

# GRAIN BIN & MANURE PIT SAFETY PROGRAMS

WORKING AROUND GRAIN BINS AND MANURE PITS CAN RESULT IN BOTH FATAL AND NONFATAL INJURIES.

Join one of these trainings to learn how you, your family, and your employees can stay safe — and keep each other safe — in these dangerous environments.

PROGRAM BY NATIONAL EDUCATION CENTER FOR AGRICULTURAL SAFETY

Farmers are at a very high risk for both fatal and nonfatal injuries, and farming is one of the few industries in which family members, who often share the work and live on the premises, are also at risk. *Be prepared.*
