

## CANR enrollment up for fifth straight year

This year marks the fifth straight year that CANR's undergraduate enrollment has increased. Majors such as Animal Science, Agribusiness Management and Horticulture saw some of the biggest increases in numbers of students. Over the past 50 years, enrollment has fluctuated some, this year we are at another 40-year high in enrollment.

## Who are we attracting?

As in years' past, the CANR is pretty evenly divided among males and females.

## Our students set us apart ...

We're a little different than most colleges at MSU, we serve three distinct populations of students:
