To implement PHONE TREE and activate building emergency plan, call Carol Fosburg at (4-7339).

The first coordinator for each floor will then be contacted with the information.

Each of those coordinators will need to contact the next coordinator on the list for your floor, and so on.

Contact the backup coordinator only if the main coordinator is not reached.

Keep calling down the floor list until you have actually spoken with a person.

Consider the Annex as part of each respective floor grouping.
