

Comprehensive Onsite Wastewater Management Education

March 12-13, 2015

MSU Extension is offering two trainings for professionals who design, install and maintain septic systems and business owners and municipal people who use these systems.

- Key Ingredients of a Good Onsite Treatment System (day 1)
- Onsite Wastewater Treatment Design & Management (day 2)

LOCATIONS

Grand Rapids will serve as the host site for these trainings. In addition, trainings will be provided to the locations below through a satellite broadcast. Each satellite location will have a local host to help ensure that questions are answered and that participants can be involved in all class discussions. The satellite discussions include visual and audio interaction with the speakers.

- Kent County Health Department, Grand Rapids, MI
- MSU Tollgate Education and Conference Center, Novi, MI
- University Center, Gaylord, MI
- MSU Campus, East Lansing, MI
- Upper Peninsula Research and Extension Center, Chatham, MI

Sessions will begin with registration at 8:30 a.m. and end with a wrap-up at 5 p.m.

REGISTRATION FEES AND DISCOUNTS

The cost to attend a single class is \$100 or both days for \$180. If more than one person from the same company/agency is registering, deduct \$10 per person.

CSE & CEC CREDITS: APPROVED

These courses offer the following **CSE Credits**:

Key Ingredients of a Good Onsite Treatment System - 7 Contact Hours

Onsite Wastewater Treatment Design & Management - 7 Contact Hours
