Application

Admission Review for Dietetics Program

I wish to be considered for admission to the upper level (junior/senior) of the Dietetics Program at the end of ________________ (semester/year).

I understand that enrollment in the dietetics major is limited; that the Bachelor of Science Degree in Dietetics is a professional degree which requires acceptance into a competitive internship in order to complete the requirements for eligibility to take the registered dietitian examination; and that a minimum cumulative grade-point average of 2.5 is necessary to be considered for admission, but does not guarantee admission.

Name __________________________________________    PID# ______________________

Current major __________________________________________

Phone _________________________________    Email _________________________

Which of the following are you requesting?

_____   Major change to Dietetics

_____   Dietetics as an additional major

_____   Dietetics as a 2nd degree program

Are there special circumstances about which you’d like the selection committee to know? If so, describe here:
