

YEAR ONE PROJECT REVIEW RECEPTION

We've Heard you!!! Did we get it right?

LEVERAGE POINTS FLINT

What do you like about the Flint food system, and how can it be improved? The Flint Leverage Points Project (FLPP) is a four-year research partnership between the Community Foundation of Greater Flint (CFGF) and Michigan State University (MSU). We are studying the Flint food system—everything from production, distribution, access, consumption, and waste of food. This research will be used to identify leverage points for positive change. We've just finished our first year, and we want to share what we're learning and hear from you on how to improve! Please join us for a meal and to discuss what we're learning about food in Flint.

Share your stories and connect with us on Facebook and with *#FlintLeveragePoints*

#FlintFoodSystems
