Please see the link below to a job post for the Community Environmental Engagement Coordinator position with The Field Museum. To insure equality of opportunity in making this hire, we are looking to have it distributed widely through social networks that bridge class, race, and ethnicity. View the post for full job details and share with anyone who may be interested in applying.

http://app.hireology.com/s/33313

This coordinator will help to develop and expand our collaborations with community partners in neighborhoods near the museum, as well as with Chicago Park District and other citywide institutions. This hire will in particular enable us to deepen our work in the Burnham Wildlife Corridor, building connections to this natural area and engaging nearby communities in a process of restoration of natural and community wellbeing. We are intent upon hiring someone intimately familiar with the assets and primary concerns of communities on the south and near-west sides of Chicago.
