

Why Study **PLANNING?**

From our **establishment in 1946** we have **graduated and placed more than 1,000 planners** across the **country** and the **globe**.

“Our international partnerships in Europe, Asia and Cuba provide students an opportunity to plan locally and develop skills to lead globally. We feature a pragmatic focus on improving our communities, state, country and world by placing well-rounded, professional and compassionate students in local communities to combat the greatest urban challenges of our time.”

Dr. Zenia Kotval, AICP, Professor and Program Leader for the MSU Urban and Regional Planning Program

“Planning is an exciting, ever-changing field that allows us to create great places to live!”

Gristina Benton '07

“Planning provides the vision, foresight, and opportunity for collaboration to make a difference in every community across the nation. A student with a degree in planning has the ability to make a positive impact in his/her community and State.”

Dennis C. Dunnigan '74

“It's great to be involved in decisions that will affect the future of your community and how it looks, feels, and operates.”

Brian McGrain '98

INTER-DISCIPLINARY STUDY of land use law, economic development, environmental protection, housing, community engagement and equity, transportation systems, and urban policy and governance.
