### New Training Required for 4-H Leaders and Volunteers

Since 2013, Michigan State University (MSU) has required all MSU employees and volunteers conducting business on behalf of the university to report child abuse and other harm to children. To help MSU Extension volunteers better understand the reporting expectations, a new online learning module titled “Child Abuse Reporting Protocol” has been developed. The module can be completed in 10-15 minutes. All 4-H volunteers are required to complete this training in the upcoming year.

To review the training, 4-H volunteers may either:

- Log into Volunteer Central and complete the module through the system.
- Within Volunteer Central, the module will be visible on either the screening dashboard (applicants) or the annual compliance dashboard (volunteers).
- Once completed, Volunteer Central will log this as “completed”.

Leaders only are required to take training one time.

## Bird Biosecurity Reminders

With cases of highly pathogenic avian influenza on the rise, owners of poultry projects and other birds are encouraged to implement preventative measures. This includes keeping animals contained at their own facilities, as well as:

- Preventing contact between domestic and wild birds by bringing them indoors or ensuring their area is enclosed.
- Washing hands before and after handling birds and when moving between different coops.
- Disinfecting boots and other gear when moving between coops.
- Not sharing equipment or other supplies between coops or other farms.
- Cleaning and disinfecting equipment and other supplies between uses.
- Using well or municipal water as drinking water for birds.
- Ensuring there is no contact between poultry feed/feed ingredients and wild birds or rodents.
- Wearing clean clothing and footwear that has not been worn in a home coop into public venues.

If you suspect a bird in your flock may be sick with avian influenza, contact MDARD immediately at 800-292-3939 (daytime) or 517-373-0440 (after-hours). Signs of HPAI include unusual deaths, drop in egg production and significant decrease in water consumption.

## Share your 4-H story!

Across the state, Michigan 4-H is growing true leaders for today and tomorrow. From Marquette to Monroe, these young people are impacting their clubs, communities, country and world.

To help share this impact with others, we're looking for youth to share their own testimonials of how 4-H has influenced their own personal growth and development.

Submissions will be posted on the [Meet Michigan 4-H'ers](#) section of the MSU Extension website and promoted digitally in newsletters and social media.
