• Introduction and Overview •

Vision
Our vision is to lead and aid in the development and revitalization of sustainable communities, thus enhancing the capacity of current and future generations to reach their potential.

Mission
Our mission is to assist the development of sustainable communities by conducting excellent scholarly research, teaching, and outreach in 1) education and civic engagement, 2) community, food, and agriculture, 3) natural resources, land use, and the environment, and 4) recreation and tourism systems.

Our Work
As scholar-practitioners and members of a multidisciplinary department within the College of Agriculture and Natural Resources, we address critical issues at the interfaces of agriculture, natural resources, recreation, tourism, and communities. Our public scholarship of research, teaching, and outreach helps people in their roles as residents, landowners, businesses, and governmental and non-profit institutions to make informed decisions with a goal of not compromising future generations. Our work ranges from local to global.

We seek to help people understand the dynamic interactions in their communities, ecosystems, and the world, as well as to identify opportunities and develop strategies for sustainable revitalization. This work is rooted in our view of a just, engaged, and dynamic society. Toward that end, we are guided by an ethic of responsible and responsive scholarship that engages people in an integrative process to maximize effectiveness.

Our Values
The faculty, staff, and students of the Department of Community Sustainability value:

• development of the professional, technical, and specialized knowledge, skills and attitudes necessary to help diverse individuals and communities improve their quality of life and the environment;

• promotion of social responsibility and development of a broad understanding and awareness of agricultural, natural resource, and recreational issues, challenges, and opportunities;

• nurturing approaches that support positive and healthy relationships among diverse individuals, communities, and agricultural and natural resource systems;

• respect for our environment; and

• a commitment to professionalism built around liberal education, practical experience, and applied learning opportunities that encourage both local and global engagement.

Scholarly Foundation

• The faculty carries out research, teaching, and outreach focused on social, environmental, community and agricultural/food systems to strive for an ecologically and socially sustainable world. The faculty is committed to sustainable development that is integrative, inclusive, and systemic in nature; involves local-to-global restructuring; and promotes public health and wellness.

• The faculty studies management, planning, leadership, and policy analysis that lead to transformational change to address complex and emerging issues in community, agriculture, recreation and tourism, and resource areas.

• The faculty employs a holistic, interdisciplinary approach to understand and address complex and interrelated issues. The faculty’s multidisciplinary expertise creates a unique synergy that drives the department’s mission and places the department at the fore of this broad and critical area of scholarship.

• The faculty work as scholar-practitioners. The scholar-practitioner model is built on critical discourse connecting theory and practice in endeavors of joint discovery and learning.

• The faculty supports a continuum of scholarship by conducting applied research, engaging in outreach and Extension initiatives, and developing curricula to balance the interests and demands of its students and stakeholders.
Department Structure and Organization

The Department is one of 10 departments, two schools, and a biological station within the College of Agriculture and Natural Resources. As a unit in this College, the faculty and staff are linked directly with AgBioResearch and Michigan State University Extension, two formal structures created specifically to address the University’s land grant mission (extending research to Michigan and more global constituents via extension and outreach programs – see mission statements below). Graduate students are integrated within this land grant system across the three functions of the Department, College, and University – teaching, research, and outreach/extension – as we practice and educate students to become scholar practitioners.

The mission of MSU Extension:

Michigan State University Extension (MSUE) helps people improve their lives by bringing the vast knowledge resources of MSU directly to individuals, communities, and businesses. For more than 100 years, MSU Extension has helped grow Michigan’s economy by equipping Michigan residents with the information that they need to do their jobs better, raise healthy and safe families, build their communities, and empower our children to dream of a successful future.

The mission of MSU AgBioResearch is:

... to engage in innovative, leading-edge research that combines scientific expertise with practical experience to generate economic prosperity, sustain natural resources, and enhance the quality of life in Michigan, the nation, and the world.

MSU AgBioResearch: Leading innovation in food, natural resources, and energy

The mission of the MSU College of Agriculture and Natural Resources is

... to enhance the quality of life for the people of Michigan and the world by advancing knowledge for the management of communities and agricultural, natural resource and food systems to meet diverse human needs in a sustainable manner.

To accomplish this mission we must pursue:
• Learning that imbibes current and future stakeholders with intellectual curiosity and offers relevant knowledge and skills;
• Discovery that advances knowledge and enhances productivity and sustainability, and
• Engagement with society that achieves social, economic, and environmental equity.

The organizational structure of the Community Sustainability Department, and as situated within the College and University, is illustrated on the next page.
Opportunities for Student Participation in Department Life

An additional value and policy of the Department of Community Sustainability is to provide regular opportunities for graduate students to participate in the scholarly, professional development, research, outreach, and social functions and activities of the Department. Some of these opportunities are provided through formal structures; others are available more informally. Graduate students are expected to participate fully in the "life of the academy," both on campus and off campus. Such involvement is considered to be as critical a component of graduate education and professional development as are courses and required research and project work.

Additionally, graduate students are expected to be active contributors to the continuing development of the Department and its work. Student perspectives, values, and ideas are considered valuable input into the Department's evolution. While always a fundamental value, this involvement is particularly critical now because the Department of Community Sustainability is a young department, the result of blending and re-conceptualizing of former departments. This effort was undertaken to better meet the complex challenges, both local and global, facing the world's citizens relative to communities, the natural environment, and the human relationship with and management of our resources (natural, agricultural, historic, cultural, economic, and others).

**Formal channels** for providing input include:

- Graduate Student Organization (GSO)
- Graduate Student Representative to the Department’s Faculty Advisory Committee (FAC)
- Graduate Student Representative to the Department’s Graduate Affairs and Curriculum Committee (GACC)
- One portion of each student’s essay in the annual student progress assessment packet
- Formal grievance procedures

Graduate student representatives also are included in time-bound task forces, faculty recruitment committees, and other task-specific committees, as needed. Additionally, other opportunities for graduate student involvement exist at the University level (see the Graduate School website or talk with the current CSUS GSO General Coordinator, Jim Cave).

**Informal channels** for providing input, or simply conversing about the work of the Department or asking questions, include open-door access to the following individuals:

- Graduate Program Coordinator .......................................................... Dr. Gail Vander Stoep
- Chairperson of the Graduate Affairs and Curriculum Committee .......................... Dr. Robby Richardson
- Student’s individual major professor/advisor .................................................. (varies)
- Graduate Secretary .......................................................... Nansie Strobel
- Associate Chairperson of the CSUS Department .................................. Dr. John Kerr
- Chairperson of the CSUS Department .................................................. Dr. Michael Kaplowitz

Students are encouraged to schedule appointments ahead of time (via either email or phone) to be sure that the appropriate person is available and has adequate time blocked out to talk with you.

**Diversity**

The Department of Community Sustainability is committed to creating a diverse faculty and student body, to include recruitment of ethnically diverse domestic students/faculty/staff as well as recruitment and acceptance of international students from countries throughout the world. The Department works closely with the Office of Minority Student Affairs (OMSA) and the Office of International Students and Scholars (OISS). We believe strongly in the value of cross-cultural sharing and multi-disciplinary approaches to education, research, and outreach. An additional aspect of diversity central to the CSUS Department is the wide variety of academic and professional backgrounds of both our students and faculty. We strongly encourage all graduate students to take advantage of the diverse student and faculty bodies (within the Department and across the MSU campus) by interacting regularly with them, both formally and informally. Everyone has knowledge, experiences, and perspectives to share with each other.
Introduction
The graduate programs in the Department of Community Sustainability offer students unique programs of advanced study, allow flexibility within an interdisciplinary approach, and result in strong and marketable advanced degrees. Students are expected to obtain positions or create professional careers across all three sectors: public, private non-profit, and private for-profit. Some doctoral students will seek faculty positions and join the academy, both in the United States and abroad. Others will seek research positions with governmental organizations, non-governmental organizations (NGOs), or within the private sector. Others may provide leadership in a variety of domestic or international non-profit organizations dedicated to community development and/or resource management. Others may go into private business or may choose to work as consultants. Many international students return to their home countries to serve in government, academia, NGOs and the private sector.

Rationale
Rapidly changing conditions and contexts (political, economic, cultural, social) impacting our natural environment, agricultural systems, and communities leave citizens concerned and confused about a wide range of contentious issues that cannot be addressed from within the disciplinary boundaries recognized by the academy. Our graduate program addresses such issues in four ways.
• First, the program is founded on a set of integrated research, teaching, outreach, and service activities that embody the ethos and skills of community engagement.
• Second, the program brings together an interdisciplinary faculty clustered around issues rather than disciplines.
• Third, the program attracts students having diverse educational backgrounds and experiences who recognize the need to acquire the understanding and skills that emphasize scholarship, practice, and participatory approaches in applied research, teaching, and outreach.
• Fourth, the program recognizes the value of diversity among students, faculty, and practitioners and seeks to draw from diverse and unique perspectives to enhance professional development and relationships.

Objectives
The objectives of the Department – across applications in teaching, research, and outreach – are to:
• create a scholarly community characterized by lifelong learning and transformational education;
• provide students with opportunities to engage in integrative, applied research that is grounded in contemporary scholarship as well as engagement with communities; and
• support awareness of the values, operating assumptions, and their influence on each student’s scholarship and professional decision making.

To achieve these objectives, the graduate program in Community Sustainability provides students the opportunity to create individualized programs that draw from several complementary areas of scholarship. These broad areas include community, food and agriculture; natural resources and the environment; recreation and tourism systems; and education and community engagement. Courses are designed to help students become solidly grounded in integrative applied research approaches based on multiple paradigms, disciplines, and methods. This multiple-paradigm, holistic, and systemic research approach underpins a wide range of management, development, outreach, and policy applications. The multidisciplinary approach provides a scholarly foundation from which graduates may address the complex and uncertain challenges posed by changes in communities, natural resource and environmental systems, and innovations in the agricultural and food sectors.

Graduate students have the option of defining their program of study within one of two degree options: “Community Sustainability” and “Sustainable Tourism and Protected Area Management.” Several informal themes are represented in the teaching, research, and outreach activities and scholarship of CSUS faculty:
• Community Food and Agricultural Systems
• Recreation and Tourism Systems
• International Development
• Natural Resources and the Environment
• Education and Civic Engagement
Conceptual Framework for Curriculum

Although five themes are identified, a systems approach for linking and integrating content and decision making across all five is strongly encouraged. To reinforce this systemic approach, the curriculum is deliberately designed to include integrative and cross-cutting courses.

The conceptual framework for the curriculum model is illustrated below:
**CSUS Core Courses:** These courses are the department-wide required core courses (CSUS 800, CSUS 802 [MS]; CSUS 899 [MS-A], CSUS 895 and CSUS 898 [MS-B], and CSUS 999 [Ph.D.]). The Graduate Programs in CSUS and STPAM each include a set of required core courses (that vary by degree sought). The two core courses for all master’s students (CSUS 800 and 802) are offered during the fall semester. Doctoral students also are required to take CSUS 800. Doctoral students who do not have strong course background and experience in research methods are strongly encouraged to take CSUS 802 as a foundation for their advanced research methods courses.

See individual degree program requirements for additional information.

**Themes:** CSUS courses tend to fall generally within and across five themes that provide the foundations for integrated community sustainability work. The number and identity of these themes/courses will evolve over time, with the goal that most graduate courses are intended to be interdisciplinary and crosscutting.

**CSUS Cross-cutting Courses:** These courses are departmental courses that intentionally integrate content across two or more of the themes and also reflect the foundational concepts and principles of CSUS.

**Interdepartmental and Other Department Courses:** These courses are those available in other departments, especially units with whom CSUS has or is developing partnerships. These courses are identified and developed in many ways. Sometimes they are developed specifically to meet needs of an interdisciplinary specialization or certification. Other times, they are simply courses that are relevant to more than one department. Sometimes they are cross-listed (overtly identifying the relevance to more than one discipline); other times they are not cross-listed, yet still link effectively with CSUS degree work.

**Specializations and Certification Programs:** In addition to the graduate degree programs offered by individual departments within the university, Michigan State also offers many programs that combine the research facilities and faculty of different departments and colleges. Thus, students have the option of incorporating or adding a specialization into their academic work. In many cases, a specialization or certification is simply incorporated as all or part of one (or more) focus areas in the official Program of Study. Some students choose to add a specialization or certification on top of their official Program of Study. In other cases, some program requirement courses fulfill part of a specialization (and vice versa); yet additional courses beyond the official Program of Study are needed to complete a specialization or certification. See pp. 82-83 for options, and p. 80 for the supplementary program planning form.

It is suggested that any courses not needed as part of the official Program of Study (30 credits for MS and 60 credits for Ph.D. degrees) not be included on the official Program of Study. Rather, they can be tracked on the Specialization form (see p. 80). The reason is that, should students change course choices for specializations/certifications or later decide to NOT complete one, the student does not have to complete a Change of Program Plan form or complete a new Program Plan/Planning Form.
**Primary Research & Outreach Themes**

Graduate students have the option of personalizing their own programs of study through creation of “focus areas.” These focus areas (see program requirements for the relevant degree and the associated Program Planning form) may incorporate elements of five themes that represent the teaching, research, and outreach interests of the Community Sustainability Department, but they do not have to fall within a single theme. Rather, students are encouraged to self-define and self-name their degree program focus areas, based on their own academic and professional goals and needs that also reflect the integration of themes within the department. Concepts of sustainability and community engagement are woven throughout all themes.

**COMMUNITY FOOD & AGRICULTURAL SYSTEMS**

This thematic area addresses issues related to the sustainability and democratization of food and farming. Courses and research opportunities prepare students to support civically-focused efforts that revitalize our food systems and define a more public role for agriculture through education, cooperation, and citizen engagement. This area seeks to integrate social and community concerns into production agriculture and to link agriculture to the issues of health, recreation, natural resource management, community development, ethnics, and public policy.

**EDUCATION & CIVIC ENGAGEMENT**

This thematic area concentrates on developing scholar-practitioners interested in engaging and enhancing educational practices, within schools and in the community. This area addresses agriculture and natural resources issues in educational practice, theory, research, and policy. Outreach opportunities are available to partner with a network of schools, community residents, local government agencies, nonprofit organizations, and Michigan Extension to design and implement appropriate educational programs.

**NATURAL RESOURCES & THE ENVIRONMENT**

This thematic area links the social and physical sciences with planning, management, and policy issues associated with the use of natural resources and the environment, particularly land and water. Examples include multiple resource needs and uses: stakeholder perceptions and decision-making; and social, economic, and environmental impacts of alternative policy or management options. Research is used to inform decisions made by public, private, and non-profit groups and to develop formal and non-formal environmental education efforts. Coursework, research, and outreach address local, regional, national, and international issues.

**RECREATION & TOURISM SYSTEMS**

Graduate work in this thematic area focuses on understanding recreation and tourism as integral parts of communities, economies, and natural environments. Coursework, research and outreach in this area address the motivations, preferences, and participation patterns of tourists and recreationists; the role of business, government, and non-government organizations that comprise and service tourism systems; and the interaction between tourism and recreation activities and the natural, agricultural, historic, and cultural resources.

**INTERNATIONAL DEVELOPMENT**

Many faculty and students in Community Sustainability conduct research on international development, often applying the ideas associated with the other thematic areas to developing country contexts. Additional work in the department on international development addresses agricultural technology adoption, nutrition-agriculture linkages, and collective action to manage commonly held natural resources. Participatory research and mixed methods research approaches are used extensively. The [Peace Corps Master’s International](http://peacecorps.gov) program is part of the program’s international development focus.
The Master of Science (MS) programs in the Department of Community Sustainability provide students with opportunities to engage in integrated and applied research and acquire professional skills. Applicants may choose one of two degree programs: “Community Sustainability” or “Sustainable Tourism and Protected Area Management.” Within the chosen degree program, students may apply for one of three MS degree types:

- **MS-Plan A** (research-focused degree for which a thesis is required), or
- **MS-Plan B** (a professional degree, for which a professional project is required), or the
- **Peace Corps Master’s International (PCMI)** option (which can be either a MS-B or MS-A).

Applicants should indicate their preferences, as related to personal professional goals, in their application materials. Each of the two degree programs has its own official code, so specify this in the official MSU application:

- **5389**: Community Sustainability (for all MS degree types)
- **5376**: Sustainable Tourism and Protected Area Management (for all MS degree types)

Applicants should indicate their preferred degree type (MS-A or MS-B) in the Academic Statement and cover letter to the CSUS Department. Additionally, if a student is applying for the Peace Corps Master’s International option, they should specify this in their Academic and Personal Statements and cover letter.

**General Requirements for the Master of Science Degree**

In addition to meeting the requirements of the University and of the College of Agriculture and Natural Resources (CANR), students must meet the requirements specified below.

**Selection of Plan A or Plan B:** Student must select either Plan A (research-based, with thesis) or Plan B (professional practice/management, with professional project). Plan A emphasizes integrated and applied research. Plan B focuses on the acquisition of well-defined professional skills. Additionally, if students choose the Peace Corps Master’s International option, they should identify this in their application materials. PCMI students may choose either the MS-A or MS-B degree type, although they are encouraged to choose the MS-B. Their choice will guide which set of requirements the student will use in developing their Program of Study.

**Minimum Credit Requirements:** Students in both the Plan A and Plan B MS programs are required to complete a minimum of 30 semester credits.

**Time for Degree Completion:** Master’s programs must be completed in no more than five [5] years from the semester of admission or the semester in which the first course used toward degree requirements was taken, whichever comes first.

**GPA Expectations:** A minimum 3.00 cumulative grade-point average is required for graduation by both University and Department policies. Grades are reviewed at the end of each semester by the Graduate Program Coordinator. If a student’s overall GPA falls below 3.00, the student is placed on probation. They will be notified by mail and/or email, and should schedule an appointment immediately with their major professor to discuss their academic progress. Under such conditions, the student will receive counseling, remediation recommendations, or other actions deemed appropriate to assist the student in achieving success. In consultation with their advisor, the student should develop a written plan to address deficiencies to be placed in student’s permanent file. Students placed on GPA-based probation will have a maximum of two semesters to raise their GPA to at least 3.00. If this minimum is not achieved, the student is counseled by their major professor and may be required to withdraw from the MS program.

**Filing Program Plan:** Students should complete the relevant CSUS MS Program Planning and Program of Study form: as a planning aid for the student and their committee (for identifying and labeling focus area and selecting courses), as a formal record of Program of Study agreement, and to assist with final degree certification. After a committee meeting during which the Program of Study is finalized, a MS Program Planning and Program of Study form must be completed, approved/signed, and filed no later than the end of the student’s second semester of their MS degree work. Students must use the CSUS form, see Appendix A of this handbook or the CSUS website, Forms section: http://www.csus.msu.edu/graduate/forms. The signed original form will be filed in the student's permanent academic file. We strongly suggest that each student keep a copy of this and all “degree progress” forms. If changes of any kind are made later, use the Change of Program form.
Curriculum Requirements for the Master of Science Degree: Community Sustainability (except PCMI)

The student’s program of study must be developed in cooperation with and approved by the student’s Guidance Committee and must include the requirements specified below.

NOTE: Collateral courses to overcome deficiencies may be required in addition to the requirements for the CSUS master’s degree. Collateral course work will not count toward the minimum requirements for the master’s degree.

---

### Course Requirements for all CSUS Plan A and Plan B students:

Both of the following courses are required and should be taken during the student’s first fall semester:

- CSUS 800, Foundations of Community Sustainability (3 credits)
- CSUS 802, Survey of Research Methods (3 credits)

Minimum of 15 credits of course work in a focus area (mirroring one of the five CSUS theme areas, or created in consultation with committee and to be within the scope/philosophy of the CSUS Department)

At least 6 credits of this focus area must be selected from Community Sustainability courses having alpha codes of CSUS.

<table>

<tr>
<td>Quantitative or qualitative methods, <em>(min. of 3 credits)</em></td>
<td>Techniques or skill-building course <em>(min. of 3 credits)</em> relevant to student’s academic &amp; career goals</td>
</tr>
</tbody>
</table>
| CSUS 899, thesis/research credits *(maximum of 18 credits)* *(min. of 6 credits)* | Both of the following courses: *(6 credits)*
| | • CSUS 895, Case Studies in CSUS *(3 credits)*
| | • CSUS 898, Master’s Professional Project *(3 credits)* *(maximum of 9 credits)* |
| Formal public presentation and approval of thesis proposal | Written plan for Professional Project with rationale linked to professional goals *(public proposal defense is optional)* |
| Completion, public presentation, and formal defense of master’s thesis (certifying exam) | Completion, public presentation, and formal defense of a project/report based on the master’s professional project/experience (certifying exam) |

---

**NOTES:**

**400-level Courses:** By MSU policy, more than half of the credits of the total required for a master’s degree must be taken at the 800 and 900 levels, except as specifically exempted by the college dean (College of Agriculture and Natural Resources, CANR). Courses at the 400 level may be applied to the master’s degree program; however, when both a 400- and 800-level course are available and cover the same basic content, the 800-level course should be selected.

**Transfer Credits:** A maximum of 9 semester credits of graduate course work (excluding research and thesis credits) may be transferred into a 30-credit master’s degree program from other accredited institutions or international institutions of similar quality, if they are appropriate to a student’s program, the student received grades of 3.0 or higher, and provided courses were completed within the time limits approved for earning the degree (five years from date of first course used for the MSU degree program). Courses used to meet requirements of another degree are not acceptable. The CSUS Graduate Program Coordinator, Department chairperson, the CANR Dean, and the Registrar must approve use of transfer courses. After transfer credits are approved, they must be filed as part of your program plan.

**Focus Area Option:** Some students pursue specializations or certifications as all or part of the focus area. Specializations or certifications also may be taken above and beyond degree requirements, and need not appear on Program Plans.

---

1 For PCMI information, see pages 12-14.

2 CSUS 898 credits can be deferred (DF grade) up to six months from the end of the semester in which the student was enrolled. At that time, CSUS 898 credits are automatically converted to U (Unfinished) grades. It is HIGHLY RECOMMENDED to enroll in CSUS 898 during your final semester, when a significant portion of your professional project and associated report has been completed.
Curriculum Requirements for the Master of Science Degree: Sustainable Tourism and Protected Area Management (except PCMI)

The student’s program of study must be developed in cooperation with and approved by the student’s Guidance Committee and must include the requirements specified below.

NOTE: Collateral courses to overcome deficiencies may be required in addition to the requirements for the STPAM master’s degree. Collateral course work will not count toward the minimum requirements for the master’s degree.

Course Requirements for all STPAM Plan A and Plan B students:

All of the following courses are required and the first two should be taken during the student’s first fall semester

- CSUS 800, Foundations of Community Sustainability (3 credits)
- CSUS 802, Survey of Research Methods (3 credits)
- CSUS 814, Sustainable Tourism & Protected Area Management: Theories & Applications (3 credits)

Minimum of 12 additional credits of course work in a focus area relevant to tourism or protected area management, created in consultation with committee and to be within the scope/philosophy of the CSUS Department). At least 6 credits of this focus area must be selected from Community Sustainability courses having alpha codes of CSUS.

NOTES:

400-level Courses: By MSU policy, more than half of the credits of the total required for a master’s degree must be taken at the 800 and 900 levels, except as specifically exempted by the college dean (College of Agriculture and Natural Resources, CANR, for us). Courses at the 400 level may be applied to the master’s degree program; however, when both a 400- and 800-level course are available and cover the same basic content, the 800-level course should be selected.

Transfer Credits: A maximum of 9 semester credits of graduate course work (excluding research and thesis credits) may be transferred into a 30-credit master’s degree program from other accredited institutions or international institutions of similar quality, if they are appropriate to a student’s program, the student received grades of 3.0 or higher, and provided courses were completed within the time limits approved for earning the degree (five years from date of first course used for the MSU degree program). Courses used to meet requirements of another degree are not acceptable. The CSUS Graduate Program Coordinator, Department chairperson, the CANR Dean, and the Registrar must approve use of transfer courses. After transfer credits are approved, they must be filed as part of your program plan.

Focus Area Option: Some students pursue specializations or certifications as all or part of the focus area. Specializations or certifications also may be taken above and beyond degree requirements, and need not appear on Program Plans.

³ For PCMI information, see pages 12-14.
⁴ CSUS 898 credits can be deferred (DF grade) up to six months from the end of the semester in which the student was enrolled. At that time, CSUS 898 credits are automatically converted to U (Unfinished) grades. It is HIGHLY RECOMMENDED to enroll in CSUS 898 during your final semester, when a significant portion of your professional project and associated report has been completed.
Curriculum Requirements for Master of Science Peace Corps Master’s International (PCMI) Option

Overview
This Peace Corps Master’s International (PCMI) option in CSUS focuses on the acquisition of well-defined professional skills that are responsive to community needs and interests. To this end, students accepted into this program will integrate their Peace Corps experiences into their own degree program, either “Community Sustainability” or “Sustainable Tourism and Protected Areas Management.” Students are strongly encouraged to follow the Plan B Master’s program that emphasizes professional practice/management, with a professional project, experience, or combination of the two forming the basis of a Plan B capstone project and associated report.

The Plan B program (professionally-based project rather than research-based thesis) allows students to draw on their Peace Corps field experience as well as their coursework to prepare a Plan B capstone project and associated report (CSUS 898). Plan B students may count their Peace Corps training and service (register for special course) as their required “techniques” course. The suggested option is to enroll for CSUS 894 (after the field experience), although other relevant techniques or skill-building courses could be selected.

A Plan A program (research-based thesis) option is possible. Based on the Department’s commitment to the principles of participatory, community-based research, the Department requires that Plan A thesis research carried out as part of the Peace Corps service be oriented toward serving the objectives of the student’s Peace Corps work. Research that informs practice is acceptable, but research that potentially distracts from the student’s Peace Corps work would not be accepted. Alternatively, a PCMI student could do Plan A research that is separate from the Peace Corps experience. Students who intend to conduct Plan A research should work with their advisor to ensure they have taken appropriate coursework in research methods and theory, and have obtained IRB approval, before collecting data.

Applying for the Peace Corps Master’s International Program
Students interested in this option are required to apply specifically for the Peace Corps Master’s International Program option (applicants should reflect this intent in their “Personal Statement” essays [that includes a “key experience” discussion] and “Academic Statement,” and specify their interest in the Plan A or Plan B track). Applicants should apply for and be accepted into the CSUS program prior to applying for the Peace Corps program. The deadline for Peace Corps Master’s International Program applicants is March 1 of the calendar year in which the expected academic program start date is the following fall semester. Students apply to CSUS, following the guidelines for all CSUS applicants, and indicate their specific interest in the Peace Corps Master’s International Program. Applications will be reviewed as for any other CSUS MS applicant. Should the student subsequently not be accepted by the Peace Corps into this program, the student may choose to enter the CSUS program any way, following the requirements and course sequencing required by the regular programs.

Note: This program is not for students who have completed Peace Corps service prior to beginning the CSUS MS degree.
**PCMI Course Requirements**

A minimum of 30 credits for either the Plan A or Plan B option, in either degree program (CSUS or STPAM):

**Required Courses** (9 credits for CSUS degree, 6 of which are required of all CSUS MS students; 12 credits for STPAM degree, 9 of which are required of all STPAM MS students):

- CSUS 800, Foundations of Community Sustainability (3 credits); to be taken prior to Peace Corps service
- CSUS 802, Survey of Research Methods (3 credits); to be taken prior to Peace Corps service
- CSUS 848, Community-based Natural Resources Development (3 credits)

**CSUS 814, Sustainable Tourism and Protected Area Management: Theories and Applications (3 credits):** for STPAM students only, and recommended to be taken prior to Peace Corps service

**Degree Focus Area:**

The student's **focus area** (15 credits total), to include:

- for CSUS students: CSUS 848 identified above, plus 12 additional credits;
- for STPAM students: CSUS 848, plus CSUS 814, plus 9 additional credits

The focus area is developed in consultation with the student's advisor to meet their personal and professional goals.

Focus Area courses could be in one of three graduate specializations:

- International Development
- Ethics and Development *(will go into moratorium as of Summer 2015; a proposal is being developed for a future specialization in "Engaged Philosophy")*
- Gender, Justice, and Environmental Change (GJEC).

Courses taken should be consistent with the requirements of the specialization selected as the focus area. Note that, depending on the requirements of a specialization, the student choosing to complete a specialization may need more than the required 30 credits minimum for completion of the CSUS MS degree. Use the Specialization form.

Note that, although CSUS 894 is specified as the required “skills/techniques” course for Plan B PCMI students, it also can be selected by Plan A students as part of their degree focus area.

**Additional Courses** (for Plan B students):

- Relevant “techniques or skill-building” *(3 credits)* course

  **NOTE:** One option is CSUS 894, Field Practicum in Sustainability Studies. Students may enroll in up to 3 credits of this course for skills or techniques acquired during Peace Corps training and/or service. Students shall keep a written record of training and service activities and a journal of skills acquired and lessons learned. The course will be graded as Pass/No Pass. This meets the department's Plan B “skills/techniques” requirement.

- CSUS 895, Case Studies in Community Sustainability *(3 credits)*

- CSUS 898, Master’s Professional Project *(3 credits)* (the capstone project and report based on Peace Corps service)

**Additional Courses** (for Plan A students):

- Relevant research methods course *(3 credits)*
- CSUS 899, Master’s Thesis *(6 credits)*

**NOTE:** A sample degree plan showing a sample structure for taking courses for the PCMI MS-B degree plan is presented on the next page.

* Applicants interested in a Plan A (research-based thesis option) should talk with their advisor or contact the CSUS Department through the PCMI Coordinator, Robert Richardson (rbr@msu.edu) or the Graduate Program Coordinator, Gail Vander Stoep (vanders1@msu.edu).

** At least one of the Focal Area Courses (shown above as ZZZ ###) must meet the department requirement for taking at least one “techniques/skill-building” course (for Plan B students); one option is CSUS 894.

For ideas about potential focus area courses, explore other CSUS courses as well as lists of courses under the following specializations, even if you do not choose to do a specialization.

For the International Development Specialization, see:

http://casid.isp.msu.edu/academic/graduate_specialization.htm

For the Ethics and Development Specialization*, see:

https://www.reg.msu.edu/academicprograms/ProgramDetail.asp?Program=5651

* will go into moratorium as of Summer 2015; proposal being developed for specialization in “Engaged Philosophy”

For the Gender, Justice, and Environmental Change (GJEC) Specialization, see:

http://gjec.isp.msu.edu/requirements.htm

**NOTE:** It is strongly recommended that students take 3 courses in each of the first two semesters (prior to Peace Corps service) unless selected courses are not offered during those semesters. Also note that, while Peace Corps training and service for CSUS 894 (techniques course) are completed during the two Peace Corps years, enrollment should be made during Year 4, as best fits with the individual student’s program plan.

**NOTE:** The PCMI student’s official MS Planning and Program of Study Form should be completed, signed, and submitted prior to the two-year Peace Corps fieldwork.
Master of Science Guidance Committees

Terminology

Initial Advisor: Advisor first assigned to applicants based on a match in interests and faculty member’s capacity to accept new students. This person usually becomes the student’s major professor (confirmed at the time of filing of official Program of Study), but the student has the right to identify a different major professor if they find someone more appropriate. A change can be made only if the newly identified faculty member agrees and has the capacity to accept another student.

Major Professor: Faculty member who serves as your primary advisor and mentor throughout your academic career at MSU.

(Academic) Advisor: Used interchangeably with "Major Professor” or “Guidance Committee Chairperson”

Guidance Committee Chairperson: Used interchangeably with "Major Professor"

Thesis Advisor: Usually your major professor, but under some circumstances it may be more appropriate for another faculty member (committee member) to serve as the thesis advisor.

Guidance Committee: Group of regular faculty members, including your advisor, who work with you to develop your academic and curriculum plan, mentor you, and comprise your Thesis or Project Final Examination committee (thesis or project defense). Requirement: Minimum of two members for MS-B; minimum of three members for MS-A.

Regular Faculty: All persons appointed under the rules of tenure and holding the rank of professor, associate professor, assistant professor, or instructor, and persons appointed as librarians. In addition, the principal administrative officer of each major educational and research unit of the university shall be a member of the ‘regular faculty.’

Guidance Committee Composition: Master of Science degree Guidance Committees must consist of MSU regular faculty members and (optionally) others having Graduate School faculty status.

A minimum of two (2) CSUS regular faculty members is required for all Master’s committees.

Plan A Master’s Committees must have at least three (3) members, of which at least two (2) must be from the CSUS Department.

Plan B Master’s Committees must have at least two (2) members from the CSUS faculty (optional additional committee members may come from inside or outside of CSUS).

Regular faculty members are defined as all persons appointed under the rules of tenure and holding the rank of professor, associate professor, assistant professor, instructor, or persons appointed as librarians. A list of approved non-regular committee members is available in GradInfo and can be checked for you by the Graduate Program Coordinator or the Graduate Secretary. Requested exemptions for others not on the approved list must be nominated, reviewed, and accepted in accordance with University and College of Agriculture and Natural Resources guidelines (see http://grad.msu.edu/forms/docs/nontenure.pdf ).

The composition of your Guidance Committee is checked for compliance by the Graduate Secretary and/or Graduate Program Coordinator, and is submitted for approval of the CSUS Graduate Program Coordinator, CSUS Department Chairperson, and the CANR Associate Dean, as indicated through their signatures on the MS Planning and Program of Study form. Students always reserve the right to change any committee member. This is accomplished by talking with and getting approval from both departing and incoming committee members, writing a letter to the Department Chairperson, and copied to the Graduate Program Coordinator (submitted via the Graduate Secretary) explaining the change request, and being signed by the student, the departing committee member, and the incoming committee member. (This letter will be attached to the Change in Program Plan form.) On rare occasions, the Department may make changes – with concurrence of the student – such as in cases when a Committee member leaves the University for any reason. Typically, the student is informed and the same procedure followed as for student-initiated changes. The Department does not simply “assign” committee members.
After the Guidance Committee members have been finalized, the student should schedule a committee meeting to discuss professional and academic goals, finalize the Program of Study (using the relevant CSUS MS Planning and Program of Study form, available on the CSUS Graduate Forms web page), and begin preliminary discussions about the thesis or professional project.

Once designated, the Guidance Committee has the responsibility to meet periodically to oversee the student’s progress as long as the student continues in good standing. Any desired or required changes in the membership of the Guidance Committee may be made by the graduate student with the concurrence of the unit chairperson/director or designated representative, or by the unit with the concurrence of the graduate student, in accordance with University, college, and unit policy. The Guidance Committee, with the concurrence of the graduate student, may form a thesis/dissertation committee to supersede or supplement the Guidance Committee. Committee or thesis/dissertation chairpersons on leave shall provide for the necessary guidance of their advisees during their absence.

To make any committee or program changes, regardless of reason, use the Change in Program Plan form located at http://www.csus.msu.edu/graduate/forms. Refer to the G.S.R.R. 2.4 (Graduate Students Rights and Responsibilities) for more information on MSU policies related to guidance committees (http://grad.msu.edu/gsrr)

**Examination for Master of Science** (for all MS degree programs in CSUS and STPAM)

- The Plan A examination will be the student’s thesis defense, and will focus on the student’s research.
- The Plan B examination will be the oral project defense, and will focus on the student’s Professional Project.

The student’s Guidance Committee will administer the Examination. Both will be oral examinations that include a public presentation by the student of his/her thesis or project. The student’s Guidance Committee will decide on the specific structure to be used in examining the student, to include the balance between the public presentation and closed examination portions of the session.

**Project (MS-B) or Thesis (MS-A) Proposal and Proposal Defense**

Students must prepare a written proposal in consultation with the Guidance Committee chairperson and present the proposal to the Guidance Committee. The oral public forum proposal is required for MS-A students and optional for MS-B students. The proposal should describe, at a minimum, the purpose or objectives of the proposed research or project, a review of the relevant literature, and the proposed method(s) and/or procedures.

Students must submit the written proposal to the Guidance Committee members at least two weeks prior to the public forum. The forum should be scheduled and announced to faculty and graduate students in advance, with promotional materials submitted to the Graduate Secretary for electronic distribution and CSUS website posting (and bulletin board posting, if desired) at least two weeks before the scheduled defense. At a minimum, the announcement should include: student’s name; degree program and type; proposal title; committee member names (with chairperson identified); date, time, and location of the proposal defense; and abstract. See example on the next page.
Title of the Thesis or Project
Degree Type (Master's Thesis, Master's Project) Proposal Defense

by
Student FirstName LastName
Day, Month ##, 20##
Time: #:00 a.m. (or p.m.)
Room: ###, Natural Resources Building

Abstract
Write a short abstract, approximately one paragraph, that succinctly presents the proposal's purpose, need/rationale, context, methods and/or procedures, and any other information that is relevant to help others understand your work.

Committee Members:
Dr. Aaaa Bbbbb, Chairperson
Dr. Cccccc Dddddddd
Dr. Eeeeee Ffffffff

If you choose also to create a flier for hallway posting, feel free to add some design elements to the flier (such as a relevant photo or other graphic representing your proposal topic or context). However, the above information should be submitted to the Graduate Secretary for email distribution and forwarding to the IT person who will post the defense announcement in the Events section on the CSUS website homepage.

After the public proposal, and in a closed session, members of the Guidance Committee will discuss the suitability of the proposal and indicate their approval on the relevant Thesis or MS-B Project Proposal Approval form (see Appendix A) or the CSUS Graduate Forms website. This form must be signed by the student, the Guidance Committee members, Graduate Program Coordinator, and the Department Chairperson.

Students conducting research as part of their work must ensure compliance with the university requirements and guidelines pertaining to use of human subjects and vertebrate animals in research, and to safe use of hazardous materials. The necessary forms to secure approval from the Institutional Review Boards (IRB) may be obtained from the Human Research Protection Program (http://www.humanresearch.msu.edu).

A thesis is required for the MS-A degree. According to University regulation, each MS-A student must register for a minimum of 6 credits in CSUS 899 Thesis Research prior to awarding of the degree.

Students are required to write an acceptable thesis containing a contribution to knowledge, conforming to professional standards of evidence and argument, and using clear and correct language.

Final Thesis Defense and Thesis Submission (for MS-A students)
Purpose of Thesis Defense:
The thesis defense is a public seminar that is open to attendance by faculty, staff, students, and other invited guests. Seminar announcements should be made at least two weeks prior to the seminar. Guidelines for content, format, and timing of announcements should follow those for the proposal defense, as described above, but labeled “Thesis Final Defense” rather than “Thesis Proposal Defense.”

Students must provide Guidance Committee members with a copy of the thesis (marked “DRAFT”) at least two weeks prior to the defense seminar.

Structure of Thesis Defense:
The thesis should be presented using appropriate visual and other aids. Time should be allotted for questions from and discussion with the Guidance Committee and other audience members. Following the public seminar, guests will be excused and the student and Guidance Committee will continue in a closed session for additional discussion and Guidance Committee presentation of clarifications and suggested modifications. Guidance Committee members may require corrections or revisions before final approval.
Formatting Your Master's Thesis:
Prepare your Master's Thesis following the specific instructions in the Graduate School Formatting Guide (find appropriate link #1 on: http://grad.msu.edu/etd/). This Formatting Guide sets forth the thesis and dissertation requirements established by Michigan State University for required electronic submission. The thesis should be prepared in accordance with the instructions of this guide. PDF copies must be provided to the Department (via the Graduate Secretary). Check with Guidance Committee members about their preference of copy type (digital or hard copy, bound or unbound).

Record of Completion and Submission of Thesis:
After Guidance Committee members have assessed the acceptability of the thesis and defense, and agreed on approval of the thesis, the committee members should sign the Report on Master's Plan A Thesis Final Examination (http://www.csus.msu.edu/graduate/forms), which should be pre-prepared by the student prior to the defense. It will then be submitted to the Graduate Secretary, who will forward the form for additional signatures and will confirm successful completion with the Graduate School.

Michigan State University now accepts electronic submissions of theses only via ProQuest at www.etdadmin.com/grad.msu. The Graduate School staff reviews only the PDFs that are uploaded through ProQuest. Be aware that a submission via ProQuest does not mean that the document has been ACCEPTED. The review process is interactive and can take anywhere from a few hours to weeks, depending upon the extent of the necessary revisions and how diligent the author is when making the necessary revisions.

Note that the Graduate School now permits submission of supplementary materials to ProQuest. Such materials will not be reviewed for formatting requirements, but must be acceptable by ProQuest and comply with ProQuest’s criteria and storage limits. All supplementary materials need the written approval of the thesis/dissertation committee chairperson.

Also note that the MSU Library may accept supplementary materials approved by the thesis/dissertation committee chairperson per their collection criteria. These are not reviewed by the Graduate School. Questions about submission of these materials to the library should be directed to the Assistant Director for Digital Information, currently Shawn Nicholson (nichol147@mail.lib.msu.edu).

Professional Project Defense and Associated Report Submission (for MS-B students)
A professional project capstone project and associated report is required for the MS-B degree. Each MS-B student must register for 3 credits in CSUS 898 Master’s Professional Project prior to awarding of the degree. (Reminder: the student may defer receiving a grade for the 898 credits for no more than six months beyond the end of the semester for which they are enrolled. After that, the grade automatically converts to a grade of U (Unfinished). After this, a student must re-enroll (and pay again) for the CSUS 898 credits. (A student make enroll for a maximum of 9 credits of CSUS 898.)

Because the Plan B emphasizes professional development, the student designs and completes a significant project that helps to further his/her professional goals. Because this project is for an advanced degree at an academic institution, the project needs to be informed by the current literature as this will 1) ensure that the work is current and 2) will help students learn how to practice their professional work as a scholar practitioner. The project should be an important training experience and should develop specific professional skills and knowledge. Although the project may have practical research applications, the applicability of the results is likely to be local (e.g., to the organization, the location, or a particular situation) rather than general (e.g., to the literature or theory-building).

Format:
A Plan B project can take many forms, and should be based on the goals of the student. Ideally the Plan B project should be significant in scope and should build on the student’s experience. Examples of Plan B projects could include:

- The student does an internship with a community organization and takes the lead on authoring a large grant proposal on behalf of (but in collaboration with) the organization.
- The student does an empirical research project for a community organization and writes it up and presents it to the community.
- The student works in classrooms with children and develops or adapts a curriculum for a specific audience.
- The student writes an extensive literature review and does an applied practicum on a new area/topic that they plan to move into for their career.
• The student does a piece of applied research and writes the results into a professional bulletin or other outlet that is useful to a practitioner community.

• The student prepares instructional media resources appropriate for stakeholders or professional community.

Note: The above are simply examples. Other students have completed projects such as: doing planning/design work for interpretive projects, developing practical tools and/or handbooks for a target client group, planning and implementing a resource management project, conducting background literature on and proposing curricula and associated evaluation procedures or tools for a community program.

Project Proposal and Proposal Defense:
The student shall prepare, present, and defend a Plan B project proposal to their Guidance Committee prior to beginning any work on the project itself. The project should be laid out via a written proposal before it is begun. Generally, the proposal should consist of: 1) a statement of professional and learning goals; 2) a statement indicating how the Plan B project is designed to address professional and learning goals; 3) a narrative on how the project is informed by the current literature or state of the art in terms of subject matter, techniques, or practice; and 4) an outline detailing proposed procedures, project products, and potential significance and application of the project results.

The written proposal must be provided to the Guidance Committee at least two weeks in advance of the scheduled proposal date. Approval of the proposal by the committee is required before field data collection, project-associated “internship,” or production work begins.

Note: If the project will involve any research using human subjects or laboratory animals, an IRB application should be submitted to the appropriate university review board after Guidance Committee review of the project proposal. The application must be approved by the review board before any data collection begins.

Structure of Final Project Defense:
Upon conclusion of the project and completion of the selected product, the student shall present and defend his/her final project. The final defense meeting serves as the student’s final certifying examination. This final presentation and defense shall be public and done under the basic format of a brief public session with a 15- to 30-minute presentation and a 15- to 30-minute public question-and-answer period followed by a private session with the Guidance Committee. The project defense should be presented using appropriate visual and other aids.

The Plan B final project defense shall be open to the public. The student shall notify the Graduate Studies Secretary at least 14 days in advance of the final project defense (follow the format for proposal defense notification, page 17, but clearly state “final defense” rather than “proposal defense”). Accompanying this notice should be a flier announcing the final defense that has been developed by the student in consultation with her/his academic advisor. The Graduate Studies Secretary shall forward this notice to faculty and graduate students. Notification shall be via email, with flier attached, and submitted by the Graduate Secretary to the IT team for website posting in Events on the CSUS website homepage; printed copies of the flier will be posted on the Graduate Studies bulletin board by the Graduate Secretary.

Formatting Your Master’s Project:
As illustrated in the project description above, the actual final project can take many forms. The Guidance Committee will determine if a separate final report is necessary in addition to the product (sometimes some type of report or other written document already is included in the project format, so another one is not necessary). If necessary, however, the Guidance Committee will determine the format and content. Committees often include a requirement for a “student’s lessons learned” reflective piece to supplement the actual project and (if required) report.

Record of Completion and Submission of Project:
The student will provide copies of the final project (and project report), approved by the Guidance Committee, to the student’s major advisor, to the CSUS Department via the Graduate Secretary, and to other Guidance Committee members. The department requires that a PDF or Word document of the final report, plus a copy of the product, be sent to the Graduate Secretary for inclusion in the departmental library. (Plan B degrees are not monitored by, nor are Plan B projects submitted to, the MSU Graduate School.)
After Guidance Committee members have assessed the acceptability of the project, associated report, and defense, and agreed on approval of the project, the committee members should sign the Report of Master’s Plan B Project Final Examination form that has been pre-prepared by the student prior to the defense. Forms are found on the CSUS Graduate Forms web page: (http://www.csus.msu.edu/graduate/forms). The completed and signed form will be submitted to the Graduate Secretary.

**MSU Teacher Certification Internship Year**

Students participating in MSU’s Teacher Certification Internship Year are asked to enter the CSUS graduate program after their internship year is completed. Students taking this option should review the advising note written specifically for Agriscience and Natural Resource Educators (see Appendix B for details). This note is meant to clarify the policy on the use of TE courses in the CSUS graduate program.
Master of Science (MS-A and MS-B\textsuperscript{5}) Degree Calendar & Progress Checklist

Name: \\
Advisor: \\
First semester of degree program: 

Prior to Attending the First Semester of Classes

☐ Attend the required CSUS Department graduate student orientation (usually scheduled on the Monday prior to the first day of fall semester classes). Students are encouraged to participate in orientation activities offered by the Graduate School (and for international students, by the Office of International Students and Scholars).

☐ Contact your initial academic advisor when you arrive in East Lansing to discuss degree requirements, to plan your courses (especially those for the first semester), and to discuss other student-related concerns.

☐ Formalize assistantship expectations and paperwork (if you have an assistantship), including the following forms:

- I-9 instructions and forms: http://www.hr.msu.edu/hiring/I9Information.htm
- GA Appointment Forms: available through CSUS Graduate Secretary

If you have been awarded an assistantship or are otherwise employed on campus, contact your supervisor immediately to complete employment paperwork, discuss your assignment and schedule, and address any issues related to your employment. Note the dates of work for each semester as identified below:

- Fall semester appointments: August 16 - December 31
- Spring semester appointments: January 1 - May 15
- Summer appointments: May 16 - August 15

☐ Register for classes.
- Master’s students must be registered for a minimum of 9 credits per semester (6 if hired as a graduate assistant) to be considered “full time.”
- Master’s students must register for both CSUS 800 and CSUS 802 during their first fall semester.

Each Semester (as relevant)

☐ Complete or update assistantship or other wage forms, as relevant to your individual work pattern. See CSUS accountants.

First Semester

☐ Take CSUS 800 and CSUS 802, the two required core CSUS courses (offered fall semester).

☐ Begin RCR training (foundational materials presented in core courses; see RCR materials for other sources for training, and look at the RCR Record of Training that must be submitted by February 1, along with your annual assessment materials)

☐ Begin talking with potential faculty committee members so that you can identify your committee members and plan your program during the second semester. The MS Planning and Program of Study forms are available at http://www.csus.msu.edu/graduate/forms

Second Semester

☐ Select Guidance Committee members in consultation with your advisor.

If, as you move through your program, you change your interest area, or as you become more familiar with the faculty and their interest areas, you may – upon mutual agreement – change academic advisor to better meet your academic and professional development goals. Please use the Change in Program Plan form available on the CSUS website (http://www.csus.msu.edu/graduate/forms) or page 76 of this handbook.

\textsuperscript{5} NOTE: PCMI master’s students’ schedule will be different. See sample on page 14.
Complete a draft of the relevant MS Planning and Program of Study form, on which you identify the courses selected to meet specific requirements for your degree. This form helps assure that requirements relevant to your degree are met. The final signed version of this form constitutes your official Program of Study plan, which ultimately helps with the final certification process of your degree. Forms are accessible on the CSUS website (http://www.csus.msu.edu/graduate/forms) and in Appendix A of this handbook. Choose the form appropriate for your degree program (CSUS, STPAM) and degree type (MS-A or MS-B). If you are a PCMI MS student, indicate that on the form.

Schedule and hold an official meeting with your Guidance Committee to discuss your academic and professional goals and the courses you intend to take, as presented on the relevant MS Planning and Program of Study. You may wish to discuss preliminary ideas for a Plan A Thesis or Plan B Professional Project.

HELPFUL HINT: It is the student’s responsibility to find a date appropriate for all Guidance Committee members, to schedule a room, prepare an agenda (in consultation with Advisor), and prepare the room, as needed (suggestions include providing appropriate audio-visual aids, written agenda, preparing relevant written plans and forms [as appropriate to the meeting agenda]).

HELPFUL HINT: Many faculty members are on Academic Appointments (9-month) rather than Annual Appointments (all year), so be sure to schedule committee meetings and other committee activities (including reading of proposals and thesis/project drafts) when they are officially on duty. Exceptions can be made with the approval of all committee members; however, you should plan your work with respect for faculty appointments. Often they are involved in field research, study abroad programs, or otherwise away from the University during the time outside of their appointments. Most often this is during the summer; however, some faculty have non-traditional schedules. Be sure to find out official appointment types and schedules of your Guidance Committee members.

Finalize your program plan; complete and submit the appropriate MS-A or MS-B Planning and Program of Study form with appropriate signatures. Forms are available on the CSUS (http://www.csus.msu.edu/graduate/forms) website. A copy of your completed, approved form will be placed in your permanent academic file.

Second or Third Semester

Prepare a written draft of your Plan A Thesis or Plan B Professional Project proposal. Discuss it with your advisor and secure his/her approval prior to submitting it to your Guidance Committee.

Revise your proposal based on the feedback from your advisor. Provide each member of your Guidance Committee with a copy of your proposal at least two weeks/14 days prior to the committee meeting/proposal defense.

HELPFUL HINT: Students should have peers (and, if needed, professional editors) review and provide editorial recommendations for the thesis/project proposal (and final thesis/project report) prior to submission to your Advisor and Guidance Committee. Take advantage of resources at the Writing Center.

Schedule, submit notification of, and hold an official meeting of your Guidance Committee, to include a public proposal defense, to present, discuss, and approve your proposal, and review progress on your academic program. Prepare required forms, available at: http://www.csus.msu.edu/graduate/forms. See guidelines on page 17 for developing proposal defense notification materials, to be submitted to the Graduate Secretary at least 14 days prior to the defense.

Secure approval from the Institutional Review Board (IRB), as appropriate to your research/project. Instructions and application templates are available online at: http://www.humanresearch.msu.edu/

Submit your approved, signed Thesis or Project Proposal Approval form to the Graduate Secretary (available at http://www.csus.msu.edu/graduate/forms). Note that you must include on this form the date when your IRB application and thesis/project proposal were submitted to the IRB office. (You must indicate on your form the date when your proposal and IRB application was submitted to the IRB. No work on the thesis or project can begin until approval is received.)

Revised 9/6/14
**Final Semester**

**Preparing for Thesis Defense/Professional Project Examination**

- **Check** deadline dates for your planned final semester, as they pertain to completing the MS degree, at: [http://grad.msu.edu/etd/dates.aspx](http://grad.msu.edu/etd/dates.aspx) Dates also are shown in the “box” on the next page.

- **Enroll** for a minimum of one (1) credit in the semester in which you plan to defend your thesis/project.

- **Check** StuInfo to be sure all DFs (deferred grades) have been converted to grades and that your GPA is at least 3.00. You cannot graduate unless these two conditions have been met.

- **Complete** and **submit** the on-line Application for Graduation by the end of the first week of the semester of planned graduation (first week of spring semester for summer graduation): [http://www.reg.msu.edu/StuForms/GradApp/GradApp.asp](http://www.reg.msu.edu/StuForms/GradApp/GradApp.asp) You must apply for graduation even if you do not plan to attend the ceremony so that final paperwork can be sent to and certified by the departmental Graduate Secretary.

- **Review** the Graduate School’s electronic submission guidelines (for MS-A theses) at [http://grad.msu.edu/etd/](http://grad.msu.edu/etd/)

- **Prepare** for commencement; see guidelines and checklist provided by the University: [http://commencement.msu.edu/](http://commencement.msu.edu/)

**Completing Your Thesis/Professional Professional Project**

- **Work** with your advisor/committee chairperson to write and edit a draft of your Thesis/Professional Project.

- **Submit** the draft of your Thesis or Professional Project to your advisor and Guidance Committee members at least two weeks/14 days prior to your scheduled Final Defense date.

- **Schedule** a final defense seminar/examination date/time with your Guidance Committee for presenting and defending your work. This seminar is an open session to which students and faculty in the CSUS Department are invited.

- **Develop and submit** notification materials for your Thesis/Professional Project defense to the Graduate Secretary at least two weeks prior to the defense seminar (clearly marked as final defense). The Secretary will send email notifications, post the flier on the graduate bulletin board, and submit for posting on the CSUS website homepage.

- **Present** and **defend** your Thesis or Professional Project at the seminar.

- **Edit** your draft, as needed and requested by your committee. MS-Plan A students should refer to link I #1 on [http://grad.msu.edu/etd/](http://grad.msu.edu/etd/) for format guidelines.

  Plan B projects are not monitored by the Graduate School. Plan B students should work with Committee members to finalize their project/report.

- **Prepare the form** (prior to your final defense) and **obtain signatures** from the members of your Guidance Committee on the Report of Master’s Plan A Thesis Final Examination or Report of Master’s Plan B Project Final Examination and submit to the Graduate Secretary.

- **If Plan A, Prepare** the final copy of your thesis according to the Graduate School Guidelines for electronic submission (see [http://grad.msu.edu/etd/](http://grad.msu.edu/etd/)).

- **If Plan A, prepare** an abstract of your thesis and an abstract title page are to be filed with “Dissertation/Thesis Abstracts.”

- **If Plan A, Electronically submit** your thesis to the Graduate School (see box on the next page).

*Plan B students completing a Professional Project DO NOT submit a copy of their project to the Graduate School. Rather, submit an electronic copy of the project and report to the CSUS Department via the Graduate Secretary.*
**ELECTRONIC SUBMISSIONS OF THESES**

MSU accepts *only* electronic theses and dissertations submitted electronically via ProQuest. Instructions are available at [http://grad.msu.edu/etd/](http://grad.msu.edu/etd/) Submit via ProQuest at [http://www. etdadmin.com/cgi-bin/school?siteId=295](http://www.etdadmin.com/cgi-bin/school?siteId=295) A fee is charged by ProQuest-UMI if the thesis is to be copyrighted.

The target date for **FINAL APPROVAL** of an electronic Thesis or Dissertation to the Graduate School for graduating the semester of that submission is FIVE working days prior to the first day of classes for the next semester (see future target dates below). **Be aware that a submission via ProQuest does not mean that the document has been ACCEPTED.** The review process is interactive and iterative. Therefore, final approval can take anywhere from a few hours to a few weeks, depending upon the extent of the necessary revisions and how diligent the author is when making the necessary revisions.

**Electronic Submission’s Approval Target Dates:**
- Fall 2014: December 19, 2014
- Spring 2015: May 13, 2015
- Fall 2015: December 16, 2015
- Spring 2016: May 11, 2016
- Summer 2016: August 24, 2016
- Fall 2016: December 14, 2016
- Spring 2017: May 10, 2017

**Graduation during the semester of the electronic submission is guaranteed only if the document is APPROVED on or before the target date for that semester**

*NOT required for MS-B projects*

☐ Provide a PDF file of your thesis or project/report to the department Graduate Secretary and hard-bound copies to your Advisor and Guidance Committee members. (Individual committee members may request an alternative format, such as soft-bound, unbound, or digital copy.)

**After Completing Your Degree**

☐ Complete a short online MSU exit survey (required for all students graduating with a Plan A or Plan B master’s degree, or with a Doctoral degree). Only students who have applied for graduation have access to the survey. The survey asks questions about educational experiences in MSU graduate programs as well as about immediate professional plans. The Graduate School uses data from this survey when reviewing graduate programs, and to guide decisions about services and initiatives for graduate students.

The identity of all respondents will be kept confidential; only aggregate (group) information will be made available to faculty and administrators. The students will receive an e-mail message from the Dean of the Graduate School with a link to the survey, which takes about 5-10 minutes to complete. However, students do not need to wait for that e-mail message to complete the survey after applying for graduation. Instructions and links for completing the survey are available via [http://grad.msu.edu/etd/](http://grad.msu.edu/etd/); see #3, link to appropriate survey.

**Instructions for students:**
- Master’s Students should access the following website: [https://www.egr.msu.edu/masters/survey/](https://www.egr.msu.edu/masters/survey/)
- Enter your MSU NetID (Login Name) and Password
- Complete all the items on the survey. When finished, click SUBMIT.

If you cannot open this survey, contact Katey Smagur by email at smagurka@msu.edu; include your name, PID #, degree level (Ph.D., MA/MS) and semester of graduation. You will be notified when to complete the survey.

☐ Complete the CSUS Exit Survey and Exit Interview.

☐ Read and comply with MSU’s Exit Check List to ensure that you have met all requirements and submitted all appropriate forms, questionnaires, and other paperwork.

☐ Pay final fees.
**Doctor of Philosophy Programs**

The Doctor of Philosophy (Ph.D.) programs in the Department of Community Sustainability are designed to enable students to generate new knowledge and learn to apply their scholarship to practice in complementary fields responsive to rapidly changing social, natural, and agricultural conditions. Applicants may choose one of two degree programs: “Community Sustainability” or “Sustainable Tourism and Protected Area Management.”

Applicants should indicate their preference, as related to personal professional goals, in their application materials. Each of the two degree programs has its own official code, so specify this in the official MSU application:

- **5390:** Community Sustainability
- **5377:** Sustainable Tourism and Protected Area Management

**General Requirements for the Doctor of Philosophy Degree**

In addition to meeting the requirements of the University and the College of Agriculture and Natural Resources (CANR), Ph.D. students in the Department of CSUS must meet the requirements described below.

**Minimum Credit Requirements:** Doctoral students in CSUS and STPAM programs are required to complete a minimum of 60 semester credits, 24 of which are allocated to dissertation research.

**Time for Degree Completion:** Doctoral programs must be completed in no more than eight (8) years from the semester of admission or semester in which the first course used toward degree requirements was taken, whichever comes first.

**GPA Expectations:** A minimum 3.00 cumulative grade point average is required for graduation by both University and Department policies. Grades are reviewed at the end of each semester by the Graduate Program Coordinator. If a student’s overall GPA falls below 3.00, the student is placed on probation. They will be notified by mail and/or email, and should schedule an appointment immediately with their major professor to discuss their academic progress. Under such conditions, the student will receive counseling, remediation recommendations, or other actions deemed appropriate to assist the student in achieving success. In consultation with their advisor, the student should develop a written plan to address deficiencies to be placed in student’s permanent file. Students placed on GPA-based probation will have a maximum of two semesters to raise their GPA to at least 3.00. If this minimum is not achieved, the student is counseled by their major professor and may be required to withdraw from the Ph.D. program.

**Program Planning and Use of GradPlan** ([http://gradplan.msu.edu](http://gradplan.msu.edu)): A student’s program of study is developed in cooperation with the Guidance Committee chairperson and Guidance Committee. The Guidance Committee should be formed within the first two semesters of the doctoral program, and the degree plan filed within one semester of when the committee is formed.

Each doctoral student (beginning with the Fall 2013 cohort) is required to maintain her/his own academic records in GradPlan, which replaces the formerly used Report of the Guidance Committee. GradPlan is a web-based program for Ph.D. students to create and store their Ph.D. Degree Plans and track degree progress. However, use of this tool does not remove the responsibilities of students, faculty, and committees to work closely with each other in developing the degree Program Plan. To aid in the process of identifying and labeling focus areas and selecting courses, and to assist with final degree certification, *Ph.D. Program Planning forms* are available on the CSUS website. The student’s committee should meet to discuss the planned program, and the student should complete and submit the advisor-signed relevant CSUS or STPAM *Ph.D. Program Planning Form* prior to the program plan information being entered into GradPlan for review and digital approval by all committee members.

**Filing of Program of Study:** After completing the relevant department *Ph.D. Program Planning Form*, the degree plan has been agreed upon among committee members, and the relevant signatures obtained (student, advisor, Graduate Program Coordinator), the student should fill in all the information in GradPlan, then submit for official approvals. This official Program of Study must be completed, approved, and filed via GradPlan no later than one semester after forming the Guidance Committee, and the recommendation is to file no later than the beginning of the student’s third semester. Reminder: Doctoral students are required to form their Guidance Committee no later than the end of their second semester of degree work. The CSUS and STPAM Program Planning forms are available in the Appendices of this handbook and on the CSUS website (Forms section, available at: [http://www.csus.msu.edu/graduate/forms](http://www.csus.msu.edu/graduate/forms). The signed *Ph.D. Program Planning Form* will be filed in the student’s permanent academic file in the CSUS Department. The official
Program Plan will be filed via GradPlan. Only doctoral students have access to GradPlan. The student’s committee members will be able to view the degree plan information via the Forms Tracking Utility (FTU).

Before a Ph.D. Degree Plan becomes official, the Graduate Secretary and Graduate Program Coordinator (who have the role of “Form Checker”) will review the plans for essential elements and compare them with the department Ph.D. Program Planning Form to assure that the respective degree plan requirements are included.

The program of study can be amended later by first submitting a Change of Program Plan (see Appendix A or CSUS website http://www.csus.msu.edu/graduate/forms) within the CSUS Department; then, after receiving committee approvals, the changes can be submitted via GradPlan.

NOTE: If additional lines for courses are needed, or a student is pursuing one or more specializations or certifications, he/she should append the Specialization form.
Curriculum Requirements for the Doctor of Philosophy Degree: Community Sustainability

The student’s program of study, developed in cooperation with and approved by the student’s Guidance Committee, must include the requirements specified below.

**Required core course** (should be taken during the student’s first fall semester)  
CSUS 800, Foundations of Community Sustainability  

*Note: Ph.D. students who completed ACR 800 as part of their MS degree may submit a course waiver proposal to be approved by the student’s Guidance Committee. In its place, they should add another relevant course to one of the focus areas or another research course.*

**Research Methods**  
Students must complete nine (9) credits of course work in advanced research methods, to be selected in consultation with the student’s Guidance Committee, including at least three (3) credits each of quantitative and qualitative research methods. The research methods course requirements cannot be waived.

*Note: Ph.D. students having minimal research background should consider taking CSUS 802 as a foundation for advanced research methods courses.*

**Focus Areas (2)**  
Focus areas are self-defined and designed to meet students’ professional goals and scholarly interests. They should be developed in consultation with the student’s Guidance Committee and should be consistent with and complementary to the mission and philosophy of the Department of CSUS. Focus areas may be developed around one or more of the five CSUS themes below, or be completely self-defined (and titled).

1. Community Food and Agricultural Systems  
2. Education and Civic Engagement  
3. Natural Resources and the Environment  
4. Recreation and Tourism Systems  
5. International Development  

Students must complete a minimum of 24 credits of coursework across two self-defined focus areas, including at least 9 credits in each focus area. At least one course in each focus area must be from CSUS courses (CSUS alpha codes). The other 6 credits may be associated with either of the focus areas, or split across the two focus areas. (Some students pursue specializations or certifications as all or part of one or both of their focus areas. Specialization or certification courses also may be taken above and beyond degree requirements, and need not appear on Program Plans.)

**Dissertation Research**  
CSUS 999, Doctoral Dissertation Research  
Students must complete a minimum of 24 credits and **no more than 36 credits** of CSUS 999.

Doctoral students are expected to select 800- and 900-level courses, but may take 400-level courses when no comparable courses exist at the 800 or 900 levels. However, it is suggested that no more than nine (9) credits of 400-level courses be taken as part of the Ph.D. curriculum requirements; 300-level courses are not allowed in a Ph.D. program.

Graduate credits may be transferred from other accredited institutions or international institutions of similar quality if they are appropriate to a student’s program of study. Transfer credits must have a grade of 3.0 or higher (or equivalent) and must have been completed within the time limits for earning the MSU Ph.D. degree (no more than eight years). The Department Chairperson and CANR Associate Dean must approve the use of transfer credits for the Ph.D. program. Courses applied toward any previously earned degree may not be used as transfer credits for the Ph.D. program.

**NOTE:** Collateral courses to overcome deficiencies may be required in addition to the requirements for the CSUS doctoral degree. Collateral course work **will not** count toward the minimum requirements for the doctoral degree.

Revised 9/6/14
Curriculum Requirements for the Doctor of Philosophy Degree: Sustainable Tourism and Protected Area Management

The student’s program of study, developed in cooperation with and approved by the student’s Guidance Committee, must include the requirements specified below.

Required core courses

CSUS 800, Foundations of Community Sustainability (taken during student’s first fall semester)

Note: Ph.D. students who completed ACR 800 as part of their MS degree may submit a course waiver proposal to be approved by the student’s Guidance Committee. In its place, they should add another relevant course to one of the focus areas or another research course.

CSUS 814, Sustainable Tourism & Protected Area Management: Theories & Applications

Note: Ph.D. students who completed ACR 814 as part of their MS degree may submit a course waiver proposal to be approved by the student’s Guidance Committee. In its place, they should add another relevant course to one of the focus areas or another research course.

Research Methods

Students must complete nine (9) credits of course work in advanced research methods, to be selected in consultation with the student’s Guidance Committee, including at least three (3) credits each of quantitative and qualitative research methods. The research methods course requirements cannot be waived.

Note: Ph.D. students having minimal research background should consider taking CSUS 802 as a foundation for advanced research methods courses.

Focus Areas (2)

Focus areas are self-defined and designed to meet students’ professional goals and scholarly interests. They should be developed in consultation with the student’s Guidance Committee and should be consistent with and complementary to the mission and philosophy of the Department of CSUS. Additionally, focus areas should be developed around areas of sustainable tourism, protected areas, recreation, or complementary areas (self-defined and self-titled).

Students must complete a minimum of 21 credits of course work across two focus areas, including at least 9 credits in each focus area. At least one course in each focus area must be selected from CSUS courses (CSUS alpha codes). The other three credits may be associated with either one of the focus areas, or split across the two focus areas. (If CSUS 814 was taken as part of a former degree program, an additional three credits should be added to a focus area or research methods, as best serves the student).

Dissertation Research

CSUS 999, Doctoral Dissertation Research

Students must complete a minimum of 24 credits and no more than 36 credits of CSUS 999.

Doctoral students are expected to select 800- and 900-level courses, but may take 400-level courses when no comparable courses exist at the 800 or 900 levels. However, it is suggested that no more than nine (9) credits of 400-level courses be taken as part of the Ph.D. curriculum requirements; 300-level courses are not allowed in a Ph.D. program.

Graduate credits may be transferred from other accredited institutions or international institutions of similar quality if they are appropriate to a student’s program of study. Transfer credits must have a grade of 3.0 or higher (or equivalent) and must have been completed within the time limits for earning the Ph.D. degree (no more than eight). The Department Chairperson and CANR Associate Dean must approve the use of transfer credits for the Ph.D. program. Courses applied toward any previously earned degree may not be used as transfer credits for the Ph.D. program.

NOTE: Collateral courses to overcome deficiencies may be required in addition to the requirements for the CSUS doctoral degree. Collateral course work will not count toward the minimum requirements for the doctoral degree.
**Doctor of Philosophy Guidance Committees**

<table>
<thead>
<tr>
<th>Terminology</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Initial Advisor:</strong> Advisor first assigned to applicants based on a match in interests and faculty member’s capacity to accept new students. This person usually becomes the student’s major professor (confirmed at the time of filing of official Program of Study), but the student has the right to identify a different major professor if they find someone more appropriate. A change can be made only if the newly identified faculty member agrees and has the capacity to accept another student.</td>
</tr>
<tr>
<td><strong>Major Professor:</strong> Faculty member who serves as your primary advisor and mentor throughout your academic career at MSU.</td>
</tr>
<tr>
<td><strong>(Academic) Advisor:</strong> Used interchangeably with &quot;Major Professor&quot; or “Guidance Committee Chairperson”</td>
</tr>
<tr>
<td><strong>Dissertation Advisor:</strong> Usually your major professor, but under some circumstances it may be more appropriate for another faculty member (committee member) to serve as the dissertation advisor. One example is students using a Hospitality Business faculty member as the dissertation advisor, even though the degree is in the CSUS Department.</td>
</tr>
<tr>
<td><strong>Guidance Committee:</strong> Group of four regular faculty members, including your advisor, who work with you to develop your academic and curriculum plan, mentor you, and comprise your Doctoral Final Examination committee (dissertation defense).</td>
</tr>
<tr>
<td><strong>Regular Faculty:</strong> All persons appointed under the rules of tenure and holding the rank of professor, associate professor, assistant professor, or instructor, and persons appointed as librarians. In addition, the principal administrative officer of each major educational and research unit of the university shall be a member of the ‘regular faculty.’</td>
</tr>
</tbody>
</table>

**Guidance Committee Composition and Formation Deadline:** Doctoral degree Guidance Committees will consist of a minimum of four (4) MSU regular faculty members. Two of these members, including the Guidance Committee chairperson, must be CSUS regular faculty members. The third member must be a regular faculty member from another academic unit. The fourth member must also be a regular faculty member, but may be from either within or outside the CSUS Department. At least three Committee members must have an earned Ph.D., preferably in a field related to those of the student’s interests/focus areas. The Guidance Committee also will serve as the student’s examination committee. Requested exemptions for non-regular committee members must be in accordance with University and College of Agriculture and Natural Resources guidelines (see [http://grad.msu.edu/forms/docs/nontenure.pdf](http://grad.msu.edu/forms/docs/nontenure.pdf)).

The committee must be formed **within the first two semesters** of the student’s degree program (see GSSR 2.4.1). The student should make an effort to identify, talk with, and take classes from other faculty members to help get to know and identify potential members of the Guidance Committee. The student’s major professor may offer suggestions, but ultimately it is the student’s responsibility to identify other committee members (based on match of interests and expertise with student’s goals, and who can assist with various components of the graduate experience), talk with them and ask if the other faculty members are willing to serve on the committee. After the Guidance Committee members have been finalized, the student should schedule a committee meeting to discuss professional and academic goals, finalize the official Program of Study (to be submitted within one semester after formation of the Guidance Committee, see GSSR 2.1.4), and begin preliminary discussions about the dissertation research.

The composition of your Guidance Committee is checked for compliance by the Graduate Secretary and/or Graduate Program Coordinator, then approved by the CSUS Department Chairperson and the CANR Dean, as indicated through their electronic signatures on the formal Program of Study (which is completed through GradPlan, available online at [http://gradplan.msu.edu](http://gradplan.msu.edu)). However, prior to finalizing the online Program of Study and submitting it for approvals, the student should complete the relevant CSUS or STPAM Ph.D. Program Planning Form, to be used for discussion and approval by committee members during the committee meeting.
Students always reserve the right to change any committee member. This is done by talking with (and getting approval from) both the departing and incoming committee members, writing a letter to the Department Chairperson, and copied to the Graduate Program Coordinator (submitted via the Graduate Secretary) explaining the change request, and being signed by the student, the departing committee member, and the incoming committee member. (This letter will be attached to the Change in Program Plan form.) On rare occasions, the Department may make changes – with concurrence of the student – such as in cases when a Committee member leaves the University for any reason. Typically, the student is informed and the same procedure followed as for student-initiated changes. The Department does not simply "assign" a committee member.

Once designated, the Guidance Committee has the responsibility to meet periodically to oversee the graduate student’s progress as long as the graduate student continues in good standing. Any desired or required changes in the membership of the Guidance Committee may be made by the graduate student with the concurrence of the CSUS Chairperson, or by the unit with the concurrence of the graduate student, in accordance with University, College, and Department policy.

The Guidance Committee, with the concurrence of the graduate student, may form a dissertation committee to supersede or supplement the Guidance Committee. Committee or dissertation chairpersons on leave shall provide for the necessary guidance of their advisees during their absence.

To make any committee or program changes, use the Change in Program Plan form located at http://www.csus.msu.edu/graduate/forms. Refer to the G.S.R.R. 2.4 (Graduate Students Rights and Responsibilities) for more information on MSU policies related to Guidance Committees (http://grad.msu.edu/gsrr)

Additional Ph.D. Requirements (for both degree programs, CSUS and STPAM)

Comprehensive Program Statement

The Comprehensive Program Statement is a scholarly document that is used to prepare students and their Guidance Committees for the comprehensive examination. The Comprehensive Program Statement presents an integrated description of a student’s educational and professional background, motivation for pursuing the Ph.D. degree, curriculum program plan, research interests, and scholarly areas of focus. The process of developing the Comprehensive Program Statement helps students and their committees develop a common understanding of the scholarly basis of students’ focal areas.

Contents:
The statement must include the following components:

1. Personal Statement: a personal statement describing the student’s prior academic and professional background and rationale for pursuing a Ph.D. degree in CSUS
2. Goals: a discussion of the student’s academic and professional goals, with emphasis on the connection to the vision, mission, and philosophical foundations of the Department of CSUS
3. Research Interests: a description and discussion of the student’s research interests, with emphasis on the rationale for the two chosen focus areas and how they support the student’s academic and professional goals
4. Description of Focus Area 1: a description and discussion of the student’s intellectual interests in the focus area, including the theories, empirical models, and research methods related to the focus area; references to publications should be cited and listed in a readings list
5. Description of Focus Area 2: a description and discussion of the student’s intellectual interests in a second focus area, including the components listed above for Focus Area 1
6. Program Plan: an outline of the student’s curricular program plan, including core, research methods, focus area, and dissertation course credits
7. Curriculum vita or resumé
8. Proposed plan for the comprehensive exam: a brief outline of the organization, nature, and scope of the comprehensive exam
Procedures and Timeline:
The Comprehensive Program Statement may be prepared and submitted at any time during a student’s academic program. However, the program statement must be approved by the student’s Guidance Committee no less than 90 calendar days prior to the date of the comprehensive examination. Guidance Committee members may give their approval of the Comprehensive Program Statement either by 1) signature/date on the signature page of the program statement, or 2) confirmation of approval in writing or by electronic mail from the committee member to the Guidance Committee chairperson, to be attached to the advisor-signed signature page. Upon approval by the Guidance Committee, the Comprehensive Program Statement will be submitted to the Graduate Secretary and retained in the student’s file in the department office.

Upon approval of the Comprehensive Program Statement by members of the Guidance Committee, the committee chairperson will make the Comprehensive Program Statement available to the department faculty for review by electronic mail. Sharing the Comprehensive Program Statement is intended to strengthen the collegial and collaborative process of preparing for the comprehensive exam. The approved Comprehensive Program Statement should be distributed to faculty no less than 60 days before the comprehensive examination. Department faculty will have three weeks (21 calendar days) to review and provide comment to the Guidance Committee chairperson. Faculty comments during this review period are advisory to the Guidance Committee. At the close of this comment period, the Guidance Committee chair, in consultation with the other members of the Guidance Committee, will determine if additional readings or modifications to the program statement are advised prior to the comprehensive examination. Any request to modify the Comprehensive Program Statement, including the addition of readings, must be given to the student no later than 30 days prior to the comprehensive examination.

Comprehensive Examination
Comprehensive examinations are tailored to match the unique scholarly interests of each student as described in the Comprehensive Program Statement. Guidance Committee members will use the theories, methods, and readings cited in the Comprehensive Program Statement to design questions for the comprehensive examination. The comprehensive examination will be conducted in both written and oral formats.

Purpose:
The comprehensive examination is designed to test a student’s ability to synthesize, apply, and coherently discuss the multidisciplinary nature of their studies. Students must provide evidence of independent scholarly analysis of the literature in the selected focus areas as well as knowledge of research, principles, and methods presented in the department core curriculum.

The successful completion of a specialization or certification may require separate and additional examination requirements.

Timing:
The comprehensive examination may be taken at any time after 80% of a student’s program course credits have been completed (excluding CSUS 999 credits). However, the comprehensive examination will be administered no fewer than 90 calendar days from the date of approval of the Comprehensive Program Statement by the Guidance Committee. The written examination must be completed within five (5) years of the first course used to meet the Ph.D. degree course requirements, and students must be enrolled for at least one credit during the semester in which the examination is taken. This requirement may be waived by the Dean of The Graduate School upon request of the CSUS Chairperson if the examination is administered during the summer session immediately following a spring semester during which the student was registered and/or prior to a fall semester in which the student will be registered.

The comprehensive examination must be completed successfully before the dissertation proposal defense can be scheduled.

Procedure:
The written component of the comprehensive examination must be completed within a period of five (5) consecutive days. Reference materials may be used, but all responses must be written without assistance from others. The Guidance Committee and the student will agree on the structure and other procedures for completing the written examination prior to administration of the exam.
Content:
Based on the Comprehensive Program Statement, the Guidance Committee will define the scope of the written examination, to include the following:

- Principles and foundations of multidisciplinary studies in community sustainability
- Research methods
- Theory and practice in the student’s two (2) focus areas

Oral Comprehensive Examination:
The oral examination must be scheduled before the written examination is administered, and is intended to offer an opportunity for the student to supplement, clarify, and/or elaborate upon the written examination responses. The oral examination must be held within 14 calendar days of the completion of the written examination and is closed to the public.

Assessment of Comprehensive Examination:
The Guidance Committee must report its assessment of the examination in writing to the student no more than 30 days from the completion of the written examination. The overall assessment will be given in one of three forms: 1) pass, 2) pass with conditions, or 3) fail, in whole or part. Upon completion and final passage of the comprehensive examination, the Guidance Committee chairperson must sign and submit a Record of Comprehensive Examinations form (see Appendix A or http://www.csus.msu.edu/graduate/forms). The results also will be recorded in GradPlan and routed for formal approvals.

In the event of a dispute between the Guidance Committee and the student, or among members of the Guidance Committee, the Department Chairperson will assign two members of the CSUS faculty to provide a separate review and assessment of the written comprehensive examination. The objective of this option is to resolve conflicts and ensure validity. If these two readers disagree with the committee’s decision, the decision is reversed. If these two readers disagree between themselves, the committee’s decision is upheld.

Re-taking All or Parts of the Comprehensive Examination
If a student fails the comprehensive examination – in whole or specified parts – it may be re-taken no more than one time. The student must wait a minimum of 60 days and a maximum of 120 days after the previous examination before re-taking the examination. If this calendar is not followed, a student may be asked to withdraw from the program.

Dissertation Proposal
Students must prepare a written dissertation proposal in consultation with the Guidance Committee chairperson and present the proposal to the Guidance Committee in a public forum. The dissertation proposal may be scheduled, prepared, and presented only after successful completion of the comprehensive examination. The proposal should describe the purpose and objective(s) of the proposed research, a review of the relevant literature, and the proposed method(s) of data collection and analysis.

Students must submit the proposal to the Guidance Committee members at least two weeks prior to the public forum. The forum should be scheduled and announced to faculty and graduate students in advance, with promotional materials submitted to the Graduate Secretary for electronic distribution, CSUS website posting (and bulletin board posting, if desired) at least two weeks/14 days before the scheduled defense. At a minimum, the announcement should include: student’s name; degree program and type; dissertation proposal title; committee member names (with chairperson identified); date, time, and location of the proposal defense; and abstract. See example in the box on the next page:
If you choose also to create a flier for hallway posting, feel free to add some design elements to the flier (such as a relevant photo or other graphic representing your proposal topic or context). However, the above information should be submitted to the Graduate Secretary for email distribution and forwarding to the IT person who will post the defense announcement in the Events section on the CSUS website homepage.

After the public presentation and in a closed session, members of the Guidance Committee will discuss the suitability of the proposal and indicate their approval on the Dissertation Proposal Approval form (see http://www.csus.msu.edu/graduate/forms or Appendix A). This form must be signed by the student, Guidance Committee members, Graduate Program Coordinator, and the Department Chairperson.

Students must ensure compliance with the university requirements and guidelines pertaining to use of human subjects and vertebrate animals in research, and to safe use of hazardous materials. The necessary forms to secure approval from the Institutional Review Boards (IRB) may be obtained from the Human Research Protection Program (http://www.humanresearch.msu.edu).

Dissertation
A doctoral dissertation is required for the Ph.D. degree. According to University regulation, each student must register for a minimum of 24 credits (and a maximum of 36 credits) in CSUS 999 Doctoral Dissertation Research prior to awarding of the degree.

Students are required to write an acceptable dissertation containing a contribution to knowledge, conforming to professional standards of evidence and argument, and using clear and correct language. The Guidance Committee and student have wide latitude in determining the design and format of the dissertation, but the dissertation should be designed so as to facilitate publication of the results. One common alternative to the conventional dissertation format is a set of related papers written in a format and style that is acceptable for publication in peer-reviewed journals. The papers may be combined in one volume, with an introduction and conclusion that highlight the papers’ common research focus and principal findings. Papers that the student has co-authored while in the doctoral program may be included as long as the articles have been certified by the major professor as being substantially the work of the student.

Dissertation Defense
Purpose:
The dissertation defense is a public seminar that is open to attendance by faculty, staff, students, and other invited guests. Seminar announcements should be made at least two weeks prior to the seminar. (Follow the same format and procedures as for the proposal defense, but title it “Final Defense” rather than “Proposal Defense”; See p. 33.)

Doctoral students must provide Guidance Committee members with a copy of the dissertation (marked “DRAFT”) at least two weeks prior to the defense seminar.
Structure of Dissertation Defense:
The dissertation should be presented using appropriate visual and other aids. Time should be allotted for questions and discussion from the Guidance Committee and other audience members. The student’s Guidance Committee will decide on the specific format to be used in examining the student, to include the balance between the public presentation and closed examination portions of the session. Following the public presentation, guests will be excused and the student and Guidance Committee will continue in a closed session for additional discussion and Guidance Committee presentation of clarifications and suggested modifications. Guidance Committee members may require corrections or revisions before final approval.

Formatting and Filing Your Doctoral Dissertation

Formatting Your Dissertation:
Prepare your Dissertation following the specific instructions in Michigan State University Formatting Guide (link in #1 on http://grad.msu.edu/etd/). This Formatting Guide sets forth dissertation requirements established by Michigan State University for required electronic submission. The dissertation should be prepared in accordance with the instructions of this guide. PDF copies must be provided to the Department (via the Graduate Secretary). Check with Guidance Committee members about their preference of copy type (digital or hard copy, bound or unbound).

Michigan State University now accepts electronic submissions only via ProQuest at http://www.etdadmin.com/grad.msu. The Graduate School staff reviews only the PDFs that are uploaded through ProQuest. Be aware that a submission via ProQuest does not mean that the document has been ACCEPTED. The review process is interactive and can take anywhere from a few hours to weeks, depending upon the extent of the necessary revisions and how diligent the author is when making the necessary revisions.

Note that the Graduate School now permits submission of supplementary materials to ProQuest. Such materials will not be reviewed for formatting requirements, but must be acceptable by ProQuest and comply with ProQuest’s criteria and storage limits. All supplementary materials need the written approval of the dissertation committee chairperson.

Also note that the MSU Library may accept supplementary materials approved by the dissertation committee chairperson per their collection criteria. These are not reviewed by the Graduate School. Questions about submission of these materials to the library should be directed to the Assistant Director for Digital Information, currently Shawn Nicholson (nicho147@mail.lib.msu.edu).

Record of Completion and Submission of Dissertation:
The Guidance Committee members will assess the acceptability of the dissertation and defense and indicate their approval on the Record of Dissertation and Oral Examination Requirements for Doctoral Degree Candidate form that has been pre-prepared by the student prior to the defense (see Appendix A or http://www.csus.msu.edu/graduate/forms) for in-department filing. Results then will be submitted to GradPlan for routing for official signatures.
Doctor of Philosophy Degree Calendar & Progress Checklist

Name: ________________________________  First semester of _____________________________
Advisor: ______________________________  degree program: ___________________________

Prior to Attending the First Semester of Classes

☐ Attend the required CSUS Department graduate student orientation (usually scheduled on the Monday prior to the first day of fall semester classes). Students are encouraged to participate in orientation activities offered by the Graduate School (and for international students, by the Office of International Students and Scholars).

☐ Contact your initial academic advisor when you arrive in East Lansing to discuss degree requirements, to plan your courses (especially those for the first semester), and to discuss other student-related concerns.

☐ Formalize assistantship expectations and paperwork (if you have an assistantship), including the following forms:
   I-9 instructions and forms: http://www.hr.msu.edu/hiring/I9Information.htm
   GA Appointment Forms: available through CSUS Graduate Secretary

If you have been awarded an assistantship or are otherwise employed on campus, contact your supervisor immediately to complete employment paperwork, discuss your assignment and schedule, and address any issues related to your employment. Note the dates of work for each semester as identified below:

   Fall semester appointments:  August 16 - December 31
   Spring semester appointments: January 1 - May 15
   Summer appointments:  May 16 - August 15

☐ Register for classes.

• Doctoral students must be registered for a minimum of 6 credits per semester to be considered “full time.” (After the student has completed his/her comprehensive exam(s), he/she may be considered “full time” with 1 credit as long as he/she has informed the Registrar’s Office of her/his status and intent.)

• Doctoral students must register for CSUS 800 during their first Fall semester.

Each Semester (as relevant)

☐ Complete or update assistantship or other wage forms, as relevant to your individual work pattern. See CSUS accountants.

First Semester

☐ Take CSUS 800, the required core CSUS course (offered fall semester). Students having limited research background and experience should consider enrolling in CSUS 800.

☐ Begin RCR training (foundational materials presented in core courses; see RCR materials for other sources for training, and look at the RCR Record of Training that must be submitted by February 1 along with your annual assessment materials)

☐ Begin talking with potential faculty committee members so that you can create your committee and program plan during the second semester. The doctoral Program Planning Forms are available at: http://www.csus.msu.edu/graduate/forms
Second Semester

☐ Select Guidance Committee members in consultation with your advisor.

If, as you move through your program, you change your interest area, or as you become more familiar with the faculty and their interest areas, you may – upon mutual agreement – change academic advisor to better meet your academic and professional development goals. Please use the Change in Program Plan form available on the CSUS website (http://www.csus.msu.edu/graduate/forms) or page 76 of this handbook.

☐ Draft a potential degree plan, working with the relevant Ph.D. Program Planning Form, on which you identify which courses you want to select to meet specific requirements for your degree. Working with this form helps assure that requirements relevant to your degree are met and, when submitted to the Graduate Secretary along with your formal Program Plan, ultimately helps with the final certification process of your degree. Forms are accessible on the CSUS website (http://www.csus.msu.edu/graduate/forms) and in Appendix A of this handbook. Choose the form appropriate for your degree program (CSUS, STPAM) and degree type (Ph.D.).

Second or Third Semester

☐ Schedule and hold an official meeting with your Guidance Committee to discuss your academic and professional goals and the courses you intend to take, as presented on the relevant Ph.D. Program Planning Form. You may also wish to discuss preliminary dissertation topics with your committee at this time.

HELPFUL HINT: It is the student’s responsibility to find a date appropriate for all Guidance Committee members, to schedule a room, prepare an agenda (in consultation with Advisor), and prepare the room, as needed (suggestions include providing appropriate audio-visual aids, written agenda, preparing relevant written plans and forms [as appropriate to the meeting agenda]).

HELPFUL HINT: Many faculty members are on Academic Appointments (9-month) rather than Annual Appointments (all year), so be sure to schedule committee meetings and other committee activities (including reading of proposals and dissertation drafts) when they are officially on duty. Exceptions can be made with the approval of all committee members; however, you should plan your work with respect for faculty appointments. Often they are involved in field research, study abroad programs, or otherwise away from the University during the time outside of their appointments. Most often this is during the summer; however, some faculty have non-traditional schedules. Be sure to find out appointments and schedules of your Guidance Committee members.

☐ Finalize your program plan, using the relevant Ph.D. Program Planning form and getting the requested signatures (submit to the Graduate Secretary); then enter all the approved information (committee members, course selections, proposed dissertation idea) in GradPlan. A copy of your completed, approved form will be placed in your permanent academic file.

Third Semester and Forward

(schedule varies by individual from here forward, because students move through the program at different rates, depending on their personal circumstances)

As you approach 80% of your coursework

☐ Meet with your Academic Advisor to discuss procedures for and scope of your Comprehensive Program Statement and the comprehensive examination. Note that you should be working toward writing your Comprehensive Program Statement from the day you begin your program, by reading and annotating relevant literature, and thinking about the integration of diverse literature.

(See pp. 30-32 for detailed description.)
After 80% of coursework has been completed

☐ Prepare and submit your Comprehensive Program Statement to your Academic Advisor. (See pp. 30-32 for detailed description.) Be prepared to make revisions based upon feedback.

☐ Submit your Comprehensive Program Statement to your Guidance Committee for approval. Be prepared to make revisions according to their feedback.

☐ Secure the approval of your Comprehensive Program Statement by your Guidance Committee no less than 60 days before the date of the comprehensive examination. Your Advisor will subsequently send it to the department faculty for review and comment. After the Comprehensive Program Statement (CPS) has been approved by all Guidance Committee members, submit the CPS signature cover page with a copy of the CPS to the Graduate Secretary.

☐ Schedule your written and oral comprehensive examinations with your Guidance Committee. The oral examination (scheduled prior to taking the written exam) should be held within 14 days of completion of the written comprehensive examination.

☐ Complete your comprehensive examination no less than 60 days after final approval of your Comprehensive Program Statement. Submit a signed Record of Comprehensive Examination form to the Graduate Secretary. http://www.csus.msu.edu/graduate/forms. Results also will be entered into GradPlan.

Dissertation Proposal

☐ Prepare a written draft of your dissertation proposal. Discuss it with your Advisor, revise/edit and secure his/her approval prior to submitting it to your Guidance Committee.

☐ Make necessary corrections in your proposal (based on the feedback from your Advisor, and Committee members, as they elect to be involved)

☐ Provide each member of your Guidance Committee with a copy of your draft proposal at least two weeks/14 days prior to the proposal defense.

☐ Schedule and submit notification of a public presentation and defense of your proposal with your Guidance Committee. Prepare required forms, available at: http://www.csus.msu.edu/graduate/forms. See guidelines on page 33 for developing proposal defense notification materials, to be submitted to the Graduate Secretary at least 14 days prior to the defense.

☐ Present your dissertation proposal, to be followed by a closed meeting in which Guidance Committee members will review and assess the proposal.

☐ Obtain signatures of the members of your Guidance Committee on the Dissertation Proposal Approval form. (You must indicate on this form the date when your proposal and IRB application was submitted to the IRB. No work on the dissertation can begin until approval is received.)

☐ Secure approval from the Institutional Review Boards (IRB), as appropriate to your research. Instructions and application templates are available on-line: http://www.humanresearch.msu.edu/

HELPFUL HINT: Students should have peers (and, if needed, professional editors) review and provide editorial recommendations for your dissertation proposal (and dissertation defense) prior to submission to your Advisor and Guidance Committee. Also take advantage of resources at the Writing Center.
Final Semester

Preparing for Dissertation Defense

- Check deadline dates for your planned final semester, as they pertain to completing the Ph.D. degree, at: http://grad.msu.edu/etd/dates.aspx Dates also are included in the “box” on the page 39.
- Enroll for a minimum of one (1) credit in the semester in which you plan to defend your dissertation.
- Check StuInfo to be sure all DFs (deferred grades) have been converted to grades and that your GPA is at least 3.00. You cannot graduate unless these two conditions have been met.
- Complete and submit the on-line Application for Graduation by the end of the first week of the semester of planned graduation (first week of spring semester for summer graduation): http://www.reg.msu.edu/StuForms/GradApp/GradApp.asp You must apply for graduation even if you do not plan to attend the ceremony so that final paperwork can be sent to and certified by the departmental Graduate Secretary.
- Review the Graduate School’s electronic submission guidelines (for MS-A theses) at http://grad.msu.edu/etd/
- Prepare for commencement; see guidelines and checklist provided by the University: http://commencement.msu.edu/

Completing Your Dissertation

- Work with your advisor/committee chairperson to write and edit a draft of your dissertation.
- Submit a draft of your dissertation to your Advisor and Guidance Committee members at least two weeks/14 days prior to your scheduled Final Defense date
- Edit your draft, as needed and requested by your committee. Doctoral students should refer to link in #1 on http://grad.msu.edu/etd/ for format guidelines.
- Schedule your final dissertation defense date/time with your Guidance Committee for presenting and defending your work. This seminar is an open session to which students and faculty in the CSUS Department are invited.
- Develop and submit notification materials for your dissertation defense to the Graduate Secretary at least two weeks prior to the seminar (clearly marked as final defense). The Secretary will send email notifications, post the flier on the graduate bulletin board, and submit for posting on the CSUS website homepage.
- Present and defend your dissertation at the seminar.
- Edit your dissertation draft as required by your Guidance Committee.
- Prepare the form (prior to your final defense) and obtain signatures from the members of your Guidance Committee on the Record of Dissertation and Oral Examination Requirements for Doctoral Degree Candidate form (see http://www.csus.msu.edu/graduate/forms and Appendix A). Approvals also will be entered in GradPlan.
- Prepare the final copy of your dissertation according to the Graduate School Formatting Guidelines (see link in #1 on http://grad.msu.edu/etd/ for format guidelines).
- Prepare an abstract of your Ph.D. dissertation to be filed with “Dissertation Abstracts.”
- Electronically submit your dissertation to the Graduate School using instructions on their website: http://grad.msu.edu/etd/ and submitting via ProQuest at http://www.etdadmin.com/cgi-bin/school?siteld=295
MSU accepts only electronic theses and dissertations submitted via ProQuest. Instructions are available at http://grad.msu.edu/etd/ Submit via ProQuest at http://www. etdadmin.com/cgi-bin/school?siteId=295 A fee is charged by ProQuest-UMI if the thesis is to be copyrighted.

The target date for Final Approval of an electronic Dissertation to the Graduate School for graduating the semester of that submission is FIVE working days prior to the first day of classes for the next semester (see future target dates below). Be aware that a submission via ProQuest does not mean that the document has been ACCEPTED. The review process is interactive and iterative. Therefore, final approval can take anywhere from a few hours to a few weeks, depending upon the extent of the necessary revisions and how diligent the author is when making the necessary revisions.

Electronic Submission’s Approval Target Dates:

- **Fall 2014:** December 19, 2014
- **Spring 2015:** May 13, 2015
- **Summer 2015:** August 25, 2015
- **Fall 2015:** December 16, 2015
- **Spring 2016:** May 11, 2016
- **Summer 2016:** August 24, 2016
- **Fall 2016:** December 14, 2016
- **Spring 2017:** May 10, 2017

Graduation during the semester of the electronic submission is guaranteed only if the document is APPROVED on or before the target date for that semester.

- Provide a PDF file of your dissertation to the department Graduate Secretary and hard-bound copies of your dissertation to your Advisor and Guidance Committee members. (Individual committee members may request an alternative format, such as soft-bound, unbound, or digital copy.)

After Completing Your Degree

- Complete a short online MSU exit survey (required for all students graduating with a Plan A or Plan B master’s degree, or with a Doctoral degree, beginning May 2011). Only students who have applied for graduation have access to the survey. The survey asks questions about educational experiences in MSU graduate programs as well as about immediate professional plans. The Graduate School uses data from this survey when reviewing graduate programs, and to guide decisions about services and initiatives for graduate students.

  The identity of all respondents will be kept confidential; only aggregate (group) information will be available to faculty and administrators. The students will receive an e-mail message from the Dean of the Graduate School with a link to the survey, which takes about 5-10 minutes to complete. However, students do not need to wait for that e-mail message to complete the survey after applying for graduation. Instructions and links for completing the survey are available via http://grad.msu.edu/etd/; see #3, then link to the appropriate survey.

Instructions for students:

- Doctoral Students should access the following website: https://www.egr.msu.edu/doctoral/survey/
- Enter your MSU NetID (Login Name) and Password
- Complete all the items on the survey. When finished, click Submit.

  If you cannot open this survey, please contact Katey Smagur by email at smagurka@msu.edu, and include your name, student ID #, degree level (Ph.D., MA/MS) and semester of graduation. You will then be notified when you are able to complete the survey.

- Complete the CSUS Exit Survey and Exit Interview.
- Read and comply with MSU’s Exit Check List to ensure that you have met all requirements and submitted all appropriate forms, questionnaires, and other paperwork.
- Pay final fees.
• Additional CSUS Information & Expectations •

Professional Development, Academic Progress, and Faculty Mentoring

Upon the student’s arrival at MSU, the student and advisor should devise a plan for regular meetings. The frequency and format will vary by student, faculty, and across the academic career of the student. The plan should meet the needs of both parties. The Major Professor’s role is to serve as mentor for graduate students as well as to serve as their academic advisor. Students also have a lot to share with each other, as well as with faculty. A student’s graduate experience is much more than “taking courses,” and students are encouraged to make their graduate experience as rich as possible. Students are strongly encouraged to attend seminars, engage in active scholarly debate outside the classroom, read broadly, get involved in research and outreach activities (paid or volunteer), participate in professional conferences, and (when ready) begin writing professional articles for submission to professional magazines and journals.

In their role as mentors, faculty should model and provide encouragement for working as scholar-practitioners; discuss the nature and practicalities of research ethics and academic integrity; discuss University policies and procedures; involve students in extracurricular professional activities; review Department expectations; and discuss professional ethics and responsibilities.

Note that most faculty in the Department of CSUS have “academic year” appointments (9 months) rather than calendar year appointments. Most have their non-work time during the summer, but a few have negotiated other time blocks during the year. Also, most faculty are engaged in out-of-state and international travel for conferences, research, and outreach work at various times throughout the year. Discuss your advisor’s and committee members’ schedules with them so that you know when they will be available to you. Scheduling for committee meetings should be done well in advance to maximize the potential for finding common dates of availability across your diverse committee members.

Grade Point Average Expectations

As stated in the degree description sections of this handbook, graduate students must maintain a 3.0 cumulative grade-point average out of a possible 4.0 to remain in good standing. All student GPAs will be reviewed each semester. Students whose GPA falls below 3.00 will receive notification of such, indicating that they have been placed on probation. The student should schedule an appointment with their advisor immediately to discuss the probationary status and to make plans to raise the GPA.

Graduate Students as Representatives of MSU

Graduate students engaged in professional activities – whether at the University, working with communities, engaged in international travel and work, participating in professional conferences, attending meetings and public hearings, or other relevant scholarly or practitioner activities – are representatives of Michigan State University. Consequently, as a MSU student, you are expected to behave in a professional manner. Some examples (provided only as examples, not intended to be comprehensive) of appropriate behavior are:

• When attending professional conferences or meetings, especially when funded in whole or part by University funds, you are expected to participate in the conference sessions and events (not act as though the trip is your personal vacation).
• In doing all your work, you should behave with academic and professional integrity. (See Guidelines for Integrity in Research and Creative Activities: http://grad.msu.edu/researchintegrity/docs/guidelines.pdf)
• When engaging in scholarly debate, treat others with respect and be an active listener.
• In making professional presentations or writing journal articles, acknowledge and cite all work and ideas of others, as they contribute to your own ideas and work. (Even paraphrased work should be cited.)
**Permanent Academic Advising Files (and student access)**

The CSUS Department maintains a permanent academic file on each graduate student in the Graduate Secretary’s office. The student may have access to all records in her/his personal file, with the exception of letters of recommendation for which they waived their right of access and records of GACC deliberations prior to acceptance. If a student wants to review her/his file, he/she should schedule an appointment with the Graduate Secretary. Files must be reviewed in the Graduate Secretary’s office and may not be removed from that location. None of the file contents may be removed by the student.

If the student wishes to challenge the validity of any of the records, they may present a written challenge explaining the perceived inaccuracies, along with supporting documentation. The written challenge should be submitted to the Graduate Program Coordinator of CSUS, who will review the challenge and the file. The Graduate Program Coordinator may consult with the Graduate Secretary, the student’s major professor, and the Chair of the Graduate Affairs and Curriculum Committee. The Graduate Program Coordinator will provide a written response to the student’s challenge. If the student does not believe the issue has been resolved appropriately, they may file an official Grievance. *(See separate Conflict and Grievances section of this Handbook.)*

- All original application materials (application, test scores, letters of reference, former degree transcripts, academic and personal statement essays, and resumé).
- Grade Reports each semester
- Correspondence between student and department faculty and staff
- Copies of fellowship and scholarship applications or nominations, plus award letters/forms
- Copies of all assistantship or other paid work records, as relevant
- Copies of written assistantship reviews
- Copy of approved Proposed Program of Study (plus documentation of any changes in courses and/or committee members)
- Annual written progress assessment packets (including student’s written self-assessment), used as the basis for student review each year
- For doctoral students: Comprehensive Exam (written portion, kept for a minimum of 3 years)
- For doctoral students: Summary written results of the comprehensive exam, plus (if needed) a written plan to address deficiencies, or a schedule and plan for re-taking the exam
- Written plan describing how the student will address deficiencies, or improve their GPA (if it falls below 3.00), if needed as a result of the annual review (or semester GPA check)
- Copies of all correspondence between the University and student
- Copies of any other MSU forms submitted on behalf of the student during their study

**Student Status: “Good Standing,” Probation, and Termination of Program**

Students not making adequate progress, or earning a cumulative GPA of less than 3.00, or engaging in unethical behavior may be placed on probation. Such a determination can be made after an unacceptable annual review, after a semester-by-semester review of GPAs, expiration of University deadlines, or violation of University standards of academic integrity. Specific examples of conditions or actions that may result in probation are:

- Cumulative Grade Point Average (GPA) falling below 3.00.
- Violation of scholarly ethics and/or University policies. *(Depending on the nature of the violation, the result may be probation or dismissal from the program/University.)*
- Repeated failure to make academic progress, such as expiration of University deadlines for comprehensive examinations or program completion.

Additional conditions for being in “good standing” (as related to eligibility for special funding or awards) include:

- Meeting requirements for and submitting annual assessment documents on time;
- Meeting requirements for and submitting annual RCR training documents on time; and
- Submitting in a timely manner required post-event/funding use reports for things such as GOF funds, fellowships, and scholarships (as relevant to your situation).
Students will receive a letter from the Department chairperson at the beginning of the first semester in which they have been placed on probation, explaining the requirements that must be met in order to return to good standing. The requirements must be met by the end of the semester. If the student fails to address the deficiencies, the student’s graduate program will be terminated within fourteen (14) days of the end of the semester. Students on probation are not eligible to apply for department fellowships.

If the student does not agree with the decision of the Department, they may file an official grievance in accordance with the University’s Grievance Procedures. *(See separate Conflict and Grievances section of this Handbook.)*

**Full-time Status Requirements**

International students on F and J visas are required to have full-time status. Domestic students may have other reasons for needing full-time status (insurance eligibility; eligibility for certain financial aid, scholarships, fellowships; etc.) MSU requires the following minimum enrollments to attain full-time status:

- Master’s without assistantship ........................................ 9 credits per semester
- Master’s with assistantship .................................................. 6 credits per semester
- Doctoral without assistantship ........................................... 6 credits per semester
- Doctoral with assistantship ................................................... 3 credits per semester
- Doctoral students who have passed comprehensive exam .................. 1 credit per semester

Full-time status related to assistantships, as presented in the Assistantship Brochure, can be found on page 2 of the brochure, available from the first link at: [http://grad.msu.edu/assistantships/](http://grad.msu.edu/assistantships/)

Loan deferral status is based on slightly different credit numbers, which can be found at: [http://grad.msu.edu/assistantships/loans.aspx](http://grad.msu.edu/assistantships/loans.aspx)

**Academic Performance and Progress Assessment (Annual Review)**

Each year, in January, each student will engage in a progress assessment process with her/his academic advisor for the preceding calendar year. (If you begin your degree during the fall semester, your first annual assessment will cover only that time since you began your work at MSU in the CSUS Department.) The purpose of this process is for the student and advisor to review the student’s progress, plans for the next year, to discuss ways to facilitate the student’s success, and provide an opportunity for the student to request additional help, if needed. See the separate section on Annual Academic Progress Assessments for details (pp. 43-44).
• Annual Academic Performance & Progress Assessment •

As required by the MSU Graduate School, each year during January each student will complete a performance and progress assessment, including a meeting with her/his academic advisor, for the preceding calendar year. (If you begin your degree during a fall semester, your first assessment will cover only that time since you began your CSUS work at MSU.) The purpose of this process is for the student and advisor to review the student’s performance and progress, lay out plans for the next year, discuss ways to facilitate the student’s success, and enable the student to request additional help, if needed. This process is to be initiated by the student, following the guidelines below and using the forms found in the Graduate Forms section of the CSUS website and in Appendix A of this handbook. The entire process, including your individual meeting with your advisor, should be completed no later than January 31 so that all signed forms can be completed and submitted to the Graduate Secretary during the first week of February. Note that completing this annual assessment process and submitting associated documentation is part of maintaining “academic good standing.”

Student Assessment Process

Steps in the assessment process, which is to begin with the student, are to include the following:

- Complete the Annual Student Assessment Cover Form
- In a separate report, address item #s 1-4 in Section I-A below (#4 should be on a separate page, without your name).
- Add your completed RCR form and “proof of completion” documents to the packet of materials (Section I-B).
- Faculty advisor will review your report & attached materials, then write his/her assessment of your progress (Section II).
- After you receive advisor’s written assessment, meet with your advisor to review the assessment.
- When student and advisor have met and understood each other’s comments, both sign the signature page (Sect. III).
- Compile cover form, student’s written assessment, RCR form, Degree Progress Report, advisor’s written assessment, and signature form.
- Submit the entire assessment packet to the Graduate Secretary, to be placed in your permanent file.

Assessment Cover Form

Prior to meeting with your advisor, you (student) will complete the Annual CSUS Graduate Student Assessment cover form [link] (available as a “fillable PDF” form), on which you describe the academic progress you have made in the preceding year, to include:

- current GPA (at the end of the calendar year being assessed)
- status of submission of Program Planning Form/Program Plan (yes or no, plus date if submitted)
- list of courses completed during that academic year (only alpha codes/numbers needed; no titles)
- identification of incomplete or deferred courses (if any)
- challenges in scheduling preferred courses, particularly as listed on your degree plan (list of potential alternative courses)
- description and assessment of performance and learning in assistantship or other paid professional experience; include experiences gained and skills learned
- Identification of any fellowship/scholarship funds received this year

Section I-A: Student Self-Assessment Essay

Additionally, prior to meeting with your advisor, you will write a self-reflective assessment essay in which you reflect on the past year and look forward to the next academic year:

Reflecting on the past year:

1. Describe your personal and professional goals, then describe how your studies relate to them.
2. List and describe the following, as completed during the year assessed:
   - Professional or academic presentations
   - Supplemental professional reading
   - Attendance at seminars, presentations or training (on or off campus)
   - Writing and submission of professional or research articles
   - Community outreach activities related to your professional goals
   - Unpaid research/experiences relevant to your professional goals
   - Any other activities supportive of your scholarly academic and professional development
Looking forward (recommendations written in two separate sections, each labeled with subheading):

3. Provide recommendations for how your academic advisor and your committee can help you address any concerns you may have, or facilitate your degree progress.
   (This section is to be used by you and your advisor.)

4. ON A SEPARATE PAGE, titled “Concerns and/or Recommendations for CSUS and GACC,” describe how the CSUS Department and/or the CSUS Graduate Affairs and Curriculum Committee can help you address any concerns you may have, or facilitate your degree progress.
   (Do not put your name on this page. This section will be pulled from your report, compiled with comments from all other graduate students, and used as input to help improve the graduate experience. Your name will not be associated with your comments This part will be reviewed by the Graduate Program Coordinator, GACC, and the Department Chairperson to assist with developing action plans to improve the graduate experience.)

Section I-B: Responsible Conduct of Research (RCR) Form
Complete and attach your RCR (Responsible Conduct of Research) form for this year, plus “proof of completion” documentation, as relevant.

A description of the RCR requirements and options are described in more detail in the Responsible Conduct of Research section of this handbook and in the guidelines accompanying the form in the Appendices.
The “fillable” form can be found on the CSUS Graduate Forms webpage, at [http://www.csus.msu.edu/graduate/forms](http://www.csus.msu.edu/graduate/forms)

Section II: Faculty Advisor’s Student Assessment Report
After you have compiled your Annual Assessment Packet (cover form plus Sections II-A and I-B items above), submit them to your faculty advisor and schedule a time to meet with them to review your assessments of your progress.

After your faculty advisor reviews this packet, they will write their annual assessment of your academic progress, accomplishments, and ongoing work toward completing your degree. Additionally, they will provide recommendations, as needed, to assist you in your progress.

Section III (Signatures) and Student/Advisor Meeting
During a pre-scheduled meeting, the student and advisor will discuss the entire annual assessment packet. After both have a clear understanding of each other’s comments and have discussed plans for moving forward, both will sign the signature page, attach it to the packet, then submit the original to the Graduate Secretary.

The complete Assessment Packet shall contain: student’s assessment cover form, student’s self-assessment essay, student’s RCR report, advisor’s student assessment report, and the signed/dated signature form.

You may choose to make photocopies for both the student and advisor. “Face-to-face” meetings and “real” signatures are preferred. However, sometimes there are cases when this is not possible (e.g., the student is in the field, away from MSU, working on projects or research; the advisor is out of country or on sabbatical). In these cases, you may complete and share the forms and essays electronically, and use digital signatures. In such cases, you may choose to conduct your “assessment meeting” via Skype.

NOTE: If you have an assistantship with your Academic Advisor, you may incorporate your assistantship review in the Annual Academic Performance and Progress Assessment process. Note that some faculty or supervisors prefer to use a separate meeting to review your assistantship (or hourly) work.
• Conflict Resolution and Grievance Procedures •

Conflict Resolution
To assist students and faculty confronting issues of conflict, the University has developed a program of support. The Conflict Resolution Program (http://grad.msu.edu/conflictresolution/) provides tools that aid in preventing and resolving interpersonal conflict. Periodically workshops in conflict resolution are offered.

The CSUS Department Chairperson, Associate Chairperson, and Graduate Program Coordinator also are available to consult with students who need assistance in resolving conflicts.

Office of the University Ombudsperson
Conflicts, disagreements, and issues sometimes arise during the course of a graduate program. If you find yourself in this situation and have exhausted the internal resources for resolving the issue, you may contact the Office of the University Ombudsperson.

The Office of the University Ombudsperson provides assistance to students, faculty, and staff in resolving University-related concerns. Such concerns include: student-faculty conflicts; communication problems; concerns about the university climate; and questions about what options are available for handling a problem according to Michigan State University policy. The University Ombudsperson also provides information about available resources and student/faculty rights and responsibilities. The office operates as a confidential, independent, and neutral resource. It does not provide notice to the University – that is, it does not speak or hear for the University.

Contact the Ombudsperson at any point during an issue when a confidential conversation or source of information may be needed. The Ombudsperson will listen to your concerns, give you information about university policies, help you evaluate the situation, and assist you in making plans to resolve the conflict.

Contact information:
Office of the University Ombudsperson
129 N. Kedzie Hall
(517) 353-8830
ombud@msu.edu
https://www.msu.edu/unit/ombud/

Grievance Procedures
If you have an issue that rises to the level of formal grievance, the University and Department provide procedures for this. Resolution of cases involving graduate student rights and responsibilities will be carried out according to Article 5 of the Graduate Student Rights and Responsibilities (G.S.R.R.) document (http://grad.msu.edu/gsrr/). Follow the link to access the MSU grievance guidelines, which describe judicial procedures at the College and University levels. You may also find information via https://www.msu.edu/~ombud/grievance-procedures/index.html

Prior to initiating the College and University grievance procedures, students should explore all channels and grievance procedures within their home department for resolving grievance issues. The CSUS Department procedures (informal and formal) are outlined on the next page, as specified in the Department’s Bylaws.
From CSUS Bylaws:

8. GRIEVANCE AND HEARING PROCEDURE

8.1. Preamble. All faculty and students shall have the right to due process in settling grievances that may arise (CANR Bylaws 7.1.).

8.2. Procedures

8.2.1 Procedures for resolving faculty grievances may be found in appendix D of the CANR Bylaws as well as in the Faculty Grievance Procedure in the Faculty Handbook. The practices followed by the Department will be those set forth in the document “Model Academic Unit Grievance Procedure,” approved by the University Council for Faculty Affairs, 30 April 1991 (appended).

8.2.2. Procedures for resolving student grievances are outlined in the University documents Academic Freedom Report for Students at Michigan State University (http://www.vps.msu.edu/SPLife/acfree.htm) and Graduate Students Rights and Responsibilities (http://grad.msu.edu/gsrr/), and in the Bylaws of the Student Senate. A student or students may take complaints relative to instruction directly to the Department Chairperson. If the Chairperson is unable to resolve the matter to the student's satisfaction, the Chairperson shall refer the unresolved complaints in writing to either the Undergraduate Affairs Committee or Graduate Affairs Committee who will conduct a hearing. A hearing shall be scheduled within 2 weeks involving the student(s), the involved faculty or staff member(s), and the Undergraduate/Graduate Affairs Committee. A written report of the action or recommendations of the Undergraduate/Graduate Affairs Committee will be forwarded to the Dean, Department Chair, the involved faculty or staff member(s), student and university Ombudsman within ten working days of the receipt of the complaint. Students wishing to appeal the Department's action or recommendation may do so as outlined in provisions of the above referenced documents and guidelines for procedures for resolving student grievances.
• Guidelines Involving Research and Writing •

Academic and Research Integrity

Academic integrity is a strong value adhered to by the University, and all students and faculty members are expected to behave and conduct their work with integrity, adhering to general professional ethical standards and University policies and guidelines. Students may be dismissed from the CSUS Graduate Program for violating University academic integrity and research ethics. (GSRR)

As is the rest of the University, CSUS is diligent in its efforts to maintain the highest levels of ethical scholarly practice. Faculty, specialists and students are expected to adhere to the standards and processes of Michigan State University’s institutional review board, University Committee and Research Involving Human Subjects (IRB).

You are required to receive IRB approval PRIOR TO BEGINNING any data collection. The faculty member identified as principal investigator of your research will work with you to develop and submit the required application. Detailed information regarding IRB and its procedures can be found at (http://www.humanresearch.msu.edu ).

"Breaches in professional ethics range from questionable research practices to misconduct . . . Integrity in research and creative activities is based not only on sound disciplinary practice, but also on a commitment to basic personal values such as fairness, equity, honesty, and respect. These guidelines are intended to promote high professional standards by everyone – faculty, staff, and students alike." (MSU, Research Integrity, Vol. 7 No.2 Spring 2004, pg. 12) If a student violates academic integrity and research ethics, the circumstances and actions will be reviewed. A decision will be made about whether to terminate the student, place them on probation, or permit them to continue in their program. Depending on the outcome of the review, there exists the possibility of having the case referred to the Dean of Graduate Studies for CANR. (See Grievance Procedures for guidelines, page 34, for disputing a Department decision.)

Expectations related to academic integrity can be found in the following documents:

• MSU Policies, Regulations, and Ordinances Regarding Academic Honesty and Integrity (https://www.msu.edu/unit/ombud/academic-integrity/index.html ).
  Topics include: a) integrity of scholarship and grades; b) general regulations; c) examinations; d) academic freedom; e) student rights and responsibilities; f) integrity in research and creative activities; g) use of Turnitin

• Graduate Student Rights and Responsibilities http://splife.studentlife.msu.edu/graduate-student-rights-and-responsibilities
  See especially Article 2, which focuses on academic rights and responsibilities for graduate students.

• Research and Scholarly Integrity http://grad.msu.edu/researchintegrity/
  Key principles upon which integrity in academic practices is based include:
  a) honesty in proposing, performing and reporting research;
  b) recognition of prior work;
  c) confidentiality in peer review;
  d) disclosure of potential conflicts of interest;
  e) compliance with institutional and sponsor requirements;
  f) protection of human subjects and humane care of animals in the conduct of research;
  g) collegiality in scholarly interactions and sharing of resources; and
  h) adherence to fair and open relationships between senior scholars and their coworkers.
  http://grad.msu.edu/researchintegrity/docs/guidelines.pdf, p. 7

• Academic Honesty, FERPA, and Copyright http://learndat.tech.msu.edu/teach/academic-honesty-and-integrity
Michigan State University Guidelines on Authorship
Adopted by the Council of Research Deans January 2013
Available at: http://vprgs.msu.edu/michigan-state-university-guidelines-authorship

Purpose
All MSU researchers are encouraged to share their work in the form accepted within their discipline. The intent of this document is to serve as a general guideline for consideration of important issues surrounding authorship as scholars construct a piece of work for public distribution.

Definitions
Author: creator of and/or contributor to a research/scholarly publication or creative endeavor.
Publication: a publicly shared piece of scholarship or creative work that relates new information and knowledge. This includes books, journal articles, abstracts, websites, exhibitions and performances of works of art or any work that can be explicitly documented.

1. Authorship: A person shall qualify as an Author provided the following conditions are satisfied:
   • Participation in conception/design of the creative work, study, review, analysis or interpretation of any data.
   • Participation in the drafting of the creative work or manuscript or in the editing of the creative work or manuscript.
   • Final approval of the version of the creative work or manuscript to be published.
   • Ability to explain and defend appropriate portions of the work or study in public or scholarly settings.

Most journals or sites of publications state criteria for authorship, and the journal/group to which one intends to submit their work should take precedence over the MSU criteria. Potential authors should check with the journal-specific criteria with respect to all aspects relevant to publication, including appropriate approval for animal use, human use, exports, material transfer agreements, etc. For example, when considering scientific publications, the MSU criteria follow the International Committee of Medical Journal Editors (www.icmje.org) but are not limited to Biomedical Journals.

2. Acknowledgements: Contributions that do not justify authorship should be acknowledged separately in accordance with disciplinary standards. For example, consult the specific journal or placement of scholarly piece for requirements of acknowledgement. Contributions to a work that do not constitute authorship can include, for example, technical support or assistance in obtaining funding.

3. Lead Author and Order of Authors: The lead author is defined as the person who leads a research/scholarly effort or creative work and makes a major contribution to a multi-authored work. The lead author is also responsible for gathering the appropriate consents necessary (animal, human use) and for validating the integrity of the work. The lead author takes the lead of discussing the contributions, recognition and order of all authors that participate in the study. All authors, regardless of position, have a voice in this discussion. Ideally, author arrangement is agreed to proactively, formally, and in writing prior to the initiation of the study. A sample agreement that allows for formal recognition and agreement on authorship can be found as an appendix to this policy. As the study evolves, agreements regarding authorship may need to be further discussed. Most journals and other scholarly outlets do not include statements on author order, so the Lead Author should guide this process and adhere to the norm of the discipline.

4. Accountability: EVERY author listed on a publication or creative endeavor is responsible for:
   1) approving the final version of the manuscript, including designation of the Lead Author and order of authors;
   2) verifying the integrity of the research/scholarly/creative work performed. In cases of alleged research misconduct, ALL authors are considered responsible for the integrity of the research or creative endeavor. Thus, every author must strive to hold him/herself accountable.

5. Disputes over authorship: If disagreements over authorship occur (e.g., who has a right to be an author, the order of authors), it is the initial duty of the Lead author to find a resolution in consultation with the other participating authors. If resolution within the immediate author group cannot occur, any concerned party from the group is encouraged to contact a disinterested third party acceptable to all authors. At MSU, this can be resolved by the Research Integrity Officer (RIO) (or http://rio.msu.edu/), and these discussions are confidential. During the process of resolution, all interested parties should refrain from unilateral actions that may damage the authorship interests and rights of authors.

Revised 9/6/14
Responsible Conduct of Research and Scholarship (RCRS) Training (for CSUS)

Background
To satisfy federal regulations, MSU requires that all graduate students and postdocs complete training in research ethics. This training is individualized to each graduate program and needs to be documented. The Association of American Universities (AAU) has recommended five hours in the first year of a person’s research career and three hours annually thereafter, or as required by a specific funding agency, whichever is more. MSU has endorsed this time standard in its implementation of RCR training.

Please note that, in addition to these requirements, certain grants may require researchers to obtain additional training related to the responsible conduct of research. Also, anyone who conducts a study that requires Institutional Review Board (IRB) approval must meet the training requirements for human subjects’ research protection offered by MSU’s Human Research Protection Program (HRPP). As of the writing of this document, HRPP requirements include an “initial educational requirement” that involves a 2- to 3-hour online tutorial (see Additional Option #1 below). This training is valid for two years, after which the training must be renewed by completing online refresher modules. Note that, even though this HRPP/IRB update training is required only every two years, the RCR program requires annual updating.

Who
All graduate students and post-doctoral fellows are required to follow MSU policies and guideline for Responsible Conduct of Research (RCR). Graduate students, including those who work on an hourly basis, and postdoctoral fellows are required to comply with RCR requirements.

Record-keeping and Accountability
In CSUS, the Graduate Affairs and Curriculum Committee (GACC) recommends that each faculty advisor ensures her/his students complete the RCR compliance and validation process by participating in the programs outlined on the next page (and in the ‘instructions’ accompanying the form in Appendix A). Students should complete their annual training and record it on the CSUS Annual RCR Training Record Form (available on the CSUS Graduate Forms website at http://www.csus.msu.edu/graduate/forms), have it signed/confirmed by their advisor, and submitted with their Annual Academic Progress Assessment in the first week of February of each year. Students should be sure to provide written documentation to support the listed training (certificates of completion, quiz scores, etc.).

Requirements
All CSUS graduate students (MS Plan A, MS Plan B, and Ph.D.) must complete five hours of Initial RCR education by the time of their first annual academic progress assessment (which occurs in January of each year). Additionally, after the initial RCR education, all graduate students must complete three hours of refresher training annually.

Note that completing this annual RCR training process and submitting associated documentation is part of maintaining “academic good standing.”

See the next page for a list and description of options.
INITIAL RCR TRAINING IN YEAR ONE (minimum of 5 hours total)

All CSUS graduate students must complete five hours of initial RCR training by the end of their first fall semester (prior to their first annual assessment, to be completed in January).

First 3 Hours: Because all new CSUS graduate students (M.S. Plan A, M.S. Plan B, and Ph.D.) are required to take CSUS 800 during their first fall semester, the first three of these hours are incorporated into that course. (Of course, you must participate in those class days/sessions during which RCR is covered.)

Hours 4 & 5: Select (in consultation with your advisor and/or project Principle Investigator [P.I.]) two hours from the following options. Be sure to document completion of your selected options in writing.

- **HRPP Initial Training** (2- to 3-hour tutorial, depending on how long it takes you to complete it) Note: completion of this tutorial also will satisfy the initial education requirement for requesting IRB approval.
  
  http://www.humanresearch.msu.edu/requiredtraining.html

- **CITI (Collaborative Institutional Training Initiative) Modules**, depending on modules selected, one or more modules may be needed to meet each 1-hour requirement.

  Note: MSU has licensed access to CITI modules. A link can be found on the HRPP website:

  http://www.humanresearch.msu.edu/onlinetraining.html

- **RCR Workshop – Individual Workshops or Certificate (all):** Offered by the Graduate School (must register ahead of time; space is limited; to receive Certificate of Attendance, must participate in all seven 1.5-hour workshops and complete the associated work).
  
  http://grad.msu.edu/rcr/

- 1-hour blocks of **readings plus discussion** with Advisor or PI (based on selected readings from RCR website:

  http://grad.msu.edu/researchintegrity/resources/

REFRESHER RCR TRAINING – ANNUALLY AFTER YEAR ONE (minimum of 3 hours annually)

All CSUS graduate students must complete three hours of RCR refresher training annually. Student may choose any combination of the following training resources totaling a minimum of 3 hours.

- **CITI Modules** approved by advisor or PI:  http://www.humanresearch.msu.edu/onlinetraining.html

- **RCR Workshops** offered by the Graduate School (must register ahead of time; space is limited):

  http://grad.msu.edu/rcr/

- **Non-CITI Tutorials:**  http://grad.msu.edu/researchintegrity/resources/

- **Discussion/Training** with advisor or PI (based on RCR Readings):

  http://grad.msu.edu/researchintegrity/resources/

Please note that the above requirements are only **minimum** requirements for RCR training. Students interested in learning more about the responsible conduct of research are encouraged to take advantage of the many resources available from the graduate school, the Human Research Protection Program and Office of Research Integrity. These include workshops, online tutorials and readings.

REMINDER: Upon completion of the initial training, students must complete the Responsible Conduct of Research and Scholarship (RCRS) Certification Form (see Appendix A) and submit it to Graduate Secretary. The Graduate Secretary will maintain the Annual RCR Training Record Forms along with completed Annual Graduate Student Assessments. Proof of RCR completion is **due the end of January of each year with Annual Academic Performance and Progress Assessment.**
**Work-related Policies and Graduate Assistantships**

**Graduate Assistantships – Eligibility, Policies, and Contract Guidelines**

Assistantships may be granted to CSUS graduate students in good standing (GPA of at least 3.00, full-time status), when funds are available and student skills match the needs of the grant/faculty employer. Students may apply for assistantships both within and outside the CSUS Department. The most common assistantships within CSUS are those related to research or outreach grants (very few teaching assistantships have been available in recent years). As such, they are under the control and management of individual faculty and/or staff rather than the Department. Thus, announcements, recruitment, hiring, and supervision are done by individual faculty members.

Most assistantships typically are targeted as recruitment and retention tools rather than offered on a competitive basis. However, you can enhance your chances for being hired as a graduate assistant by actively getting to know faculty and their work. Students are encouraged to meet various faculty members, familiarize themselves with the research and outreach interests of faculty, and to let faculty know their strengths related to potential projects/assistantships. Volunteering to work on a project may help faculty understand your strengths (potentially leading to a future assistantship) as well as providing a professional development opportunity for you. (If you volunteer to work on some project, be sure you are familiar with Union guidelines that protect paid assistantship students.) Applicants are assessed based on their professional interests, stated goals, and competence in required skill sets. Assistantships are viewed as part of the student’s education program. Additionally, students who apply for a teaching assistantship (when available – they are rare in CSUS) must meet the University’s SPEAK requirements (see [http://grad.msu.edu/tap](http://grad.msu.edu/tap) for details).

**Basic English Language Policy:**

At MSU, International Teaching Assistants (ITAs) who are not native speakers of English are required to demonstrate that they meet a minimum standard of fluency in spoken English before they can be assigned teaching work that involves oral communication with undergraduate students. ITAs may meet this requirement by:

- getting a score of 50 or higher on SPEAK, given by the English Language Center (ELC), or
- taking English 097 (the TA Speaking and Listening Class) and getting a score of 50 or higher on the ITA Oral Interview (ITAOI). The ITAOI is given by the ELC.

Terms, conditions, and expectations of graduate assistantships are guided by:

- The Graduate School policy on Graduate Assistantships – First link at the top of the Graduate School website: [http://grad.msu.edu/assistantships/](http://grad.msu.edu/assistantships/), and
- the Agreement “Michigan State University and the Graduate Employees Union MFT & SRP/AFT/AFL-CIO”

CSUS is guided in its relationship with employed students by the Graduate Assistantship policies established by the University. Please refer to the Michigan State University and the Graduate Employees Union Contract from the link on [http://geuatmsu.org/geu-proposals/full-contract/](http://geuatmsu.org/geu-proposals/full-contract/) and the Graduate Student Rights and Responsibilities Article 4 (4.21-4.2.8) [http://grad.msu.edu/gsrr/](http://grad.msu.edu/gsrr/) (follow link to download PDF file) for details.

**Work Terms for Graduate Assistantships**

Most research assistantships in CSUS are either quarter time (requiring 10 hours of work per week) or half time (20 hours of work per week). Fellowships are different from research assistantships in that there is no work requirement associated with the receipt of a fellowship. If you have a research assistantship, you are expected, on average, to work the requisite number of hours per week. You also are responsible for working during the entire term of your appointment, although efforts should be made to not have assistants work on designated University holidays. Your supervisor may be flexible in helping you work around periods when you have heavy academic obligations, and workflow may be heavier during some weeks than others. However, you should assume that your total commitment of assistantship hours is equal to the “number of hours/week x number of weeks in the term. We suggest that you have a frank discussion with your supervisor at the beginning of your assistantship term to work out expectations regarding where you will do your work, how your duties will be communicated and determined, hours per week expected, prioritization of work tasks, modes of communication, and other issues.

<table>
<thead>
<tr>
<th>Term</th>
<th>Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall semester appointments:</td>
<td>August 16 - December 31</td>
</tr>
<tr>
<td>Spring semester appointments:</td>
<td>January 1 - May 15</td>
</tr>
<tr>
<td>Summer appointments:</td>
<td>May 16 - August 15</td>
</tr>
</tbody>
</table>
Each graduate assistant, when hired, will be provided with a written explanation of task expectations and terms of the assistantship (terms can be modified by mutual agreement between student and supervising faculty/staff member).

Renewal and termination are based on performance assessments and availability of funds.

If you have been awarded an assistantship or are otherwise employed on campus, contact your supervisor immediately to complete appropriate paperwork, discuss your assignment and schedule, and address any issues related to your employment.

**Assistantship Paperwork and Paychecks**

You will work with the department Graduate Secretary to complete all the appropriate paperwork. These include (most forms available via: [http://hr.msu.edu/hiring/studentemployment/index.htm](http://hr.msu.edu/hiring/studentemployment/index.htm)):

- Graduate Assistant Appointment Form (accessible only by the Graduate Secretary, Nansie Strobel)
- Departmental Letter of Agreement
- Criminal Background Check (beginning May 1st, 2011)
- INS I-9 Form (two forms of identification and original Social Security card)
- Federal W-4 form
- State of Michigan and Local Tax W-4 Forms
- MSU W-2 Wage and Tax Statement
- Payroll W-2 Address Form
- Direct Deposit Form

Students are paid every two weeks. Paychecks are distributed by Sue Chatterley. Payroll statements for direct deposits are available online through EBS.

If you have an **assistantship**, you will develop a plan for recording your work hours with your supervising faculty member. If you are an **hourly wage earner**, you will record your hours on a Microsoft Excel spreadsheet that will be sent to you by Sue Chatterley.

**Assistantship Performance Assessment**

Your supervisor will provide a written assessment of your work at least once each year (or shorter term, if term of employment is less). Performance will be assessed against the expectations and tasks identified in the Scope of Work, as well as on factors such as timeliness of task completion, quality of work, responsibility in performing tasks. Copies of your performance assessments will be placed in your permanent academic file. Renewal of an assistantship may be contingent on the outcome of your evaluation. If you are hired by your Academic Advisor, your assistantship performance review can be incorporated within your annual review conducted with your Advisor (see Annual Academic Performance and Progress Assessment section, page 43 and in Appendix A, for annual assessment guidelines and form).

**Paid Work Outside of Assistantship Responsibilities**

Students are permitted to work at other paid jobs as long as their doing so does not interfere with their work schedule or quality of work associated with the assistantship. Students on F-1 and J-1 visas are required to be full-time students and may work ONLY on campus, except in rare cases of economic hardship, OR in the “training” options listed on the ISP website (see link below). Such work permission on campus is limited to 20 hours per week while school is in session, although students may work full-time during vacations (Winter break, Spring break, and Summer vacation). (See [http://www.isp.msu.edu/oiss](http://www.isp.msu.edu/oiss) for more information.)

**Use of Department Resources**

Department and University resources (e.g., computers, photocopy machines, paper, office supplies, telephones, and other equipment) are to be used only to fulfill the responsibilities of University projects to which the student is assigned. Personal or other business use is prohibited. Department and University graduate student computer labs are available for doing personal and class work.
• Graduate Application and Admissions Process •

This section outlines the steps to follow in applying for graduate studies in the Department of Community Sustainability at Michigan State University, in either of two degree programs: Community Sustainability and Sustainable Tourism and Protected Area Management.

Is CSUS the Place for You?
There is tremendous diversity within the Department of CSUS. We strongly encourage potential students to visit the department, talk with current students, and review the research, outreach and teaching interests of various CSUS faculty. These steps will help you identify potential advisors who share your interests and can help you determine if CSUS is the place for you to achieve your academic goals.

Admissions Timeline
Applicants to the graduate programs in the Department of Community Sustainability are strongly encouraged to begin their programs during a Fall semester. Although occasionally students are admitted to begin their coursework in Spring or Summer semesters, advantages of Fall entry include the following benefits:

• applicants are eligible for university fellowships;
• required CSUS foundations courses, CSUS 800 and CSUS 802, are offered only during Fall semesters;
• the vast majority of graduate students begin in the fall; and
• students who begin with their cohort trend to build strong peer networks that are beneficial throughout their graduate (and professional) careers.

Application Deadlines
The deadline for completed applications for admission beginning in Summer or Fall terms generally is March 1 of that year (see CSUS website for current year information).

To be competitive for university-level and CSUS endowed fellowships and scholarships, all application materials must be received by December 1 of the calendar year before an intended Summer or Fall start. To enhance opportunities for other types of funding, submission by December 1 is recommended.

The admissions application deadline for beginning in a Spring semester is October 1 of the preceding calendar year.

Applications and all supporting documents and scores must be received by the department office by the relevant deadline. The Graduate Admissions Committee will review an application packet only after all supporting documents and official test scores have been received in the CSUS Department. Please plan accordingly.

A CSUS offer of admission is not official until student receives a letter of admission from the MSU Office of Admissions. SPECIAL NOTE: CSUS does not grant provisional admissions.

Application Materials and Instructions
Materials required for application to study in the Department of Community Sustainability are listed below. Item 1, the MSU application, should be submitted online. Some information is submitted in both locations. All other materials (items 2-8) should be submitted directly to the CSUS Graduate Secretary, Nansie Strobel.

Send your materials directly to (and ask for clarifications about the application process of):
Nansie Strobel, Graduate Secretary
Michigan State University
Department of Community Sustainability
430 Wilson Road, Room 131
Natural Resources Building
East Lansing, MI 48824-1222
Phone: 517-432-0275
Fax: 517-432-3597
Email: strobel@msu.edu
1. MSU Application

If you have received a master's degree at Michigan State University and would like to pursue a doctoral degree in the same program/department, you should complete a MAJOR CHANGE through your department.

If you have received a master's degree at Michigan State University and would like to pursue a doctoral degree in a different program/department (e.g., received a master's in English and want to pursue a doctoral degree in Rhetoric and Writing), you need to complete a new graduate application and pay the application fee.

Submit an on-line graduate application form, available through the University's on-line application page at (http://admissions.msu.edu/apply.asp).

Program codes for CSUS graduate programs, to be used on the official Michigan State University on-line application forms, are:

- **5389**: Master's in Community Sustainability *(for all MS degree types)*
- **5390**: Ph.D. in Community Sustainability
- **5376**: Master's in Sustainable Tourism and Protected Area Management *(for all MS degree types)*
- **5377**: Ph.D. in Sustainable Tourism and Protected Area Management

2. Academic Statement

Your academic statement is one of the most important parts of your application. Please use a separate sheet. *Maximum length: 750 words.* Be sure to address each one of the following items:

- **Your plans for graduate study**
  Identify the degree program to which you are applying *(MS-Plan A, MS-Plan B, or Ph.D.)*. If applying for the Peace Corps Master’s International *(PCMI)* program, also specify that. Discuss WHAT you want to study during your degree program, including your intended focus area(s) and research or project ideas. Identify faculty member(s) who you believe most closely match your interests. Include a summary of discussions you and potential advisor(s) have had, especially if you are being recruited actively by a specific faculty member.

- **Your interests, passions, and career goals**
  Clearly explain WHY you want to earn this degree. What motivates your interest in this program? What experiences have led to this choice?

- **Why CSUS?**
  Explain why this interdisciplinary program is a good fit with your goals and how MSU's CSUS graduate program will help you meet your career and educational objectives.

- **Your contributions**
  What skills, knowledge, experiences, etc. will you contribute to the CSUS department, MSU, and your fellow students?

- **Weaknesses**
  If you have apparent weaknesses in your application materials, please identify and explain them.

3. Personal Statement

Include a separate personal statement about how your background and life experiences, including social, economic, cultural, familial, educational, or other opportunities or challenges, motivated your decision to pursue a graduate degree from CSUS. Describe how these experiences have prepared you or led you to your proposed degree work *(note that “change of career” is OK as part of the rationale). If you have overcome economic barriers or extreme personal, social, or cultural obstacles to seek a graduate degree, you are encouraged to include this information in your personal statement. Feel free to focus on a single aspect of your background or to write about multiple experiences. *Maximum length: 500 words.*
4. **GRE Test Scores**

Test scores must be no older than five (5) years at the time of application. Relevant codes are as follows:

- **MSU General Code**: 1465

  **Major Field Codes (select one most relevant to your interests):**

  - 0110 Resource Management
  - 0111 Parks and Recreation Management
  - 0113 Renewable Natural Resources
  - 5101 Interdisciplinary Programs

5. **TOEFL Scores**

The TOEFL exam is required of **all international students** except for citizens of the following countries: Anguilla, Antigua, Australia, Bahamas, Barbados, Belize, Bermuda, British Virgin Islands, Canada (except Quebec), Cayman Islands, Dominica, Greenland, Granada, Guyana, Jamaica, Martinique, Montserrat, New Zealand, St. Kitts and Nevis, St. Lucia, St. Vincent, Trinidad, Tobago, Turks and Caicos Islands, United Kingdom, U.S. Virgin Islands and, in rare circumstances, prospective students who have graduated from a university where English is the primary language of instruction. In the latter case, although the exception rather than the rule, the prospective advisor, upon GACC approval, may request the Department Chair to request a waiver of the TOEFL exam from the Graduate School if the prospective advisor personally has strong evidence of sufficient English ability to be successful in the chosen degree. The Department of CSUS, in general, does not make exceptions for those who have studied and/or lived in an English-speaking country. TOEFL scores must be no older than two (2) years from the time of application. Results of required tests should be reported directly to MSU from the testing agency. Scores may take 3-5 weeks to be received by the Department from testing centers, so plan accordingly when scheduling your exam. To learn more about alternative assessments, click the link to download the *Additional Information for International Students* brochure ([available at](http://grad.msu.edu/apply/docs/international.pdf)), see p. 13.

The MSU TOEFL Code is: 1465

6. **Letters of Recommendation**

Some or all of your recommenders should be able to speak to your academic background, experience, strengths, and potential for success in the degree for which you are applying. Those writing your recommendation letters must:

a. complete the **MSU Letter of Recommendation for Admission form** ([available at](http://grad.msu.edu/apply/docs/LetterofRec.pdf))

b. write a separate letter to provide details about:

- your skills and abilities for pursuing the degree for which you are applying, and
- your “fit” with the CSUS program, not just graduate work in general.

If you, the student applicant, cannot sign each recommendation form indicating whether you waive or do not waive your rights to see the recommendation, send an email indicating your choice to each recommender, with a Cc: to the CSUS Graduate Secretary.

**NOTE:** Be sure your reference writers receive these instructions.

7. **Resumé (2 pages)**

Include in your resumé:

- Education
- Professional experiences *(paid and/or unpaid)*
- Other relevant experiences *(if any)*
- Certifications, honors, awards
- Professional organization memberships/involvement
- Publications *(if relevant)*

8. **Official Transcripts**

Official transcripts are those sent directly from the university(ies) attended (or, in some rare cases, a country’s official government office of educational records). Photocopies are not acceptable. Official transcripts from all universities and colleges attended, even if no degree is granted, must be submitted.

# Thesis & Dissertation Proposal Approval

Submit to CSUS Graduate Secretary, MSU, 480 Wilson Rd., Room 130, East Lansing, MI 48824-1222

NOTE: Do not submit this form until the proposal and supporting materials have been submitted for human subjects review, if required for your research.

- [ ] MS-A: Thesis Proposal
- [ ] Ph.D.: Dissertation Proposal

Name of Student (full name)  
Student Number (PID)

**Title of Thesis or Dissertation** (may be tentative, but should be descriptive and accurately reflect your research):

**Anticipated Completion Date** (final defense):

**IRB:** Federal and University regulations require that all proposed research projects involving human subjects be reviewed and approved by the MSU Institutional Review Board (IRB).

Will your research involve human subjects?  
- [ ] YES  
- [ ] NO

If yes, when was your proposal submitted to IRB?  

**I, the undersigned student, understand that I may not begin my research until the IRB grants its approval and I have complete the required HRPP tutorial on the IRB website.**

**Required Signatures** (type names, sign, and date):

RECORD OF DISSERTATION AND ORAL EXAMINATION
REQUIREMENTS FOR DOCTORAL DEGREE CANDIDATE

Department of: ________________________________________________

Student's Name: _____________________________________________ Student Number: ______________________

1. Dissertation Title: __________________________________________

2. Dissertation has been: □ Accepted □ Rejected □ Accepted subject to revisions (beyond minor editorial changes) required by the Committee.

3. Oral examination in defense of the dissertation was conducted on: ___________________________ Date

   The student □ Passed □ Failed Reason: __________________________

4. Dissenting opinions and signatures of dissenting examiners, if any:

5. Subject to the satisfactory completion of other requirements, this student is recommended for the degree Doctor of:

   □ Philosophy □ Education □ Musical Arts

Signatures of Guidance Committee Members: Printed names of Guidance Committee Members:

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Chairperson of Guidance Committee Date

6. Major revisions required:

7. Revisions, if any, approved:

   Chairperson of Guidance Committee Date

   Approved: _____________________________________________

   Department Chairperson: _________________________________

   Associate/Assistant Dean: _________________________________

Summarize experiences gained & skills learned during assistantship/hourly work (max 700 characters)

Did you receive any fellowship/scholarship $$$ this year?  
- NO
- YES  
If yes, indicate type and amount:

Guidelines are presented on the next page.
Section I (cont.) Student Assessment
• In a separate report, address #s 1-4 below. Submit with completed form to your faculty advisor.
• Faculty advisor will review your report, then write his/her assessment of your progress (Section II).
• After you receive advisor’s assessment, meet with your advisor to review the assessment, then both sign this signature form (Section III).
• Compile cover form, student written assessment, advisor written assessment, and signature form. Submit entire assessment packet to the Graduate Secretary, to be placed in your permanent file.

Reflecting on the past year (assessment)
1. Describe your personal and professional goals and describe how your studies relate to them.
2. List and describe the following, as pursued during the past calendar year:
   • Professional or academic professional presentations
   • Supplemental professional reading
   • Attendance at seminars, presentations or training (on or off campus)
   • Writing and submission of professional or research articles
   • Community outreach activities related to your professional goals
   • Unpaid research/experiences relevant to your professional goals
   • Any other activities supportive of your scholarly academic and professional development

Looking forward (recommendations written in two separate sections, each labeled with subheading)
3. Provide recommendations for how your academic advisor and your committee can help you address any concerns you may have, or facilitate your degree progress.
   (This section is to be used by you and your advisor.)
4. Provide recommendations for how the Graduate Affairs and Curriculum Committee and/or the Department can help you address any concerns you may have, or facilitate your degree progress.
   (This section will be pulled from your report, compiled with comments from all other graduate students, and used as input to help improve the graduate experience. Your name will not be associated with your comments.)

Section II (to be completed by faculty advisor)    Date of Faculty Report: ______________________

Faculty report (attach to assessment form and student’s self-assessment report):

After reviewing the student’s report, write your annual assessment of the student’s progress, accomplishments and ongoing work toward completing their degree. Provide recommendations, as needed, to assist student in their progress.

Section III -- Signatures (to be signed after student/advisor meeting to discuss the progress assessment)

Student Signature ________________________ Date ________________________

                  Department Chairperson (during faculty member’s annual review)
Responsible Conduct of Research (RCR) Training
Implementation Plan

Background
To satisfy federal regulations, MSU requires that all graduate students and postdocs complete training in research ethics. This training is individualized to each graduate program and must be documented. The Association of American Universities (AAU) has recommended five hours in the first year of a person’s research career and three years annually thereafter, or as required by a specific funding agency, whichever is greater. MSU has endorsed this time standard in its implementation of RCR training.

This document covers the Responsible Conduct of Research (RCR) requirements for all graduate student and postdocs in the Department of CSUS. Please note that, in addition to these requirements, certain grants may require researchers to obtain additional training related to the responsible conduct of research. Additionally, anyone who conducts a study that requires Institutional Review Board (IRB) approval must meet the training requirements for human subjects’ research protection offered by MSU’s Human Research Protection Program (HRPP). As of the writing of this document, HRPP requirements include an “initial educational requirement” that involves a 2- to 3-hour online tutorial. This training is valid for two years, after which the training must be renewed by completing online refresher modules (see CITI options on the HRPP website: http://www.humanresearch.msu.edu/requiredtraining.html)

RCR Requirements for ALL CSUS’ Graduate Students
To comply with MSU’s requirements for training in the responsible conduct of research, all CSUS graduate students (M.S. Plan A, M.S. Plan B, and Ph.D.) must complete five hours of Initial RCR education by the time of their first yearly assessment (which occurs in January). Additionally, after the initial RCR education, all graduate students must complete three hours of refresher training annually. To show compliance with these requirements, students must provide their advisors with written documentation of their training during their yearly assessment meeting (in January of each year for whatever part of the preceding calendar year the student was studying in CARRS/CSUS). Advisors must complete the RCR Training Requirement Form for each of their graduate student advisees and submit with student’s Annual Progress Report paperwork.

(see requirement details on the reverse)

(approved for CARRS implementation February 2012; revised for CSUS August 2013 & August 2014)
Initial RCR Education *(5 hours in first year of CSUS Graduate Work)*

All CSUS graduate students must complete five hours of initial RCR training by the end of their first fall semester (prior to their first annual assessment, completed in January).

**First 3 Hours:** Because all new CSUS graduate students (M.S. Plan A, M.S. Plan B, and Ph.D.) are required to take CSUS 800 during their first fall semester, the first three of these hours are incorporated into that course. (Of course, you must participate in those class days/sessions during which RCR is covered.)

**Hours 4 & 5:** Select (in consultation with your advisor and/or project Principle Investigator [P.I.]) two hours from the following options. Be sure to document completion of your selected options in writing.

- **HRPP Initial Training** (2- to 3-hour tutorial, depending on how long it takes you to complete it)
  
  *Note: completion of this tutorial also will satisfy the initial education requirement for requesting IRB approval.*  
  [http://www.humanresearch.msu.edu/requiredtraining.html](http://www.humanresearch.msu.edu/requiredtraining.html)

- **CITI (Collaborative Institutional Training Initiative) Modules,** depending on modules selected, one or more modules may be needed to meet each 1-hour requirement.
  
  *Note: MSU has licensed access to CITI modules. A link can be found on the HRPP website:*  
  [http://www.humanresearch.msu.edu/onlinetraining.html](http://www.humanresearch.msu.edu/onlinetraining.html)

- **RCR Workshop – Individual Workshops or Certificate (all):** Offered by the Graduate School *(must register ahead of time; space is limited; to receive Certificate of Attendance, must participate in all seven 1.5-hour workshops and complete the associated work):*  
  [http://grad.msu.edu/rcr/](http://grad.msu.edu/rcr/)

- 1-hour blocks of **readings plus discussion** with Advisor or PI (based on selected readings from RCR website:  
  [http://grad.msu.edu/researchintegrity/resources/](http://grad.msu.edu/researchintegrity/resources/)

Refresher Training *(3 hours annually after first year of CSUS Graduate Work)*

All CSUS graduate students must complete three hours of RCR refresher training annually. Student may choose any combination of the following training resources totaling a minimum of 3 hours.

- **CITI Modules** approved by advisor or PI:  
  [http://www.humanresearch.msu.edu/onlinetraining.html](http://www.humanresearch.msu.edu/onlinetraining.html)

- **RCR Workshops** offered by the Graduate School *(must register ahead of time; space is limited):*  
  [http://grad.msu.edu/rcr/](http://grad.msu.edu/rcr/)

- **Non-CITI Tutorials:**  
  [http://grad.msu.edu/researchintegrity/resources/](http://grad.msu.edu/researchintegrity/resources/)

- **Discussion/Training** with advisor or PI *(based on RCR Readings):*  
  [http://grad.msu.edu/researchintegrity/resources/](http://grad.msu.edu/researchintegrity/resources/)

Please note that the above requirements are only *minimum* requirements for RCR training. Students interested in learning more about the responsible conduct of research are encouraged to take advantage of the many resources available from the graduate school, the Human Research Protection Program and Office of Research Integrity. These include workshops, online tutorials and readings.

---

*(approved for CARRS implementation February 2012; revised for CSUS August 2013 & August 2014)*
Responsible Conduct of Research (RCR) Training

Tracking Form

Student, with review of/approval by their advisor, will complete this form as part of the CSUS requirement for graduate student RCR training. Initial education must be completed by the end of the student’s first fall semester in CSUS. Three hours of refresher training must be completed annually thereafter. Complete appropriate section below (check box).

Note: Student must provide advisor with documented evidence of training (e.g., certificate of HRPP tutorial completion or RCR Workshop Certificate of Attendance) before advisor will sign this form.

<table>
<thead>
<tr>
<th>Training Type</th>

Revised 9/4/13; 8/24/14
MICHIGAN STATE UNIVERSITY
GUIDELINES AND APPLICATION
FOR INDEPENDENT STUDY

DEFINITION

At Michigan State University, Independent Study is planned study, highly individualized, not addressable through any other course format, proposed in writing by the student on a standard form, accepted for supervision by a faculty member, and approved by the student’s academic adviser and the teaching unit at the beginning of the semester.

GUIDELINES

Independent Study should:

1. Consist of work not described in the University catalog in any other format;
2. Be taken under a course number commensurate with the student’s class level, major field, and experience;
3. Relate to a subject for which the student has adequate preparation;
4. Be directed by a faculty member with whom there is a periodic contact and consultation throughout the study;
5. Not exceed eight semester hours of credit in a single semester;
6. Not exceed 10% of the credits earned in a bachelor’s program;
7. Be applied for on the form provided by the University, or any equivalent departmental or College form;
8. Be approved on this form before the student enrolls for the course.

APPLICATION AND ENROLLMENT

Please complete the form on the reverse side, obtaining indicated approvals and necessary overrides before enrollment for the course:
MICHIGAN STATE UNIVERSITY
APPLICATION FOR INDEPENDENT STUDY

PLEASE READ THE GUIDELINES BEFORE COMPLETING THIS FORM.
ALL ITEMS MUST BE COMPLETED BEFORE APPROVAL SIGNATURES ARE OBTAINED.

</tr>
</tbody>
</table>

This form is intended as an “add-on” program planning form on which students who choose to complete one or more specializations, certifications, or other special program elements can plan and track their progress. In many cases, a specialization or certification is simply incorporated as all or part of one (or more) focus areas in the official Program of Study. Other students may choose to ADD a specialization or certification on top of their official Program of Study. In other cases, some program requirement courses fulfill part of a specialization; yet additional courses beyond the Program of Study are needed to complete a specialization or certification. Thus, use this form for planning purposes.

It is suggested that any courses NOT needed as part of the official Program of Study (30 credits for MS and 60 credits for PhD degrees) not be included on the official Program of Study. Rather, they can be tracked on this form. The reason is that, should students change course choices for specializations/certifications or later decide to NOT complete one, they do not have to complete a Change of Program Plan form or complete a new Program Plan/Planning Form.

With the approval of their committees, CSUS MS students who matriculate (after summer semester 2008) will be permitted to apply up to 9 credits of 800-level Teacher Education (TE) course credits (those that are earned as part of MSU’s Teacher Certification Internship Year) toward the fulfillment of their MS degree in CSUS.

Specifically,

6 credits of TE 802 and 804 may accepted as part of the student’s 15 “focus area” credits, provided the focus area is conceptually defined to include the material covered in these courses. Examples of such focal areas include Education and Community Engagement, Community Food and Agriculture, or any number of individually-designed focal areas such as Natural Resource Education and Management (see example below). Focal areas must be developed to include a coherent selection of courses that represents a particular area of specialization. They also must include at least 6 additional credits of CSUS courses.

3 credits of TE 801 or 803 may be accepted to fulfill the “techniques/professional skills” requirement for the MS-B program. TE 801 or 803 may or may not be accepted to fulfill requirements for the MS-A program and will depend on the fit to the student’s program goals as well as approval of the Guidance Committee.

Example Program Plan for an Agriscience and Natural Resource Educator Working Toward an MS-B in CSUS using TE Credits

1. **Required Courses –12 credits**
   - CSUS 800: Foundations in CSUS 3 credits
   - CSUS 802: Survey of Research Methods 3 credits
   - CSUS 895: Case Studies 3 credits
   - CSUS 898: Plan B Project 3 credits

2. **Focus Area Courses –15 credits**
   Example Focal Area: Natural Resource Education & Management
   - TE 802: Reflections & Inquiry in Teaching Practice I 3 credits
   - TE 804: Reflections & Inquiry in Teaching Practice II 3 credits
   - Additional Focal Area Courses
     - CSUS 828: The Art and Craft of Public Policy Analysis 3 credits
     - CSUS 841: Building and Implementing Watershed Plans 3 credits
     - FW 869: Community and Conservation 3 credits

3. **Techniques or professional skills**
   - TE 801, TE 803, or other approved professional skills class 3 credits

**TOTAL CREDITS** 30 credits
In addition to the graduate degree programs offered by individual departments within the university, Michigan State also offers many programs that combine the research facilities and faculty of different departments and colleges. In many cases, a specialization or certification is simply incorporated as all or part of one (or more) focus areas in the official Program of Study. Some students choose to ADD a specialization or certification on top of their official Program of Study. In other cases, some program requirement courses fulfill part of a specialization (and vice versa); yet additional courses beyond the official Program of Study are needed to complete a specialization or certification.

It is suggested that any courses NOT needed as part of the official Program of Study (30 credits for MS and 60 credits for Ph.D. degrees) not be included on the official Program of Study. Rather, they can be tracked on this form. The reason is that, should students change course choices for specializations/certifications or later decide to NOT complete one, they do not have to complete a Change of Program Plan form or complete a new Program Plan/Planning Form.

**Note:** If you plan to incorporate (or add) a specialization into your Program of Study, please use the additional form available on the CSUS Graduate Forms page (also see p. 80 of this handbook).

Below are some potentially relevant specializations for CSUS or STPAM students. Find direct links to these specializations and more from: [http://www.reg.msu.edu/academicprograms/Programs.asp?Type=SPCG](http://www.reg.msu.edu/academicprograms/Programs.asp?Type=SPCG)

**SPECIALIZATIONS**

Animal Studies: Social Science and Humanities Perspective (MS and Ph.D.)
Business Concepts for Environmental Sustainability and Conservation (MS and Ph.D.)
Ecological Food and Farming Systems (MS and Ph.D.)
Environmental Policy (MS and Ph.D.)
Environmental Science and Policy (Ph.D.)
Environmental Toxicology (MS)
Ethics and Development (MS and Ph.D.)  (*will go into moratorium as of Summer 2015; proposal being developed for a specialization in “Engaged Philosophy”*)
Fish and Wildlife Disease Ecology and Conservation (MS and Ph.D.)
Food Safety (MS)
Gender, Justice, and Environmental Change (MS and Ph.D.)
Global Urban Studies (Ph.D.)
International Development (MS and Ph.D.)
Management of Information Technology (MS)

**INTERDEPARTMENTAL SPECIALIZATIONS**

Ecology, Evolutionary Biology and Behavior (MS)
Environmental and Resource Economics (MS and Ph.D.)
Hospitality Business (MS and Ph.D.)
Infancy and Early Childhood (MS and Ph.D.)
Media and Information Studies (MS and Ph.D.)
Women’s and Gender Studies (MS and Ph.D.)
Below are some potentially relevant certificate programs for CSUS or STPAM students. Find direct links to these certificates and more from: https://www.reg.msu.edu/academicprograms/Programs.asp?PType=GC

Following is a list of graduate courses currently taught by CSUS faculty, or courses that are jointly administered with other departments. The courses are listed in numerical order.

University 400-level undergraduate courses also may be used in a graduate program. Graduate students are advised to discuss this option with their advisor and/or committee. Also see Guidelines for use of 400-level courses in this handbook (pages 10, 11 and 27, 28).

**CSUS Courses – Community Sustainability** (applicable for both CSUS and STPAM degrees)

For details about the following courses (e.g., number of credits, cross-listings, and semester offered), see the listings on the MSU Description of Courses (or link from the list on the CSUS website: http://www.csus.msu.edu/graduate/graduate_courses)

Guidance Committee Member Eligibility Guidelines

1. Eligibility Policy for Serving on CSUS Graduate Committees (summarized in the Table on the next page)

Committee Chair
Only CSUS tenure-stream faculty may serve as Chair of CSUS graduate guidance committees.

Committee Members
CSUS and other MSU tenure-stream faculty holding a Ph.D. are eligible to serve on committees.

MSU-appointed staff holding Ph.D.s outside of the tenure stream (or equivalent terminal degrees) may serve on CSUS graduate guidance committees if they have applied for and received approval from the Department and the Graduate School for this status.

Ph.D.s who are employed outside of MSU may serve on CSUS graduate committees if they have applied for and received approval from the Department and the Graduate School for this status.

MSU staff or non-MSU staff who hold master’s degrees may serve on CSUS MS committees if they have applied for and received approval from the Department and the Graduate School for this status.

2. Process to Gain Approval to Serve on Graduate Committees

The student’s committee chair or any individual wishing to serve on CSUS Graduate committees may complete the following process to be assessed for guidance committee eligibility:

2.1 The proposed committee member compiles the information requested in the Graduate School’s “Procedure to have non-tenure faculty and academic specialists Serve on Graduate Student Committee.” Specifically, this requires:
* A letter from the individual summarizing his/her background and qualifications to serve as a member of a graduate student committee
* A copy of the individual’s vita
* Individual’s email address
* Two letters of reference that speak to the person’s qualifications to serve on graduate student committees. One letter may be from an MSU faculty, but at least one letter must be from an external source.

2.2 The student’s committee chair reviews these materials and attaches a cover memo that explains if the application applies to i) all future graduate committees (“standing eligibility”); or ii) a specific student’s committee (“specific eligibility”).
* If the application is for standing eligibility: explain how this person’s expertise is pertinent to the multiple focal areas or themes within CSUS.
* If the application is for specific eligibility: explain 1) the role this individual is expected to play on this student’s committee; and 2) the nature of this individual’s expertise and how it meets the needs required of the committee.

3.1. In the case that a particular individual seeks this status on their own behalf (i.e., without being associated with a particular graduate committee), he/she would submit a coversheet that provides the information requested in 2.1 as well as the materials requested in 2.2 above.
3.2. The complete application is submitted to the Department Chair.

At the discretion of the Chair, the GACC or any other standing or ad hoc committee reviews the application and makes a recommendation to the Department Chair. The committee’s responsibility is to determine that 1) the application is substantively complete; and 2) the application has been made for the correct status (standing or specific eligibility). The standard of requirement for the former will be higher. Specifically,

3.5.1. **Applications for standing eligibility** must demonstrate that the individual is engaged in active scholarship in at least one focal area identified within the CSUS graduate program. Active scholarship means that the person is engaged with, has an active publication record in, and conducts research in the field in which they claim specialization.

3.5.2. **Applications for specific eligibility** must make the case for a particular expertise on a committee as well the ability of this person to provide such expertise.

3.3. The Department Chair reviews the application and GACC’s recommendation and forwards the application to the Graduate School if deemed appropriate.

3.4. The Graduate School evaluates the file and notifies the Department Chair of the decision. The Chair notifies GACC and the committee chair (or individual) who submitted the application of the final decision.

**Summary of Eligibility to Serve on CSUS Graduate Committees**
