### Employer Profile

#### DESCRIPTION

Nucor Building Systems, NBS, has an opportunity for a Project Estimator to join our Waterloo, Indiana division. We are seeking a talented individual to assist the Nuco

r Sales Team and our Builders, by accurately and efficiently estimating building system prices based on our quote proposal documents, company policies, and standards. Evaluate and maintain material costs, erection concerns, and fabrication procedures as they relate to the total in-place cost of the structure.

Estimator basic functions include, but are not limited to:

- Provide coordination on daily quote activities by reviewing and recommending economical solutions to various sales requests.
- Manage the schedule demands as set forth by the customers, sales team, and other members of the estimating department to ensure all deadlines are met.
- Supply accurate, concise, and well qualified proposals while utilizing an effective application of custom developed estimating software.
- Provide back-up support for the sales team by handling Requests For Quotations (RFQs) which may include estimating a project from a set of architectural plans and specifications, from a sketch, or simply from a phone call.
- Lead coordination between NBS and the Builders to ensure project “intent” has been met.

Nucor Building Systems, a division of Nucor Corporation, has been a leader in the design and manufacture of custom-engineered metal building systems for more than two and a half decades. With four full-service plants strategically located throughout the country, Nucor Building Systems offers a wide array of custom building solutions that are sophisticated, energy efficient, and environmentally friendly. With a national network of more than 1,030 Authorized Builders, Nucor Building Systems provides exceptional buildings for projects ranging from industrial and commercial structures to custom projects for the agricultural, community, and retail industries.

Nucor Building System’s structure provides the resources, stability and project opportunities of a large company with the sensitivity and friendly atmosphere of a small company culture. When you join the Nucor family, there are no limitations on your future. Many of our teammates have started out in Estimating, and after gaining experience, found it to be a launching platform leading to advanced opportunities within Nucor.
