Doris Weters Fellowship Fund

Supporting families through Michigan State University Extension Family and Consumer Sciences
Family and Consumer Sciences

The Doris Wetters Fellowship provides funding for professional development to support the mission of Extension Family and Consumer Sciences (FCS).

The training and unique experiences provided by the fellowship ensure the growth of leadership and creativity among FCS professionals. The skills learned are brought back and shared with colleagues and, most importantly, the Michigan residents served.

By investing in Extension staff you improve the access of Michigan’s families to useful information in family and consumer sciences.
