrastructure Planning and Facilities Project Representative, Kevin Durkin at (517-490-8107) or Leisa Williams-Swedberg, Construction Superintendent at 517-432-9685, 8:00 a.m. – 5:00 p.m., Monday through Friday.

EVENTS

Retirement Party

MSU’s Purchasing Department is hosting a retirement party for Debby Kenrick, Thursday, June 6, 2013 from 3:00 p.m. to 6:00 p.m. with remarks beginning promptly at 4:00 p.m. The party will be held in the atrium of the Radiology Building. Please see the attached flyer for more information.

SEMINARS

UNDERGRADUATE STUDENTS
GRADUATE STUDENTS

Well Done
Congratulations to ANS doctoral student Cagri Camsari who won first place in the trainee research competition at the 4th Annual Conference of the Michigan Alliance for Reproductive Technologies and Science recently held in Ann Arbor. The title of Cagri’s abstract and oral presentation was “Effects of periconception heavy metal administration on indices of chronic disease in offspring at maturity”.

POSITION ANNOUNCEMENTS

ANIMAL FUN FACTS

World’s Largest Amphibian

The giant salamander lives in mountain streams and lakes of China and Japan. Adults can grow up to 6 feet long while tadpoles are just over an inch long. The salamander has four digits on its front legs and five digits on its back legs and is covered with a slimy protective mucous. It spends most of its time walking on the river bottom, though it can swim quickly. On land, its small legs won’t carry it and it must drag itself along.
