CMP 436 Subcontractor, Trade Contractor, or Material Supplier Capstone Checklist

Students wishing to substitute this internship for the capstone course program requirement are required to gain experiences similar to those included in the capstone course. Based on the nature of the student's company, students must fill out either the residential, commercial, or subcontractor/supplier capstone course checklist prior to the onsite visit by the internship coordinator. If you are working for a subcontractor, then the commercial capstone list probably will fit your needs best.

During the site visit, the intern and internship coordinator will discuss the student's progress toward these activities. Based on the student's job assignments, it is likely that the intern's day to day activities may not match the list. In those instances, it is expected that the intern will gain exposure to these activities outside of their normal job duties. Examples could be interviewing individuals within the firm or in other departments, visiting planning commission meetings or sales open houses.

Business Organizational Phase

	Understand company core business functions (subcontractor, trade contractor, or supplier).
	Review and understand company vision and mission statements.
	Review and understand company organizational structure-understand departmental structure.
	And role of key department personnel.
	Describe company facilities and equipment (i.e., warehouse, offices, and cranes).
	Company procedures and documents.
	Review and understand employee handbook/procedures manual.
	Review and understand standard correspondence formats.
	Review and understand company evaluation and promotion procedures and policies
	How is coordination between departments achieved?
	Review a Contractor's Qualification Statement.
	Is your company bonded? For how much?
	Does your company have a Certificate of Awardability? Have you reviewed it?
	Describe company computerization and information systems used.
	Is your company ISO certified? How does it impact your company?
	Does your company have marketing materials? Have you reviewed them?
Marke	eting of Services
	How does your company obtain work?
	Review a company marketing proposal.
	Review a company typical GC/Subcontractor agreement/contract.

Review a company quantity takeoff and estimate. Describe the typical procedures used. Interview the estimator. How are general conditions items included? How are profit and overhead determined? Are there any contingencies? Explain. Project Contract Requirements Review project contract documents. Review a trade or subcontract work scope. Review a subcontractor proposal form. Project Bidding Who do you bid to (i.e. GC, CM, owner, higher tier subcontractor, trade contractor, or supplier?) Review bid processes and bid packages if you are a subcontractor, trade contractor, or supplier. Review bid proposal. Review an addendum issued during the bidding period how is it processed in your company? Review a subcontractor quotation. Describe it. Have you attended a bid opening? Describe it. Final project estimate/budget Have you reviewed project budget? Is there a partnering agreement? Have you reviewed it? Review the Certificates of Insurance. Have you reviewed the project comprehensive schedule? Is there a valetly assurance plan? Have you reviewed it? Is there a sife logistics and mobilization plan? Have you reviewed it? Review a schedule of values. Have you attended a project meeting and familiarized yourself with the agenda and coordination? Who is responsible for maintaining the minutes? How are they distributed? Construction Phase and Reporting Review a daily construction log. Review a daily construction diary if maintained. Review and process RFI's. Review and process RFI's.	Estima	ating Services
