PROGRAM SUMMARY

Developmental Accreditation Status

The Dietetic Internship at Michigan State University is currently granted developmental accreditation by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606, 312-899-0040.

Program Description

The Dietetic Internship at Michigan State University (MSU) is a generalist dietetic internship (DI) program. The program provides supervised practice experiences necessary for qualified dietetics graduates to write the Registration Examination for Dietitians administered by the Commission on Dietetic Registration.

Over the course of 44 weeks, up to 14 qualified graduates from Approved Didactic Programs in Dietetics will complete supervised practice rotations in the MSU Dietetic Internship Program. Travel is required for this internship program. The interns will also enroll in and earn 13 graduate or Lifelong Education (LE) credits at Michigan State University. The MSU Dietetic Internship Program is accredited by the American Dietetic Association (ADA) Commission on Accreditation for Dietetic Education (CADE). Upon successful completion of the programs’ core competencies (clinical, community, foodservice), all interns are eligible to take the Registration Exam for Dietitians.

Location of Supervised Practice Rotations

Interns in the MSU DI Program will be located either in the Lansing/Jackson or Grand Rapids/Muskegon, Michigan areas. It will be necessary for interns to travel. Travel will include but not be limited to: travel to rotation sites, travel during rotations to other sites, travel to meetings, conferences, travel to either Lansing/Grand Rapids, and other locations for classes and other brief experiences (2 weeks or less) to meet specific competencies. All interns are required to have an automobile and to travel. Assignment to specific areas will be made after acceptance of a match into the MSU DI Program.

Admissions Policies

Admission requirements and procedures Consideration of applicants by the Internship Selection Committee and Graduate Review Committee will be in compliance with these and other University, state, and federal regulations.

Shall protect student civil rights and comply with MSU’s Equal Opportunity programs. The application of each student will be considered individually. “Admission to Michigan State University is based on academic preparation and ability. Only those students likely to succeed in our programs are admitted. Admission decisions are made without regard to race, color, sex, religion, creed, national origin, marital status, disabilities, age or (in
the case of U.S. Citizens and permanent residents) financial need.” (Options Opportunities publication, Admission, p. A-3).

While interns are not “regular status” graduate students, the “Graduate Student Rights and Responsibilities at Michigan State University” found in Spartan Life (Appendix B) also applies to LE graduate students. It states the University policy of Equal Opportunity that...“In all areas of graduate education pertaining to academic rights and responsibilities, there shall be no discrimination on the basis of race, color, creed, gender, national origin, political persuasion, sexual preference, marital status, handicap, or age.” (2.3.2).

**Lifelong Education Courses and the MSU Dietetic Internship**

Graduate courses taken during the MSU DI Program are offered through the Graduate Lifelong Education program at MSU. This confers an advantage for MSU dietetic interns in that interns pay no matriculation fee for each semester they are enrolled in graduate courses.

For the internship - **MSU-sponsored financial aid can be obtained by interns choosing Option 1.** If graduates of the MSU DI Program matriculate in the Graduate Program in Human Nutrition to pursue the M.S. degree, they will be charged at the current graduate tuition rates and pay associated matriculation fees.

**Lifelong Education Status**

Lifelong Education Status includes all students attending the University who are not pursuing a formal University degree or certificate. Graduate Lifelong Education status includes: graduate non-degree, graduate unclassified off-campus, graduate workshop, graduate guest, graduate LE, and MIGS (Michigan Intercollegiate Graduate Studies Program). First time Lifelong Education students may obtain an application from the DI Program Application Packet. Additional copies of the LE application may be obtained in MSU’s Registrar’s Office, 150 Administration Building (355-3300), at MSU Regional Offices or at University Outreach Instructional Programs Office, 51 Kellogg Center (353-0791).

The purpose of the Lifelong Education status is to permit and facilitate access to MSU courses (on-campus, off-campus, or workshop) for persons not wishing to pursue an undergraduate or graduate MSU degree. Students who have attained a baccalaureate degree are considered Graduate Lifelong Education students.

Performance of Lifelong Education students is monitored. A limited number of credits (10) may be accepted toward fulfilling the course requirements in a degree program should application for admission be made at a later date, and if the admitting department or school and college approve them as appropriate to the degree program. (See below for GPA monitoring guidelines and credit applicability maximums.) Departments have the ability to limit enrollment in courses by Lifelong Education students.
Interns accepted into the MSU DI Program are admitted with Lifelong Education (LE) Status. LE Status includes all students attending the University who are not pursuing a formal University degree or certificate. All interns:

- are LE graduate students in the Department of Food Science and Human Nutrition, and;
- take 13 graduate credits through the Lifelong Education Program at MSU.

Two options for enrolling in the MSU DI program are offered:

**Option 1, Dietetic Internship (DI):** complete the requirements for the Dietetic Internship that includes 13 hours of Lifelong long education graduate credits over 44 weeks

**OR**

**Option 2, Combined Dietetic Internship/Masters Degree (DI/MS):** apply to and be accepted into a) MSU DI Program and b) MSU Graduate School, Department of Food Science and Human Nutrition. The 13 required credit hours taken during the internship may be applied to the M.S. Program in Human Nutrition. You must apply separately to the graduate program and the dietetic internship program.

**Financial Aid**

Interns who choose Option 1 are not eligible for Title IV federal financial aid. Alternative loans and student loan deferments are available when admitted into the MSU DI Program. Some loans available include: CitiAssist Loan ([www.studentloan.com](http://www.studentloan.com)), The Key Alternative Loan (www.key.com/educate) and the Signature Student Loan ([www.salliemae.com/loans/private](http://www.salliemae.com/loans/private)). See page 10 from the Financing your education at Michigan State University for more information.

Interns who choose Option 2 and are also admitted into the MSU Graduate Program as regular status graduate students may qualify for financial aid and student loan deferments. For any inquiries concerning financial aid status, contact the University Financial Aid Office at (517) 353-5940. Regular status graduate students (not LE graduate interns) in residence at MSU may be eligible for teaching assistantships or other forms of financial support. Please consult the Graduate Student Handbook or your Graduate advisor for additional information.

**Courses and Credits:**

HNF Courses are for Dietetic Interns Only.

**HNF 494** - Practicum (Pass/Fail Class) Up to 7 credits (1-3 credit increments)

**Medical Nutrition Therapy**

Introductions to the application of medical nutrition therapy in hospitals and long term care settings. The curriculum is focused on practiced-related learning experiences with supervised practice in nutritional assessment; planning and
implementation of nutrition care plans in diverse populations. Course work will include: advanced clinical worksheets, major case study to include a research paper, mini case studies, special project assignment, professional and public oral presentations, professional literature readings and assignments and journal review assignments.

**Community Nutrition**
Application in supervised practice setting of methods for the dietary and anthropometric assessment of population groups. The application of policies, programs and resources available to address the nutritional needs of a community in public health agencies, community health agencies, hospitals, and Extension settings through preceptors/adjunct faculty and the course instructor. Course work will include special assignments, worksheets, oral presentations, program development, case studies, professional literature readings and assignments, and journal article assignments.

**Foodservice – Management / Business**
Supervised practice in the procurement, production, quality assurance, sanitation and fiscal implications of school, hospital, long-term care and entrepreneurial settings. The curriculum is focused on practice-related learning experiences in the development of menus for target populations, management of fiscal resources to meet budgetary guidelines, and perform human resource functions to meet organizational goals and objectives through preceptors/adjunct faculty and course instructor. Course work will include worksheets, special assignments, planned theme meals with research paper, professional and public oral presentation, educational material development, professional literature and journal review.

**HNF 891**  Up to 5 credits (1-3 increments)

**Professional Issues in Dietetic Practice**
Instructional/seminar course covering diverse areas relevant to the practice of dietetics. Advanced clinical will focus on the application of nutrition in the foodservice, community and clinical settings. The American Dietetic Association’s Code of Ethics and Standards will form the basis for topic areas discussed. Presentations by course instructor, dietetic professionals, advocacy experts, and other health professionals on topics such as the legislative process, ethical issues in dietetic practice, interdisciplinary collaborations in dietetic practice, food safety and sanitation, and current research topics affecting dietetic practice. Clinical topics will include, but not limited to, advanced nutritional assessments, parenteral and enteral nutrition, geriatrics, pediatrics, renal and diabetes. Course work will include, research paper, journal review assignments, professional literature and clinical worksheets,
Nursing 805 3 Credits Fall Semester

Pathophysiology for Advanced Practice Nursing
This graduate course, offered entirely via the internet, will focus on alterations of various physiologic systems and associated pathophysiology of frequently encountered primary care conditions across the life span and special populations. Interns will perform in-depth case analyses of risk factors, pathophysiologic changes, pathophysiological theories and research.

Alternate Choice (per approval)

Nursing 891: Aging and Health in the U.S.
This graduate course, offered entirely on the internet will focus on the challenge of growing older in an aging society. Biological, psychosocial, familial, and environmental influences on the health of aging individuals are discussed. Ethical and public policy issues such as mandatory retirement, health care financing and health care rationing are also explored.

The Interns will take the following Schedule:

Interns’ Schedule

Fall Schedule:  HNF 494 A (3 credits)
               HNF 890 A (1 credit),
               NUR 805 (3 credits)

Winter Schedule:  HNF 494 B (2 credits)
                 HNF 890 B (1 credit),

Summer Schedule:  HNF 494 C (2 credit)
                  HNF 891 C (1 credit)

Total credits for the year: 13 credits.

Program Costs/Fee Payment Schedule

Upon acceptance to the program, a non-refundable $100.00 down payment is due. Remaining payments follow this schedule:

Dietetic Internship Program Fee: Due on the first day of the Internship program
**August 23, 2004
**Fee for 2004-2005: $5800
**program fee subject to change on a yearly basis
Course Fees: Due per MSU fee payment schedule
**First payment due approximately August 7, 2004
**Tuition for 2003-2004: $3441.75 (13 graduate credits)
**Tuition subject to change on a yearly basis

Withdrawal and Refund of Tuition

The Program Fee is non-refundable after matriculation into the MSU Dietetic Internship. The Lifelong Education/Graduate credits will be refunded per MSU policies.

To withdraw from the MSU Dietetic Internship the intern must contact the DI Director to initiate the process. The intern will also be withdrawn from HNF courses. If the intern withdraws or is terminated before the 13th week of the program (based on the start of the MSU Dietetic Internship Program) the intern leaves the internship and receives no grade for the graduate HNF courses. If it is after the 13th week the intern will fail both the HNF courses. Refunds will be for the graduate courses only and per MSU policy.

Pre-Entrance Requirements

Each intern accepted into the MSU DI Program is expected be proficient understanding and using medical terminology. The intern will be assigned homework to be completed prior to the starting of the Dietetic Internship Program. A proficiency exam in medical terminology will be given during the MSU DI Program orientation.

PROGRAM MISSION AND GOALS

Mission Statement of the MSU Dietetic Internship Program

Mission Statement: The Faculty and faculty preceptors of the Michigan State University Dietetic Internship Program will strive to prepare entry-level dietitians for state-of-the-art practice in diverse and challenging healthcare, foodservice and entrepreneurial settings.

Goals of the MSU Dietetic Internship Program

General Program Goals:

1. Ninety percent or more of the MSU Dietetic Interns will complete the Internship Program.
2. Eighty percent or more of the MSU Dietetic Interns who complete the Internship Program will pass the RD exam on the first attempt.
3. All rotation sites will provide the MSU Dietetic Interns with a supervised practice experience to meet the competencies for an entry-level dietitian.
4. Eighty percent of the graduates will demonstrate professional development through participation in Dietetic Associations, or Practice Groups, or the
continued pursuit of advanced degrees (completion of graduate courses / masters degree) or credentials, articles, awards or media contacts.

Unique Program Goals:

1. The program will develop entry-level dietetics professionals who demonstrate competence and practice self-reliant behaviors.

2. The program will provide supervised practice experience in urban, suburban and rural areas for all MSU Dietetic Interns.

3. The program will utilize proximity to state government for MSU Dietetic Interns to participate in the legislative process (such as by visiting representatives, attending committee hearings, writing testimony, etc.).

4. The program will contribute qualified dietetic professionals to areas underserved by dietetic professionals in western Michigan.

5. The program will expand viable partnerships with private and public healthcare providers, food service and marketing companies, community agencies, and entrepreneurs to assure the availability of excellent supervised practice opportunities.

6. The program will facilitate the transition post-internship for MSU Dietetic Internship graduates by encouraging graduate education and increasing awareness of professional practice opportunities.

7. The program will expose MSU Dietetic Interns to traditional (e.g. clinical, community and foodservice) and non-traditional (e.g. business, entrepreneurial and not-for-profit) employment opportunities.
PROGRAM RESPONSIBILITIES

Michigan State University Dietetic Internship Director

A. Maintain all aspects of the Dietetic Internship Program

1. Obtain program accreditation from the American Dietetic Association.
2. Direct, organize, and supervise operational activities of the MSU Dietetic Internship program.
3. Plan goals and objectives to attain overall development / committee goals for the program. Formulate, recommend, and implement policies, systems, procedures necessary for attainment of ADA standards. Review philosophy, goals, policies and curriculum.
4. Recruit and select interns with the Dietetic Internship Selection Committee (ISC). Coordinate the selection process of the dietetic interns.
5. Develop instructional programs/rotation sites for the dietetic interns. Monitor and evaluate the curricula required for the dietetic internship in order to meet the American Dietetic Standards of education for continued accreditation.
6. Manage the internship budget/funds. Perform ongoing monitoring of interns and program outcomes.
7. Utilize new improvements and/or technology to improve the internship program.
8. Network on a regular basis with the dietetic interns, preceptors, faculty, DIAC and DCC committees as well as the Chairperson of the Department of Food Science and Human Nutrition.
9. Conduct, analyze and evaluate the internship program, rotation sites and interns.
10. Complete exit interviews with all dietetic interns.
11. Obtain input from preceptors and rotation sites to ensure a high quality program.
12. Attend committee meetings. The DI director will be a part of and report to the ISC, DCC and DIAC committees to provide updates and evaluations on the internship such as written summaries and analyses of outcome measures.
13. Verify intern completion of supervised practice experiences for the ADA.
14. Meet with DIAC, DCC, Chairperson and faculty to discuss recommendations to improve the dietetic internship program. Review curriculum and content and the appropriateness of the program entrance criteria; review and follow-up on results of surveys, evaluations, exit interviews and feedback from graduates and employers.
15. Perform other related duties as required to ensure the success of the dietetic internship.
B. Coordinate and supervise all aspects of the educational activities of the Interns in the Michigan State University Dietetic Internship Program.

1. Plan and conduct orientation and didactic meetings for the internship.
2. Locate rotation sites and preceptors for the interns. Plan rotation schedules for dietetic interns.
3. Participate in the evaluation of the practice and academic achievements of the interns in association with DIAC and DCC.
4. Act as a liaison with the rotation site preceptors and the interns to maintain high quality of supervised practice experience content.
5. Teach the graduate level course: Professional Issues in Dietetic Practice.
6. Provide housing on campus during the MSU Extension rotation when temporary relocation is necessary.
7. Provide assistance as necessary for the dietetic intern and or preceptor to maintain a high quality dietetic internship program.

Rotation Site/Preceptor Responsibilities

1. Provide supervised training according to curricula provided by the MSU DI Director as determined in collaboration with each facility.
2. Provide workspace for dietetic interns as available.
3. Provide qualified professional(s) to supervise dietetic interns during the rotation.
4. Evaluate the interns’ competencies in the required learning experiences with the assistance of the Dietetic Internship Director.
5. Assist with the overall internship evaluation to maintain and improve the quality of the MSU Dietetic Internship Program.

Dietetic Intern Responsibilities

1. Pay all required fees for the internship.
   The MSU Dietetic Internship program fee is non-refundable. (For Lifelong Education /Graduate Credit refunds see the MSU refund policy in the MSU Handbook.)
2. Maintain liability (malpractice) insurance throughout the internship program. (Proof is required.)
3. Maintain health insurance.
4. Maintain student membership in the American Dietetic Association
5. Assure immunizations are current.
   * TB test. (Proof required).
   * Hepatitis B immunization. (Proof required).
   * MMR, Rubella, Tetanus and Chicken pox (Proof required).
6. Complete and pass all rotations and competencies (skill level 3 / Entry level II, Satisfactory*). See Entry Level Competency Scale.
7. Complete all aspects of the internship: all rotations, presentations, assignments and other required tasks – with high standards and professional manner.
8. Complete graduate/LE credits; i.e. all assignments, presentations and course work with high standards. Maintains >3.0 GPA.
9. Pass all rotations and course work.
10. Arrive on time to all rotations and complete all coursework, homework and assignments in a timely manner.
11. Maintain professional attitude, behavior and dress during the internship.

General Requirements for each Intern.

1. A car is required for the internship
2. Interns in the MSU DI Program will be located in the Lansing or Grand Rapids/Muskegon areas.
   The intern will be required to travel. Travel will include but not be limited to the following:
   a) Travel to the various rotation sites,
   b) Travel from the rotation site(s) to other locations for brief experiences - this may include intermittent long distance trips.
   c) Some travel to Lansing, Muskegon, Grand Rapids, as well as other areas, as needed, for classes and other experiences.
   d) Brief experiences (2-4 weeks) to meet specific competencies.
3. All interns are expected to hold ADA Affiliate Membership and liability insurance. (Proof required)
4. All interns will have access to the Internet and email via MSU accounts during the internship and for two years post graduation.
5. Weekly reports sent to the DI Director via email are required.
6. Attendance to class and rotations are required.

Housing Requirements

Interns are responsible for their own living arrangements and expenses. A wide variety of housing possibilities are available in the Lansing, Grand Rapids, and Muskegon areas, with prices dependent on specific type of arrangement and location. While a limited number of dormitory rooms may be available to interns, most choose to live off campus. The Student Services Program, located in the Student Services Bldg., maintains lists of apartments and houses available for rent in the Lansing area. That office can be contacted at, or accessed at the MSU website (http://www.msu.edu/). In addition, interns must arrange for their own transportation, since supervised practice facilities where interns receive the majority of their training are not easily accessible by public transportation.

Insurance Requirements

1. Interns must carry and provide proof of professional malpractice (liability) insurance throughout the internship.
2. Health insurance is strongly recommended. Interns should purchase their own insurance during the course of the Dietetic Internship, if not already covered.
Medical Requirements

1. Interns must be able to participate in and successfully complete the internship program.
2. Immunizations required are:
   - ? MMR
   - ? Tetanus (every 10 years)
   - ? TB skin test (yearly)
   - ? Hepatitis B (series must be initiated before internship begins)
   - ? Chicken Pox vaccine (or chicken pox antibodies)

Completion of the MSU Dietetic Internship Program

1. The intern must successfully complete all aspects of their clinical, community, and foodservice/business rotations with a skill level 3 (Satisfactory) in order to pass the Dietetic Internship Program. The director will determine completion via their evaluations and recommendations.
2. The intern must attend, complete and pass all graduate courses. Interns must maintain a minimum GPA of 3.0 during the internship program.
3. The interns will send a detailed weekly summary to the DI director.
4. All missed days (illness, weather, etc.) from a rotation must be made up in a timely manner. It is the responsibility of the intern (with approval of the DI Director) to arrange for completion of any missed days.
5. The intern may be terminated from the program if he/she fails a rotation, has excessive absences in a rotation, receives three Statements of Concerns (see Termination section for specific criteria). Program dismissal will be determined by the Dietetic Internship Director along with input from the preceptors and the DIAC.
6. If the Intern does not successfully complete all or part of a rotation (evaluation score below a 3.0) the intern may have the opportunity to repeat part or all of the rotation. All ‘repeat’ rotation days will be determined by the DI Director, evaluating preceptors and the availability of sites.
7. All repeated rotation days must be completed within six weeks of the end of the internship program. Failure to complete any days within this time frame will indicate unsuccessful completion of the MSU Dietetic Internship Program. The intern will not be granted a certificate of completion and will not have successfully completed the DI Program.

Evaluation of Progress

In order to successfully complete the Dietetic Internship, interns are expected to meet ALL the specific competencies for each rotation. Copies of curriculums for the interns will be provide during the program orientation located at MSU in the beginning of the internship program. Competencies are based on learning experiences designed to train interns to perform a wide range of activities practiced by entry-level dietitians. Interns
work with preceptors in each field site and with the Internship Director to insure that all competencies are met. Additional work (e.g. reading, research) is required above and beyond the time spent at the field site, especially during the clinical rotation.

In some cases, Interns may enter the MSU DI Program with prior learning experiences that meet a competency that is required for the internship. These prior learning experiences will be evaluated on an individual basis by the DI Director to determine whether the prior experience is sufficient to meet the requirement of a specific competency for the MSU DI Program.

Formal evaluation of students and regular reports of performance and progress at specified intervals throughout the program are completed, such as within any given unit, segment, or rotation of a planned learning experience.

**Interns’ Evaluations**

1. All interns will be evaluated at the end of each rotation by their preceptors using the evaluation forms supplied by the Michigan State University Dietetic Internship program.
2. The interns must arrange a time to discuss their objectives/competencies and progress in meeting those objectives/competencies.
3. The interns must provide rotation evaluation forms to the preceptors at the beginning of each rotation. Preceptors at each affiliation are responsible for completing the evaluations and reviewing them with the intern. The DI Director will be present at evaluations as requested per facility.
4. It is the responsibility of the intern to submit all evaluations to the DI Director.
5. The DI Director will review all evaluations the interns receive.
6. If an intern does not complete part or all of a rotation, receives a poor evaluation (needs more time or needs to improve), or fails the rotation per preceptors’ evaluation and comments, a meeting will be arranged to determine a plan of action or termination from the DI program.
7. The intern will evaluate the sites/rotations and preceptors at the end of each rotation.
8. The intern will evaluate the internship program at the end of the program.
9. The DI Director and each intern will have an exit interview/evaluation at the end of the internship program.

**Policy for Intern Absence/Sick or Personal Leave**

Absences from assigned rotations are acceptable in cases of medical necessity or unexpected emergencies.

1. Interns are allowed a total of three sick days during the internship program.
   - More than one missed day during a rotation must be completed.
   - For rotations less than two weeks all days missed must be completed per rotation site.
   - Weekends and vacation days may be used to complete missed days.
The interns attendance log must be completed and signed per facility at each rotation facility.

2. Interns are allowed three days for the death of an immediate family member. The intern must bring documentation such as the memorial card to the internship director.

3. Interns must immediately contact their preceptor / site when calling in sick or taking personal leave (death in the family). The intern must also notify the DI Director of the absence from their rotation.

4. It is the responsibility of the intern to arrange and complete any missed days and have their attendance log completed and signed. Any missed days not completed with in six weeks of the end of the internship program means the intern did not successfully complete the Dietetic Internship Program.

5. If an intern gets injured while at an affiliating agency, he/she must report the injury to the preceptor immediately and to the Internship Director.

6. Interns participate in the internship at their own risk and are not covered by Worker’s Compensation. The intern will be referred, as needed, for medical care at the intern’s expense.

**Schedule / Time Commitment**

The MSU Dietetic Internship is designed as a 44-week (10 month) experience on a full time basis. The MSU Dietetic Internship begins at the end of August and ends in June of the following year. Three rotations comprise the bulk of the experiences, which make up this program: clinical, food service management / business and community nutrition. The designated practice hours in each facility do not include travel time, outside preparation, the orientation program, vacation time and the seminar course, which meets for a three-hour period every other week.

The intern will work the schedule which best facilitates learning which could include weekends and early or late hours. A workday is generally defined as 8 hours per day. A full time rotation/site workweek for the intern is 36 – 40 hours. Some overtime may be required for an intern to complete a work assignment per facility, but should not occur on a regular basis. Interns are not to be routinely scheduled to replace staff unless it is required to complete their competency requirements.

As a generalist internship, significant experiences in clinical, community, and food service management comprise the majority of supervised practice opportunities. Table 1 on the next page summarizes the supervised practice hours designated in each major area of the internship.

**Work Schedule / Class Schedule / Assignments**

1. The internship is a professional postbaccalaureate program with the expectation that interns assume this professional role beyond that of a university undergraduate.

2. Interns are expected to exhibit professionalism in their quality of work and timeliness in reporting to work, assignments, work ethics, and completion of tasks.
3. The interns will work a schedule which best facilitates learning. Professional performance is expected at all times including weekends, early and late hours. Interns must check with each facility to determine each weeks rotation schedule. *The intern must confirm their work schedule with the preceptor, before making weekend plans, scheduling work hours, vacations, weddings, etc.*

4. An internship workday is generally defined as 8 ½ hours. A full time workweek for the intern is approximately 40 hours per week (based on the preceptor’s schedule). *The intern is expected to work the same hours as their assigned preceptor.*

5. It is the responsibility of the intern to call each assigned rotation site the week before to confirm their time to report to work for the first day, assignments due and directions. This call must be made at the beginning of the week.

6. Interns must contact their preceptors if calling in sick or if a late arrival is anticipated.

7. It is the interns’ responsibility to learn the policies of each facility, such as dress code, length of lunch and work hours, patient confidentiality, etc.

8. Some overtime may be necessary for an intern to complete a work assignment per facility and/or the rotation. *Interns must complete many projects and assignments on their own time.*

9. For excessive overtime: If excessive overtime is frequent for the preceptor, the intern may be scheduled to work overtime for only part of that time to experience the full day of the dietitian.

10. Interns must not be scheduled routinely to replace staff, unless it is required to complete the competency requirements.

---

Vacation and Holiday Policy

1. The intern will have three weeks of vacation during the internship program to be set and arranged by the Dietetic Internship (DI) Director. The first vacation is usually between Christmas and New Year’s Day. The second vacation is in the Spring with the specific dates varying yearly.
2. When the intern is scheduled with a rotation site during a holiday, the intern will observe the holiday per facility and their assigned preceptor. If the preceptor works that holiday, the intern must work with their assigned preceptor.
3. The internship does not follow an academic year, (for scheduling, work hours, vacations and holidays), but rather a professional work schedule.
4. Vacation time may be used to complete any missed days of a rotation (per DI Director, preceptor, site and intern).

Personal Appearance Policy

1. Interns will be expected to follow the Michigan State University Dietetic Internship Program Dress Code. Interns must also check the dress code guidelines of each of their affiliate sites. Most affiliations require some type of business attire. Professional business dress is the standard. No short skirts, crop tops, open toed shoes/sandals, jeans, shorts, tattoos, nose rings or tongue studs. Socks or hose must be worn. *See Professional appearance in Intern Notebook.
2. Lab coats are required for most clinical and food service rotations. Professional whites and hairnets may be required for some food service rotations.
3. Appearance should be neat and clean. Lab coats should be pressed as needed. Hair should be neat and professional.

Telephone/Computer Use Policy

1. Telephones at the rotation sites are for business only. No personal calls are allowed without permission.
2. Any personal calls must be restricted to break time. Receiving personal calls is limited to emergencies only.
3. The interns must follow the institution’s policy regarding long distance calls.
4. Cell phones are not permitted in class or rotation sites. Cell phones are not allowed in hospitals.
5. Computers at rotation sites are for business only. No personal use of the computer is permitted. Checking email is limited to personal time – at home, before or after starting work.
Expectations for Ethical Conduct

1. Interns must comply with the Code of Ethics and Standards of Professional Conduct as defined by the American Dietetic Association in all aspects of the internship.
2. Interns must treat all people with dignity and respect and will not discriminate against any person(s) for any reason.
3. The interns will treat the preceptor’s/instructors/professional staff, etc with respect and courtesy. Disrespectful behavior is grounds for termination from the dietetic internship program.
4. No stealing, lying, cheating or illegal activities will be tolerated and are grounds for immediate termination.

Confidentiality Policy

1. Interns are required to comply with Michigan State University and all affiliation sites’ policies regarding confidentiality of information in patients’/employees’ records.
2. Interns will comply with Health Insurance Portability and Accountability Act (HIPAA) regulations at each rotation site. These regulations stipulate facility policies regarding use of patient/resident personal information.
3. It is the interns’ responsibility to learn the confidentiality policies of each rotation site.

Nondiscrimination Policy

1. Michigan State University and all affiliating agencies assure that no intern shall be excluded from participation in, be denied benefits of, or otherwise subjected to discrimination during the course of the Dietetic Internship on the grounds of race, color, national origin, age, sex, height, weight, marital status, or handicap.

Intern Grievance Procedures (See MSU Grievance Policies)

Resolution of disagreements between dietetic interns and precepting faculty are to be pursued in good faith at the highest levels of professionalism. The procedure set forth below is designed to guide this process in the most professional manner.

1. The intern will make a good faith effort to resolve the matter with the precepting faculty involved.
2. If the intern’s efforts with the precepting faculty does not resolve the concern, and if
the student wishes to pursue resolution of the disagreement further, the intern can
discuss the matter with the Dietetic Internship (DI) Director.

3. If the disagreement is not successfully mediated by interactions with the DI Director,
the intern may file a formal complaint against the DI Director. This complaint will be
presented to the Chairperson of the Department of Food Science and Human Nutrition.

4. If the intern's formal complaint is not resolved by the Chair of the Department of Food
Science and Human Nutrition, the intern may file a grievance against the DI Director with
the College of Human Ecology.

College of Human Ecology Policy

If after following the program procedures, the student is dissatisfied with the decision
made, the student may appeal the decision to the College of Human Ecology Graduate
Judiciary as follows:

All students shall have the right to due process in settling grievances that may arise.
Procedures for resolving students grievances are outlined in the University document,
Academic Freedom for Students at Michigan State University, incorporated into “Bylaws
of the College of Human Ecology” by references and in the University publication
“Graduate Student Rights and Responsibilities” found in Spartan Life (Appendix B).

Procedures for hearings of the Graduate Judiciary shall be in accordance with the
Graduate Student Rights and Responsibilities document (Appendix B). The College
Graduate Judiciary shall have original jurisdiction over all hearings of cases concerning
College matters that are brought by and against graduate students in the following
areas:

Academic rights and responsibilities
Professional rights and duties of graduate students
University regulations

The committee shall decide whether each case falls within its jurisdiction. Each case
shall be either heard by the judiciary or referred to the appropriate judicial body. This
judiciary shall also hear all cases of appeals from any departmental graduate judiciary
within the College, in accordance with the provisions of the Graduate Students Rights
and Responsibilities document. The judiciary shall notify the College Advisory Council
when it has completed its deliberations.
Disciplinary/termination procedures Disciplinary / Termination Procedures

1. If a dietetic interns’ level of performance is determined deficient during a rotation (fails a rotation) during the Dietetic Internship, a conference will be scheduled with the Internship Director as early as possible during the rotation. If the performance does not improve (fails the rotation) the intern will be terminated from the internship program.

2. Failure to maintain a 3.0 GPA in all graduate courses.

3. If the intern has received 3 written warnings “Statement of Responsibility / Concern” for any reason; such as disciplinary actions - unprofessional behavior, inappropriate dress, excessive missed days / tardiness, etc. the intern may be terminated from the program.

4. Other examples of possible causes for disciplinary actions/termination include:
   a) Being under the influence of either drugs or alcohol while on the job.
   b) Harassing, threatening, intimidating or assaulting (physically or verbally) any person while in the internship program.
   c) Theft of property from MSU or any affiliation.
   d) Failure to follow direction of an immediate supervisor/preceptor.
   e) Unexcused absences.
   f) Unexcused absences.
   g) Repeated absences or tardiness.
   h) Failure to perform assigned tasks. Not completing assignments.
   i) Misconduct, inappropriate behavior, arguing with the medical staff, supervisor, preceptors.
   j) Failure to complete graduate course work or case studies.
   k) Disrespectful behavior towards preceptors, instructors, professional staff.
   l) Stealing, lying, cheating or any other illegal activities.
   m) Not showing up for a scheduled rotation.
   n) Quitting the internship program.

5. Specific steps to ameliorate the identified problems within a designated period of time are a necessary outcome of this conference. Performance will be re-evaluated after expiration of the designated time period. Options include change of rotation sites (as available) and extending the rotation within a time limit.

6. The decision to dismiss the intern from the Internship Program lies with the Michigan State University Dietetic Internship Program Director and advisors.

Disciplinary/termination procedures for students will be in accordance with those stated in the “Graduate Students Rights and Responsibilities At Michigan State University,” (Spartan Life, Appendix B). “When determination is made that a graduate student’s progress or performance is unsatisfactory, the student shall be notified (2.4.8.1.). If a graduate student’s status in a program is in jeopardy, the graduate student shall be informed in writing, and a copy of the notice shall be placed in the student’s file” (2.4.8.2.). “All information regarding the decision is to be held in strict confidence between the student and faculty with responsibility for the student. Release of information may be only with the written consent of the graduate student involved unless the decision becomes the
substance for a grievance procedure, in which case such information shall be released to the grievance committee. The same privacy is to be accorded the reasons for a graduate student’s temporary or permanent withdrawal from the University.” (2.4.9.) “Should a decision to terminate be held in abeyance, pending completion of the stipulated conditions, these conditions must be communicated in writing to the student.” (2.4.9.)

“When sanctions other than or in addition to a penalty grade are involved, the college hearing board has original jurisdiction, and the University Graduate Judiciary has appellate jurisdiction over academic dismissals and disciplinary cases against graduate student relating to academic dishonesty, violation of professional standards, or falsification of admission or academic records” (Section 5.51 and the parallel language in 5.5.1 of Medical Students Rights and Responsibilities at Michigan State University available in the Medical School offices and The Graduate School).

Other Avenues For Consideration of Disciplinary Complaints
The contracts, policy documents, and procedures listed below provide avenues for the consideration of disciplinary complaints or actions against the various members of the Michigan State University community.

"Academic Freedom for Students at Michigan State University"
"Bylaws of the Medical Staff, Colleges of Human and Osteopathic Medicine: Michigan State University"
"Cooperative Extension Service Continuing Employment Policy and Dismissal Hearing Procedure"
"Dismissal of Tenured Faculty for Cause"
"Faculty Grievance Procedure"
"General Grievance Procedure for Non-Unionized Employees"
"Graduate Student Rights and Responsibilities"
"Librarian Personnel Handbook of Policies, Procedures, and Practices: Michigan State University"
"Medical Student Rights and Responsibilities"
Michigan State University collective bargaining agreements
Procedures of the Anti-discrimination Judicial Board
I have read and I understand the **Michigan State University Dietetic Internship Program Handbook.**

APPENDICES:
Handbook for the MSU DI Program
APPENDIX A

All University Anti-Discrimination Policy

Article I. Purpose

Michigan State University's scholarly community-building efforts occur within the context of general societal expectations, as embodied in the law. The University, consistent with its policies and governing law, promotes institutional diversity and pluralism through mechanisms such as affirmative action, within an over-arching strategy promoting equitable access to opportunity. The University's commitment to non-discrimination is the foundation for such efforts. This policy states expectations for institutional and individual conduct. It applies to all University community members, including faculty, staff, students, registered student organizations, student governing bodies, and the University's administrative units, and the University's contractors in the execution of their University contracts or engagements (See Footnote 1), with respect to the following:

1. All educational, employment, cultural, and social activities occurring on the University campus;
2. University-sponsored programs occurring off-campus, including but not limited to cooperative extension, intercollegiate athletics, lifelong education, and any regularly scheduled classes;
3. University housing; and
4. Programs and activities sponsored by student governing bodies, including their constituent groups, and by registered student organizations.

Article II. Prohibited Discrimination

Unlawful acts of discrimination or harassment are prohibited. In addition, the University community holds itself to certain standards of conduct more stringent than those mandated by law. Thus, even if not illegal, acts are prohibited under this policy if they:

1. Discriminate against any University community member(s) through inappropriate limitation (See Footnote 2) of employment opportunity (See Footnote 3), access to University residential facilities, or participation in educational, athletic, social, cultural, or other University activities on the basis of age, color, gender, disability status, height, marital status, national origin, political persuasion, race, religion, sexual orientation, veteran status, or weight (See Footnote 4) or
2. Harass any University community member(s) on the basis of age, color, gender, disability status, height, marital status, national origin, political persuasion, race, religion, sexual orientation, veteran status, or weight.

These prohibitions are not intended to abridge University community members' rights of free expression or other civil rights.

Article III. Mediation and Adjudication

Mediation of claims and disputes, through consultation provided by offices serving the University, is encouraged (See Footnote 5). Complaints under this policy may be submitted for non-disciplinary adjudication according to the provisions of the "Procedures of the Anti-Discrimination Judicial Board." Upon its review, the ADJB may recommend that appropriate disciplinary proceedings be initiated, if such has not already occurred. Disciplinary proceedings are governed by the documents listed in Appendix A. Excepting the President and the General Counsel, any University community member may be named in a complaint.

PROCEDURES OF THE ANTI-DISCRIMINATION JUDICIAL BOARD

Article I. Composition and Selection of the Anti-Discrimination Judicial Board

1. The Anti-Discrimination Judicial Board (ADJB) shall consist of at least fourteen individuals serving staggered terms, and shall include at least two minority persons (See...
Footnote 6), five women, five men, and one person with a disability. Membership shall comprise:

a. Three junior-status, undergraduate students selected by ASMSU. Each student shall serve for a term of two years.
b. One graduate student, to serve for a term of two years, selected by the Council of Graduate Students.
c. Four members selected by the University Committee on Academic Governance from the tenure system faculty and job security system specialists. Each such member shall serve for a term of three years.
d. Four individuals, to serve for terms of three years, selected by the Vice President for Finance and Operations from a slate comprised of two nominees from each recognized bargaining unit and two nominees from the non-unionized support employees.
e. Two individuals, to serve for terms of two years, appointed by the President. All selectors shall strive to ensure membership diversity, being cognizant of the factors listed in Article II of the MSU Anti-Discrimination Policy. Additional Presidential appointments shall be made if necessary in any given year to ensure the minimum diversity of membership mandated above. When and if necessary, such appointees shall serve for two years.

No member of the ADJB shall serve more than two consecutive terms. All selecting groups and University officers are expected to give due consideration to the necessity for a diverse total membership.

2. Terms on the ADJB shall begin on August 15th. Thereafter, the ADJB shall select one of its members to serve as chairperson for the entire year. Vacancies during terms shall be filled in accord with these procedures. The chairperson shall appoint members of hearing panels, as provided herein.

3. The position of "ADJB Coordinator" shall be established, reporting to the President of Michigan State University. The ADJB Coordinator shall ensure the provision of appropriate staff support services for the ADJB and generally facilitate the efficient operation of the group. In addition, at all hearings and appeals, the ADJB Coordinator shall:

- preside without vote to ensure consistency and equity in procedure;
- provide the legal advice needed by the ADJB; and
- draft majority and minority opinions for finalization and approval by the ADJB, at the request of the group's members.

Procedural rulings made by the ADJB Coordinator while presiding over hearings and appeals may be appealed in writing to the President, upon completion of the ADJB proceedings.

**Article II. Jurisdiction**

1. The ADJB shall have jurisdiction only over those complaints filed by and pertaining to members of the University community which allege discrimination as defined in the All-University Policy entitled "MSU Anti-Discrimination Policy."

2. A complaint filed with the ADJB must be filed within thirty (30) calendar days of the alleged discrimination. Either the ADJB Coordinator or the full ADJB by majority vote
may waive the 30-day time limit for good cause shown. A complaint must simply, concisely and directly specify the time, place, and nature of the alleged discrimination, as well as the individual(s), group, or entity alleged to be responsible for the discrimination. The complaint must also contain a short and plain statement of the remedy sought.

3. The ADJB shall not proceed to consider any claim: (a) for which another procedure for final and binding adjudication is provided within the University by contract, unless both contracting parties agree to submit the matter to this ADJB or (b) which, based on the same set of facts, has been submitted for adjudication under the rules of another University procedure. However, when a complaint has been adjudicated under another University procedure, the ADJB may review such findings upon the written request of the complainant, to assure itself that any non-disciplinary matters relating to prohibited discrimination were satisfactorily addressed. If, in its judgment, such non-disciplinary matters were not adequately addressed, it may accept the complaint for further consideration on the basis of the non-disciplinary charges of discrimination only.

4. The ADJB shall have no jurisdiction respecting disciplinary charges against individuals, and no disciplinary sanctions shall be imposed through the procedures set forth herein. Alternative disciplinary channels exist for the consideration of such charges against any member of the University community. (See Appendix A.) On the basis of its non-disciplinary proceedings, the ADJB may recommend that separate, de novo disciplinary proceedings be initiated by relevant administrators for alleged violations of the "MSU Anti-Discrimination Policy" when such actions were known, or reasonably should have been known, to be prohibited by that policy.

5. The ADJB shall address all jurisdictional questions by a majority vote of the full Board. Immediate presidential review of jurisdictional decisions may be requested under Article IV by either party to a dispute.
Article III. Procedures

1. Initial Filing of a Complaint

a. When an individual files a complaint with the ADJB, the ADJB Coordinator shall refer the matter in writing to the chairperson of the ADJB, who shall appoint five voting members of a Hearing Panel to be convened and presided over by the ADJB Coordinator. The ADJB Coordinator shall provide a copy of the complaint to the party or parties against whom it is made.

b. A contested matter shall be heard without undue delay. The hearing and its record shall be closed unless both parties consent to an open hearing. The ADJB Coordinator shall give the parties reasonable notice of the hearing, which notice shall include:
   1) A statement of the date, hour, place and nature of the hearing; (a hearing shall not be continued or adjourned except for good cause and in the discretion of the ADJB Coordinator);
   2) A copy of this policy and the general rules of conduct for hearings.

c. The complainant is required to establish the basis for and produce evidence in support of the complaint. Complainants assume the burden of proof, which must be met by a preponderance of the evidence (See Footnote 7).

d. After the complainant presents his/her case, the respondent shall present his/her case. Respondent may elect to forego answering a complaint.

e. Parties may be accompanied by an advisor of their choice, who may provide private counsel to the party during a hearing but shall have no official voice in the proceeding. Advisors must be members of the faculty, staff, or student body of the University. Each party shall be responsible for the presentation of his/her own case. Each party shall have the opportunity to present witnesses, and to question witnesses presented by the other.

f. The Hearing Panel shall render a decision in writing, without undue delay, and the ADJB Coordinator shall transmit copies of it promptly to the ADJB chairperson and the parties. The Panel's decision shall address all major questions raised. The recommended relief, if any, shall be tailored to remedy charges, which have been substantiated. The decision shall state the name(s) of the prevailing party/ies and the party/ies against whom any complaints have been substantiated. The Panel shall carefully and clearly state its factual findings and the reasoning supporting its decision.

2. Appellate Procedures

a. A party may appeal the decision of the Hearing Panel to the full ADJB by filing a written request with a short, written statement in support of the party's position on appeal with the ADJB Coordinator. The appeal shall be filed within 14 calendar days of receipt of the Panel's decision, and a copy shall be provided to the opposing party. The opposing party shall have 14 calendar days from receipt of the request in which to submit a written statement in support of its position on appeal.

b. Appeals shall be based on the record established at the initial hearing and shall be limited to the following two issues:
   1) whether the evidence previously presented provides a reasonable basis for the resulting findings and recommended remedies (if any), and
   2) whether specified procedural errors were so substantial as to effectively deny the appealing party fundamental fairness.

c. The ADJB chairperson shall provide written notice to both parties of the scheduled hearing date.

d. With the exception of the ADJB Coordinator, members of the initial Hearing Panel shall not participate in the appellate hearing or deliberations. An appellate quorum shall be necessary to hear any appeal and shall consist of a majority of those ADJB members who did not serve on the original hearing Panel.

e. Parties may be accompanied by an advisor of their choice, who may provide private counsel to the party during an appeal but shall have no voice in the proceeding. Advisors must be members of the faculty, staff, or student body of the University. Each party shall be responsible for the presentation of his/her own appeal.
f. The ADJB shall give each party the opportunity to present an oral argument, based on the record established at the initial hearing, in support of his/her position on appeal.
g. The hearing shall be closed unless both parties consent to an open hearing.
h. The ADJB's review on appeal shall be limited to the record established at the initial hearing, the Hearing Panel's decision, the written statements submitted by the parties, and the parties' oral arguments. Findings of fact by the Hearing Panel may not be overturned unless clearly erroneous.
i. The ADJB shall render a decision without undue delay. The ADJB may affirm or reverse the Hearing Panel's decision in whole or in part and/or remand it to the original Hearing Panel for reconsideration. Recommended relief, if any, shall be tailored to remedy those charges, which have been substantiated.

**Article IV. Final Resolution**

1. Decisions issued by the ADJB (including those of jurisdiction) and unappealed decisions of its Hearing Panels shall be forwarded to the President by the ADJB Coordinator in the form of a recommendation, without undue delay.

2. Within 30 calendar days, the President shall either concur with the decision and direct appropriate action to implement it, or for stated cause, shall overrule or modify the decision. When the President overrules or modifies a decision, he/she shall provide written reasons to the ADJB and to the parties.

**Article V. The ADJB's Advisory Function**

The ADJB shall meet with the ADJB Coordinator regularly (at least once annually and no more than monthly at the discretion of the Board) to review and consider any policies or practices brought to its attention, which may have contributed to allegations of unlawful discrimination or harassment. The ADJB may meet with University administrators to obtain information regarding relevant policies and practices. Upon discussion and review, the ADJB may make such advisory operational recommendations to the President, as it deems appropriate.

**Article VI. Other Provisions**

1. **Time Limits**

   With the exception of the thirty-day filing deadline in Section II of Article II, all time limits set forth above shall be suspended during regularly scheduled vacations or semester breaks in the University's academic year. Summer semesters shall similarly be excluded from consideration when calculating time limits applicable to complaints brought by students not then enrolled.

2. **Regular Reports**

   The ADJB Coordinator shall make annual reports to the President, who shall share them with the Board of Trustees and University community.

3. **Assistance with Complaints**

   Individuals considering filing complaints with ADJB may obtain advice and procedural assistance through the ADJB coordinator and, as appropriate, the bodies listed in footnote #5 of Article III of the MSU Anti-Discrimination Policy.

--Approved by the Board of Trustees

April 9, 1993
(1) This policy does not apply to the conduct of a contractor’s internal affairs, nor does it apply to the conduct of contractual engagements to which the University is not a party.

(2) Limitations are inappropriate if they are not directly related to a legitimate University purpose.

(3) For purposes of this policy, "employment opportunity" is defined as job access and placement, retention, promotion, professional development, and salary.

(4) University ordinances, written regulations and policies, and published ADJB decisions approved by the President, provide guidance on the discriminatory acts prohibited by Section 1 and the harassing acts prohibited by Section 2.

(5) Consultation with one or more of the following may be useful:

the chairperson, director, or dean of the relevant unit,

?? supervisory support personnel,

?? the Women's Resource Center,

?? the Ombudsman,

?? the Office of Minority Student Affairs,

?? Student Life or Residence Halls staff,

?? Sexual Assault Crisis & Safety Education,

?? faculty or staff academic advisors,

?? the MSU Counseling Center, and

?? the Faculty Grievance Official.

(6) "Minority" is defined by the Federal Inter-Agency Committee on Education as one who is a member of one of the following groups: a. American Indian or Alaskan Native; b. Asian or Pacific Islander; c. Black (African-American); and d. Hispanic.

(7) I.e., that which is more convincing, more credible, and of greater weight than contrary evidence.
APPENDIX B

Statement of Equal Opportunity

The “Graduate Student Rights and Responsibilities at Michigan State University” found in Spartan Life publication, states the University policy of Equal Opportunity that applies to the MSU Dietetic Internship Program. “In all areas of graduate education pertaining to academic rights and responsibilities, there shall be no discrimination on the basis of race, color, creed, gender, national origin, political persuasion, sexual preference, marital status, handicap, or age.” (2.3.2)

APPENDIX C

Right to Privacy/Access to Personal Files

The student’s right to privacy shall be supported as presented in Article 3 of The “Graduate Student Rights and Responsibilities at Michigan State University” found in Spartan Life (Appendix B). This document states, “all policies and practices concerning records shall be based on respect for the privacy of the individual graduate student.” The University must keep records but “because of the professional and legal responsibilities involved, record keeping must be delegated only to responsible persons (3.1).

“All policies and practices governing access, maintenance, and release of graduate student records shall conform to the University’s published guidelines.” (3.2)

3.2.1 No record shall be made, duplicated or retained unless there is a demonstrable need for it, which is reasonably related to the basic purposes and necessities of the University.

3.2.2 The University shall not make, duplicate, or retain records of a graduate student's religious or political beliefs without the graduate student's knowledge and consent.

3.2.3 A graduate student shall have the right to inspect the official transcript of his or her own academic record and shall also have the right to inspect reports and evaluations of his or her conduct.

3.2.4 All policies and practices dealing with the acquisition of information for records shall be formulated with due regard for the graduate student's right of privacy.

3.2.5 Every record containing information about a graduate student's character shall state when the information was acquired and the name and position of the person who gave it.

3.2.6 All persons who handle confidential records shall be instructed concerning the confidential nature of such information and their responsibilities regarding it.

3.2.7 No one outside the faculty or administrative staff of Michigan State University, except as specified by law, may have access to the record of a graduate student’s offenses against University regulations without the written permission of the student.
3.2.8 All policies governing the maintenance and the selective release of records and of portions of records shall be made public in an appropriate manner and shall be subject to judicial review as provided in Article 5.
APPENDIX D

Michigan State University Services Available to Dietetic Interns

All services available to Michigan State University graduate students will be available for the dietetic interns. These services are listed in Spartan Life (Appendix B) and include the following:

Access to the Internet: Email and Web Sites

All dietetic interns are provided an MSU Email address and should access their email regularly. Information from the DI Director, other interns, professional meetings, other preceptor sites, is provided via the Internet. Computers with Internet access are available at the major internship sites (e.g., St. Mary's Hospital, Mercy General Health Partners, Sparrow Hospital, Ingham Regional Medical Center). MSU's Computer Information Help Center provides copies of instructions on how set personal computers in order to receive free internet access from off-campus in room 302 Computer Center Building. Computer consultants can be reached at 517-432-6300.

Health Services

Olin Health Center, 355-4510
MSU Health Team, 353-3000

Health Education Office Third Floor, Olin, 353-0718
Phone Information Nurse 353-5557 (Olin Health Center)

Olin Health Center

Olin Health Center provides medical, dental, and optometric care for students and their spouses during their enrollment at Michigan State University. The Health Center offers preventive medical care, treatment for illness or injury, and health education - all on an outpatient basis. Their goal is to support the mission of the University and the success of its students by enhancing personal health, removing barriers to academic achievement, and promoting a healthy learning environment.

Healthy U

Healthy U’s mission is to create an environment at Michigan State University that supports health. Healthy U aims to enhance and expand wellness efforts in partnership with units throughout the University and the community. A wide variety of services are provided and promoted to support individuals in achieving a healthier, happier, longer life. Healthy U’s ultimate goal is the good health of all members of the MSU community.

**Woman's Resource Center**

The Women's Resource Center at Michigan State University is committed to creating and implementing strategies that promote the status of women. The mission is to provide a supportive climate that enables women to become full and active participants in the development of policy, decision making, and the achievement of equity. The Women's Resource Center acts in a coordinating role for contacts relating to concerns of women and functions in an advocate role for women's issues while developing and implementing programs targeted for women faculty, staff, and students.

Central to the success of the center is its ability to engage all university women in programs and activities that stimulate and empower participation within the university and the community by fully utilizing skills and abilities and fulfilling aspirations.

One goal of the Michigan State University Women's Resource Center is to assist the university in achieving diversity by valuing contributions of all who engage in the institutional land-grant mission of teaching, research, and outreach. The center regards itself as an important advocate for the advancement of affirmative action, equal opportunity, and nondiscrimination. Reporting jointly to the Provost, the Vice President for Finance and Operations and Treasurer, and the Vice President for Student Affairs and Services, the Women's Resource Center is active in community, state, and national coalitions dealing with women's issues.

**Office of the Ombudsman**

Michigan State University has the Office of the Ombudsman open to students who have a problem or concern with any part of the University and don't know where to turn for help. The student will get an independent point of view in an informal and confidential way. The office is open 8 a.m. to noon and 1 to 5 p.m. Monday through Friday throughout the year and is committed to accommodating all students.
Dietetics-Related Organizations

The American Dietetic Association (ADA)

The American Dietetic association is the nation’s largest professional organization for dietitians. As a dietetic intern enrolled in a CADE-accredited internship program but not yet eligible for active membership, you have the opportunity to become an associate member of the organization. Benefits of membership include:

- The Journal of the American Dietetic Association
- ADA Courier - a monthly newsletter regarding professional activities
- Continuing education programs and materials
- Professional publications
- Member discounts on publications and merchandise
- Annual Meeting registration at a reduced rate
- Access to Dietetic Practice Group
- Membership in the Michigan Dietetic Association
- Job announcements

Annual membership fee is $43 as of Fall, 2003. The Dietetic Internship Director can provide membership forms for interns.

The Michigan Dietetic Association

The Michigan Dietetic Association is Michigan's professional organization for dietitians. Students who are ADA Associate Members are automatically members of the State Association. Some of the advantages include:

- Newsletters and publications
- Annual Meeting, which students find educational and enjoyable
- Dietetic practice groups for practitioners and educators
- Networking and more...

Lansing Dietetic Association

The local Lansing Dietetic Association can provide students a good opportunity to attend professional meetings, interact with local dietitians, and develop professionally and personally. LDA members may know of job opportunities for students.

Kappa Omicron Nu (KON) Honorary Society

KON, the National Home Economics Honor Society is open to upperclassmen undergraduates and graduate level students who maintain a high GPA. More information about KON can be provided by the Dietetic Internship Director.
Food & Nutrition Association (FNA)

The FNA is an organization for and led by students enrolled in Dietetics or Nutritional Sciences. There is a nominal membership fee for FNA that varies from year to year. Many interesting topics related to nutrition, foods, and dietetics are discussed at meetings. Some past topics have included behavior and food habits, HIV and nutrition, eating disorders, resume writing, etc. Presentations given by area professionals introduce students to varied career opportunities in dietetics. Other events the FNA participates in are the Lansing Dietetic Food-n-Fitness Fun Run, potluck dinners, a community service project and Human Ecology Week.
Appendix F

Core Competencies for Dietitians (CD)

CD1. Perform ethically in accordance with the values of The American Dietetic Association

CD2. Refer clients/patients to other dietetics professionals or disciplines when a situation is beyond one's level or area of competence (perform)

CD3. Participate in professional activities

CD4. Perform self-assessment and participate in professional development

CD5. Participate in legislative and public policy processes as they affect food, food security, and nutrition

CD6. Use current technologies for information and communication activities (perform)

CD7. Supervise documentation of nutrition assessment and interventions

CD8. Provide dietetics education in supervised practice settings (perform)

CD9. Supervise counseling, education, and/or other interventions in health promotion/disease prevention for patient/clients needing medical nutrition therapy for common conditions, e.g. hypertension, obesity, diabetes, and diverticular disease.

CD10. Supervise education and training for target groups

CD11. Develop and review educational materials for target populations (perform)

CD12. Participate in the use of mass media for community-based food and nutrition programs

CD13. Interpret and incorporate new scientific knowledge into practice (perform)

CD14. Supervise quality improvement, including systems and customer satisfaction, for dietetics service and/or practice

CD15. Develop and measure outcomes for food and nutrition services and practice (perform)

CD16. Participate in organizational change and planning and goal-setting processes

CD17. Participate in business or operating plan development

CD18. Supervise the collection and processing of financial data

CD19. Perform marketing functions

CD20. Participate in human resources functions

CD21. Participate in facility management, including equipment selection and design/redesign of work units.

CD22. Supervise the integration of financial, human, physical, and material resources and services.
CD23. Supervise production of food that meets nutrition guidelines, cost parameters, and consumer acceptance

CD24. Supervise development and/or modification of recipes/formulas

CD25. Supervise translation of nutrition into foods/menus for target populations

CD26. Supervise design of menus as indicated by the patient's/client's health status

CD27. Participate in applied sensory evaluation of food and nutrition products

CD28. Supervise procurement, distribution, and service within delivery systems

CD29. Manage safety and sanitation issues related to food and nutrition

CD30. Supervise nutrition screening of individual patients/clients

CD31. Supervise nutrition assessment of individual patients/clients with common medical conditions, e.g., hypertension, obesity, diabetes, diverticular disease

CD32. Assess nutritional status of individual patients/clients with complex medical conditions, i.e., more complicated health conditions in select populations, e.g., renal disease, multi-system organ failure, trauma

CD33. Manage the normal nutrition needs of individuals across the lifespan, i.e., infants through geriatrics and a diversity of people, cultures, and religions.

CD34. Design and implement nutrition care plans as indicated by the patient's/client's health status (perform)

CD35. Manage monitoring of patients'/clients' food and/or nutrient intake

CD36. Select, implement, and evaluate standard enteral and parenteral nutrition regimens, i.e., in a medically stable patient to meet nutritional requirements where recommendations/adjustments involve primarily macronutrients (perform)

CD37. Develop and implement transitional feeding plans, i.e., conversion from one form of nutrition to tube feeding to oral diet (perform)

CD38. Coordinate and modify nutrition care activities among caregivers (perform)

CD39. Conduct nutrition care component of interdisciplinary team conferences to discuss patient/client treatment and discharge planning.

CD40. Refer patients/clients to appropriate community services for general health and nutrition needs and to other primary care providers as appropriate (perform)

CD41. Conduct general health assessment, e.g., blood pressure, vital signs (perform)

CD42. Supervise screening of the nutritional status of the population and/or community groups

CD43. Conduct assessment of the nutritional status of the population and/or community groups

CD44. Provide nutrition care for population groups across the lifespan, i.e., infants through geriatrics, and a diversity of people, cultures, and religions (perform)
CD45. Conduct community-based health promotion/disease prevention programs

CD46. Participate in community-based food and nutrition program development and evaluation

CD47. Supervise community-based food and nutrition programs
Nutrition Therapy Emphasis Competencies (NT)

NT1. Supervise nutrition assessment of individual patients/clients with complex medical conditions, i.e., more complicated health conditions in select populations, e.g. renal disease, multi-system organ failure, trauma

NT2. Integrate pathophysiology into medical nutrition therapy recommendations (perform)

NT3. Supervise design through evaluation of nutrition care plan for patients/clients with complex medical conditions, i.e., more complicated health conditions in select populations, e.g. renal disease, multi-system organ failure, trauma

NT4. Select, monitor, and evaluate complex enteral and parenteral nutrition regimens, i.e. more complicated health conditions in select populations, e.g. renal disease, multi-system organ failure, trauma

NT5. Supervise development and implementation of transition feeding plans from the inpatient to home setting

NT6. Conduct counseling and education for patients/clients with complex needs, i.e. more complicated health conditions in select populations, e.g. renal disease, multi-system organ failure, trauma

NT7. Perform basic physical assessment

NT8. Participate in nasoenteric feeding tube placement and care

NT9. Participate in waivered point-of-care testing, such as blood glucose monitoring

NT10. Participate in the care of patients/clients requiring adaptive feeding devices

NT11. Manage clinical nutrition services

Community Emphasis Competencies (CO)

CO1. Manage nutrition care for population groups across the lifespan.

CO2. Conduct community-based food and nutrition program outcome assessment/evaluation

CO3. Develop community-based food and nutrition program (perform)

CO4. Participate in nutrition surveillance and monitoring of communities

CO5. Participate in community-based research

CO6. Participate in food and nutrition policy development and evaluation based on community needs and resources.

CO7. Consult with organizations regarding food access for target populations

CO8. Develop a health promotion/disease prevention intervention project (perform)

CO9. Participate in waivered point-of-care testing, such as hematocrit and cholesterol levels
Foodservice Systems Management Emphasis Competencies (FS)

FS1. Manage development and/or modification of recipes/formulas
FS2. Manage menu development for target populations
FS3. Manage applied sensory evaluation of food and nutrition products
FS4. Manage production of food that meets nutrition guidelines, cost parameters, and consumer acceptance
FS5. Manage procurement, distribution, and service within delivery systems
FS6. Manage the integration of financial, human, physical, and material resources
FS7. Manage safety and sanitation issues related to food and nutrition
FS8. Supervise customer satisfaction systems for dietetics services and/or practice
FS9. Supervise marketing functions
FS10. Supervise human resource functions
FS11. Perform operations analysis
Business/Entrepreneur Emphasis Competencies (BE)

BE1. Perform organizational and strategic planning

BE2. Develop business or operating plan (perform)

BE3. Supervise procurement of resources

BE4. Manage the integration of financial, human, physical, and material resources

BE5. Supervise organizational change process

BE6. Supervise coordination of services

BE7. Supervise marketing functions
