Excellent opportunity for a Project Engineer in VA!

The L.E. Myers Co., a subsidiary of MYR Group Inc., one of the oldest and largest electrical contractors in the country, has an upcoming opportunity for a Project Engineer to work in Richmond, VA. Position will support electrical transmission line, distribution line and substation construction, some travel may be required.

**Duties:**
Project Engineer duties include, but are not limited to, the support of functions related to construction and project management in the electrical construction industry. Projects may include performance of work for federal and state clients. Candidate must be able to successfully assist with preparation of plans and applicable specifications and must be able to interface with, and provide general project support to, senior project professionals.

- Monitor progress of work in the field and prepare weekly progress reports
- Assist with preparing monthly billing documentation and financial projections
- Assist with preparing statements of work, submittals, change management and necessary daily and weekly reporting
- Construction monitoring tasks including interpretation of applicable construction drawings
- Assist with the review of plans and specifications and prepare a checklist of contract features which require periodic attention and list items the sub-contractor must submit for approval prior to the start of the work
- Assist with cost estimates as needed
- Ensure maintenance of accurate project records
- Promote safety in construction operations and ensure compliance with safety requirements
- Inspect equipment, material, workmanship, and finished construction
- Observe work in progress to ensure that procedures are followed and materials used conform to specifications
- Ability to travel as needed

**Qualifications:**

- 1 year or more of experience in the construction process of commercial electrical operations or transmission/distribution operations is preferred, but not mandatory
- 1 or more years of general construction experience is preferred, but not mandatory
- Practical construction management experience
- Bachelor of Science is required, preferably in Construction Management. Recent graduates encouraged to apply.
- Strong written and oral communication skills
- Detail-oriented
- Ability to think practically in order to solve office and job-site problems and interface effectively with senior project personnel
- Strong knowledge and efficiency working with MS Word, Excel, scheduling and or estimating software
Excellent benefits including:

- Paid vacation
- Paid holidays
- Medical
- Dental
- Vision
- Life insurance
- 401k

Salary is commensurate with experience.
