## Acknowledgements

The authors wish to acknowledge and express appreciation to all the stakeholders and employers who contributed their time and knowledge to this research.

The authors thank Andrea Weiss of MSU Center for Regional Food Systems (CRFS) for guidance and formatting, Lindsay Mensch of CRFS for proofing and web publishing, Rachel Kelly of CRFS for editing, and Charli Holloway of Charli ReNae Design for the design of the career pathway maps.

This work was made possible through funding from the W.K. Kellogg Foundation and MSU Extension.

## Racial equity statement of MSU Center for Regional Food Systems

CRFS recognizes that racism in the food system is historic, ongoing, and systemic. As we collaborate with partners to advance food systems rooted in local regions and centered on food that is healthy, green, fair, and affordable, we emphasize racial equity as a foundation of our work. Read the full statement at:

[foodsystems.msu.edu/racial-equity-statement](https://foodsystems.msu.edu/racial-equity-statement)

# Introduction to Career Pathway Development

In partnership with Michigan State University Center for Regional Food Systems and as a continuation of the [2019 Michigan Local and Regional Food System Workforce Assessment](#), Corporation for a Skilled Workforce (CSW) created a framework to guide the development of career pathway maps that provide jobseekers and workers with necessary information about career options and the potential for advancement within and across different subsectors of the Michigan food system. These were also developed in response to interest from Michigan workforce development agencies that will be able to use this information to help support relevant program development.

Funding for this work was provided in part by the W.K. Kellogg Foundation and MSU Extension.

Pathway maps were developed for the following food system subsectors that exist within local and regional food systems:

- Food inputs and services
- Food processing and manufacturing
- Food production
- Food retail
- Food preparation and service
- Wholesale food distribution or storage

To develop the pathways included in this report, CSW conducted labor market information data collection in addition to research on types of occupations typically included in local food system organizations and businesses. From there, CSW developed draft pathway maps, which were then validated with Michigan employers in the specific subsector. For more information about the data included in the pathways, please see the Pathway Map Key (p. 19) as well as the methodology starting on page 5.

This information includes the typical wages and requirements for specific job titles and might not exactly match the positions identified by jobseekers and employers. This information is also constantly updating and meant to provide a current snapshot of the landscape. Projections are developed from historical data, and this snapshot does not account for future changes in employment trends that may occur as a result of COVID-19 or other factors. While labor market information is a good indicator of demand and employment for a given sector in a region, it does not always provide the complete picture. Each employer has their own process for defining work and titling positions, as well as advancing workers through specific career pathways, which might not be reflected in these maps. Workers in the occupations represented in these pathways are employed in a variety of organizations across the food system as well. Therefore, it is likely that for certain employers or organization types, these occupations, their requirements, the work involved, or the opportunities for advancement will be different than those listed here. For example, at smaller employers, the work associated with several occupations on these maps might be included within one worker's role rather than separated into multiple workers' roles.

It is also important to note that the maps were derived from job posting requirements data and employer validation interviews which may differ from available educational programs identified as part of this work, therefore the credentials included might not match the requirements listed on the pathways (e.g. there is a Food Technology certificate, but the pathways show a B.S. is required). We emphasize that the pathways shown represent typical requirements in Michigan, not the requirements that every employer will have. Additionally, work experience and education required are not always provided in job postings, and therefore, the data is not always fully comprehensive and representative.

## Methodology

These maps were developed using secondary labor market information (LMI), research on the types of occupations usually included in local food system organizations and businesses, an inventory of education and training programs, and primary data collection from employers to validate LMI included in the pathway maps and confirm typical occupation trajectories.

Data are presented for the state of Michigan and divided into the food system subsector associated with the map except when noted otherwise. Table 1 shows the industries included in each food system by North American Industry Classification System (NAICS) code.

**Table 1**

*Industries identified in the food system subsectors by NAICS code that were included in the data analysis.*

Subsector	NAICS code	Industry
Food production	111	Crop production
	112	Animal production and aquaculture
	114	Fishing, hunting, and trapping
Food inputs and services	1151	Support activities for crop production
	1152	Support activities for animal production
	54194	Veterinary services
Food manufacturing and processing	311	Food manufacturing
	3121	Beverage manufacturing
Wholesale food distribution or storage	4244	Grocery and related product merchant wholesalers
	4245	Farm product raw material merchant wholesalers
	42382	Farm and garden machinery and equipment merchant wholesalers
	424810	Beer and ale merchant wholesalers
	424820	Wine and distilled alcoholic beverage merchant wholesalers
	42491	Farm supplies merchant wholesalers
	49312	Refrigerated warehousing and storage
	49313	Farm product warehousing and storage
Retail food distribution	4451	Grocery stores
	4452	Specialty food stores
	4453	Beer, wine, and liquor stores
Food preparation and service	7223	Special food services (e.g. catering and mobile food trucks/carts)
	7225	Restaurants and other eating places

Data in this report and the career pathway maps define occupations using the Standard Occupational Classification (SOC) system from the Bureau of Labor Statistics (BLS). In some cases, the most common title or job posting title is provided in place of the SOC title.

The LMI included in this report offers a snapshot of the mix of food system pathways, occupations, and their demand in November 2020.

## Detailed Data Sources

Employment, projections, wages, typical education, on-the-job training, and work experience data come from:

- **Economic Modeling Specialist, Inc.'s (Emsi) 2020.4 – Quarterly Census of Employment and Wages (QCEW) Employees, Non-QCEW Employees, and Self-Employed dataset<sup>1</sup>**
- **Burning Glass Technologies (Burning Glass)<sup>2</sup>**
- **O\*NET Online**
- **Multiple sources of education and training inventories**
- **Stakeholder interviews**

**Economic Modeling Specialist, Inc.'s (Emsi) 2020.4 – QCEW Employees, Non-QCEW Employees, and Self-Employed dataset.** Emsi's proprietary dataset compiles data from numerous sources, including the Quarterly Census of Employment and Wages, Occupational Employment Statistics, the National Industry-Occupation Employment Matrix, and the American Community Survey. Emsi provided data on:

- Occupation titles using the SOC. In some cases, the most common title is used for clarity and the SOC title is in parentheses in the supplemental tables.
- 10th and 90th Percentile Occupational Wages (for all occupations in Michigan, not just those in the subsectors)
- Typical on-the-job training (for all occupations, not just those in the subsectors or in Michigan)
- 2019 employment in the subsector
- 2020 employment in the subsector
- Average earnings per job in the subsector
- Projected 5-year growth the subsector

**Burning Glass Technologies (Burning Glass)** aggregates information from job postings, which deliver insight into regional demand. Burning Glass collects millions of online job postings from close to 40,000 online sources (e.g. job boards, employer sites, newspapers, public agencies, etc.). Burning Glass provided data on:

- Top skills requested in Michigan job postings. In some cases, where the number of job postings was low, data were collected at the national level.
- Common job posting titles in Michigan for BLS SOC title. In some cases, where the number of job postings was low, data were collected at the national level.
- 2019 – 2020 (current) demand level for occupation (across all industries). These data are presented for all occupations in Michigan and not only those in the subsector. The key for demand level is as follows:
  - Very high: postings are within the top 40% of all job postings
  - High: postings are greater than 35% but less than 60% of total postings
  - Medium: postings are greater than 5% but less than 35% of total postings
  - Low: postings are less than 5% of total postings.
- Minimum educational requirements
- Work experience

---

<sup>1</sup> Emsi. (2019). *Emsi 2020.4 – QCEW employees, non-QCEW employees, and self-employed dataset* [Data set]. <https://kb.economicmodeling.com/whats-the-complete-list-of-sources-ems-i-uses2/?hilitte=%27data%27%2C%27sources%27>

<sup>2</sup> Burning Glass Technologies. (2020). *Burning Glass Technologies proprietary dataset*. <https://www.burning-glass.com/products/research-projects/>

O\*NET Online from the U.S. Department of Labor provides detailed descriptions of occupations.

- O\*NET description
- Common job titles (also used to supplement Michigan job posting titles when numbers of job postings associated with occupations were low)

**Education and training inventory:** Data on education and training programs were pulled from multiple sources. The national Integrated Postsecondary Education Data System (IPEDS) was used to collect information on accredited post-secondary programs at the certificate, associate’s, bachelor’s, master’s, and doctorate level. The Michigan Training Connect (MiTC) database was used to cross-reference IPEDS data and to add additional industry certificate programs offered at non-academic institutions (e.g. nonprofit workforce providers). Further programs were found using keywords from the identified career pathways. Employers were asked in surveys and interviews which training programs they use for their workforce needs, and those providers were added to the inventory.

**Stakeholder interviews:** As part of the process of validating the pathway maps, semi-structured interviews were conducted with employers in Michigan’s food system to understand if the career pathway maps developed in this work reflected the top occupations in the subsector as well as their pathways, wages, and requirements. Twenty-five interviews were conducted in total. Table 2 shows the number of interviews conducted by food system subsector.

**Table 2**  
*Stakeholder Interviews by Food System Subsector*

Subsector	Number of employer interviews
Food production	4
Food inputs and services	3
Food manufacturing and processing	5
Wholesale food distribution or storage	5
Retail food distribution	5
Food preparation and service	3
<b>Total</b>	<b>25</b>

## Food Production

The food production pathway encompasses occupations involved in the growing and raising of Michigan foods. It encompasses crop production and animal production, as well as fishing, hunting, and trapping. Most jobs in Michigan within this subsector are in crop production. Table 3 shows the industries within the food production subsector as well as employment numbers, projected 5-year growth, and average earnings.

**Table 3**  
*Employment in the food production industries*

Food production industries	2020 employment	Projected 5-year growth	Average earnings
Crop production	23,243	-2%	\$40,521
Animal production and aquaculture	13,053	2%	\$46,748
Fishing, hunting, and trapping	328	5%	\$38,370
<b>Subsector overall</b>	<b>36,625</b>	<b>0%</b>	<b>\$42,721</b>

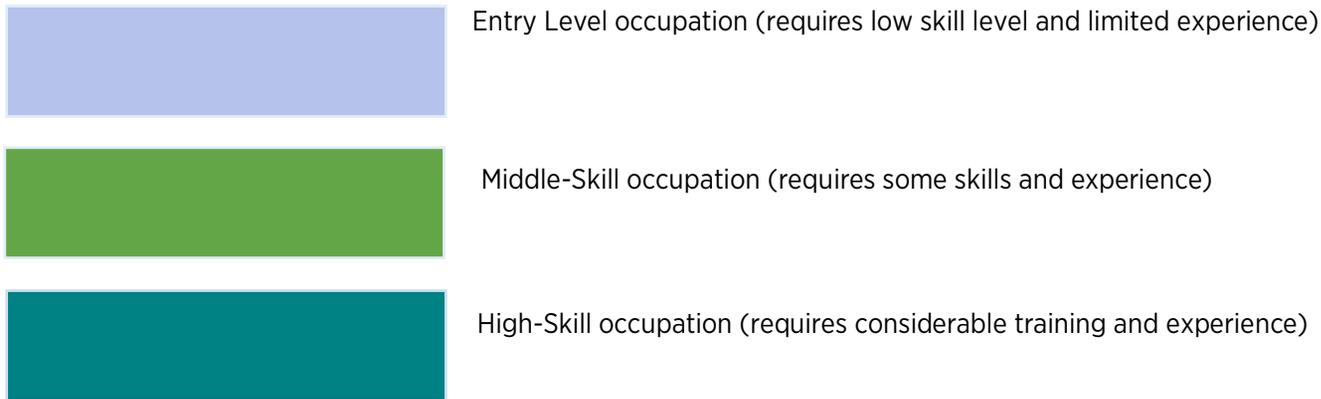

In each of these different organizations, the jobs and titles, pathways, salaries, and work will be different. However, many workers in this field find themselves working for one of these specific types of organizations or with these products.

- Beef, lamb, goat, pork, poultry
- Corn, soy, sugar beets
- Dairy, eggs
- Fish / Seafood
- Fruits, berries
- Grains, hops, culinary herbs
- Honey / Apiary, maple syrup
- Mushrooms, nuts, oilseeds
- Medicinal herbs
- Vegetables
- Vineyard (grapes)

## Occupations and demand in the food production subsector

Below are the top occupations in the food production subsector, their common job titles, the work involved, skills required, how much demand there is currently, and how much demand is expected in the future. Farmers or their family members represent approximately two-thirds of U.S. farm labor, though the proportion of hired farm labor is steadily rising.<sup>3</sup> It is important to note that farming, fishing, and forestry job postings are under-represented as often these jobs are filled by word of mouth.<sup>4</sup> Because of this, job postings data were pulled for the nation rather than only Michigan for certain farming, fishing, and forestry occupations, and in some cases data for the entire agriculture sector were used, not only food production data.

Tables 4 and 5 provide food production sector employment data for two pathways: “farming and other agriculture” and “administrative and sales.” The occupations are color coded by skill level for entry into the occupation. The color code is as follows:

<sup>3</sup> Martin, P. and Jackson-Smith, D. (2013). An overview of farm labor in the United States. *Rural Connections* (8)1, 21-24. <https://www.usu.edu/wrdc/files/news-publications/RC-Nov-2013.pdf>

<sup>4</sup> Burning Glass Technologies. (2020, June). *Proprietary data set*. <https://www.burning-glass.com/product-page/>

**Table 4**  
*Farming and Other Agriculture Pathway Employment Data*

Occupation and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Farmworkers and laborers, crops	Manually plant, cultivate, and harvest vegetables, fruits, nuts, horticultural specialties, and field crops. Use hand tools, such as shovels, trowels, hoes, tampers, pruning hooks, shears, and knives. Duties may include tilling soil and applying fertilizers; transplanting, weeding, thinning, or pruning crops; applying pesticides; or cleaning, grading, sorting, packing, and loading harvested products. May construct trellises, repair fences and farm buildings, or participate in irrigation activities.	Cleaning, fertilizer application, repair, lifting, scheduling	8,245	8,185	-1%	Medium	Entry level

Occupation and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Farmworkers, farm, ranch, and aquaculture animals	Attend to live farm, ranch, open range, or aquaculture animals that may include cattle, sheep, swine, goats, horses and other equines, poultry, rabbits, finfish, shellfish, and bees. Attend to animals produced for animal products, such as meat, fur, skins, feathers, eggs, milk, and honey. Duties may include feeding, watering, herding, grazing, milking, castrating, branding, de-beaking, weighing, catching, and loading animals. May maintain records on animals; examine animals to detect diseases and injuries; assist in birth deliveries; and administer medications, vaccinations, or insecticides as appropriate. May clean and maintain animal housing areas. Includes workers who shear wool from sheep and collect eggs in hatcheries.	Cleaning, biosecurity, farm equipment, repair, animal husbandry	4,187	4,197	2%	Low	Entry level

Occupation and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Agricultural workers, all other Crop scout Trailer inspector Crane inspector	All agricultural workers not listed separately.	Occupational health and safety, agronomy, technical training, global positioning system, retail operations	2,046	2,047	2%	Low	Entry level
Agricultural equipment operators Farm equipment operator Custom crop applicator	Drive and control equipment to support agricultural activities such as tilling soil; planting, cultivating, and harvesting crops; feeding and herding livestock; or removing animal waste. May perform tasks such as crop baling or hay bucking. May operate stationary equipment to perform post-harvest tasks such as husking, shelling, threshing, and ginning.	Farm equipment, repair, equipment operation, crop production, agribusiness	1,158	1,161	3%	Low	Entry level
Food safety specialists (graders and sorters, agricultural products)	Grade, sort, or classify unprocessed food and other agricultural products by size, weight, color, or condition.	Food safety, food safety and quality, project management, quality assurance and control, chemistry	323	321	-2%	Low	Entry level

Occupation and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Fishers and hunting workers Wildlife trapper Predator specialist	Hunt, trap, catch, or gather wild animals or aquatic animals and plants. May use nets, traps, or other equipment. May haul catch onto ship or another vessel.	Repair, fish hatchery, customer service, vessel maintenance, vessel equipment	284	282	6%	Low	Entry level
Landscaping and grounds-keeping workers	Landscape or maintain grounds of property using hand or power tools or equipment. Workers typically perform a variety of tasks, which may include any combination of the following: sod laying, mowing, trimming, planting, watering, fertilizing, digging, raking, sprinkler installation, and installation of mortarless segmental concrete masonry wall units.	Power tools, repair, forklift operation, hoisting equipment, scheduling	273	274	0%	High	Entry level
Light truck drivers Feed truck driver Tractor driver Breeder driver	Drive a light vehicle, such as a truck or van, with a capacity of less than 26,001 pounds Gross Vehicle Weight (GVW), primarily to pick up merchandise or packages from a distribution center and deliver. May load and unload vehicle.	Lifting, forklift operation, food safety, equipment inspection, repair	236	238	2%	High	Entry level

Occupation and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Packers and packagers, hand Warehouse shipping clerk Inventory/ pick pack Produce packer	Pack or package by hand a wide variety of products and materials.	Lifting, forklift operation, machinery, food safety, packaging	208	209	3%	Medium	Entry level
Animal breeders	Select and breed animals according to their genealogy, characteristics, and offspring. May require knowledge of artificial insemination techniques and equipment use. May involve keeping records on heats, birth intervals, or pedigree.	Genetics, insemination, budgeting, germplasm development, physiology		41	-1%	Low	Entry level
First-Line supervisors of farming, fishing, and forestry workers Head grower Master grower Breeder specialist	Directly supervise and coordinate the activities of agricultural, forestry, aquaculture, and related workers.	Scheduling, fertilizers, repair, food safety, botany	895	894	1%	Low	Middle-skill
Heavy and tractor-trailer truck drivers Soil farmer Class A or B Feed truck driver	Drive a tractor-trailer combination or a truck with a capacity of at least 26,001 pounds Gross Vehicle Weight (GVW). May be required to unload truck. Requires commercial drivers' license. Includes tow truck drivers.	Forklift operation, lifting, basic math, product sales, commercial driving	510	509	1%	Very High	Middle-skill

Occupation and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Precision agriculture technicians (agricultural science technician)	Apply geospatial technologies, including geographic information systems (GIS) and Global Positioning System (GPS), to agricultural production or management activities, such as pest scouting, site-specific pesticide application, yield mapping, or variable-rate irrigation. May use computers to develop or analyze maps or remote sensing images to compare physical topography with data on soils, fertilizer, pests, or weather.	Agronomy, agribusiness, crop production, sales, global positioning system	91	90	4%	Low	Middle-skill
Farmers, ranchers, and other agricultural managers	Plan, direct, or coordinate the management or operation of farms, ranches, greenhouses, aquaculture operations, nurseries, timber tracts, or other agricultural establishments. May hire, train, and supervise farm workers or contract for services to carry out the day-to-day activities of the managed operation. May engage in or supervise planting, cultivating, harvesting, and financial and marketing activities.	Farm management, repair, scheduling, budgeting, fish hatchery	14,410	14,298	-2%	Low	High-skill

**Table 5**  
*Administrative and Sales Pathway Employment Data*

Occupation and common titles in job postings	O* NET Description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Office clerks, general	Perform duties too varied and diverse to be classified in any specific office clerical occupation, requiring knowledge of office systems and procedures. Clerical duties may be assigned in accordance with the office procedures of individual establishments and may include a combination of answering telephones, bookkeeping, typing or word processing, office machine operation, and filing.	Data entry, administrative support, scheduling, office management, office supply ordering	96	96	-1%	High	Entry level
Bookkeeping, accounting, and auditing clerks	Compute, classify, and record numerical data to keep financial records complete. Perform any combination of routine calculating, posting, and verifying duties to obtain primary financial data for use in maintaining accounting records. May also check the accuracy of figures, calculations, and postings pertaining to business transactions recorded by other workers.	Accounting, accounts payable/receivable, account reconciliation, invoice processing, bookkeeping	284	281	-4%	High	Middle-skill

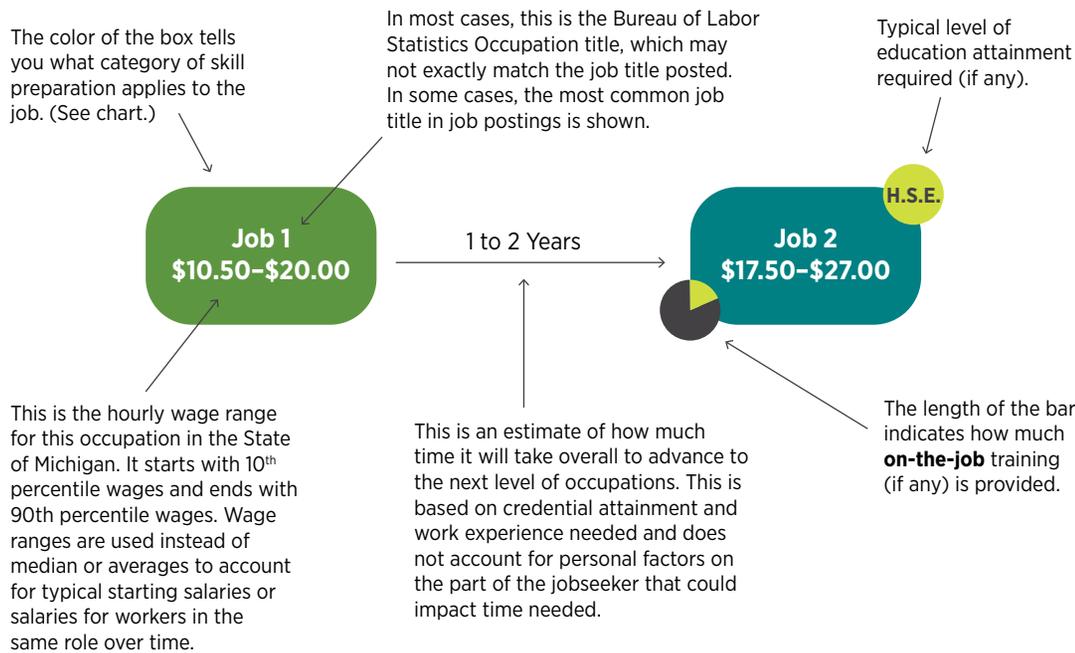

Occupation and common titles in job postings	O* NET Description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Secretaries and administrative assistants	Perform routine administrative functions such as drafting correspondence, scheduling appointments, organizing and maintaining paper and electronic files, or providing information to callers.	Administrative support, scheduling, administrative functions customer service, travel arrangements	252	248	-6%	Very High	Middle-skill
Sales representatives, wholesale and manufacturing <ul style="list-style-type: none"> <li>▪ Agronomy sales</li> <li>▪ Sales agronomist</li> <li>▪ Wholesale fertilizer sales</li> </ul>	Sell goods for wholesalers or manufacturers where technical or scientific knowledge is required in such areas as biology, engineering, chemistry, and electronics. Normally obtained from at least 2 years of postsecondary education.	Sales, customer service, agronomy, crop production, fertilizers	182	181	0%	Very High	High-skill
Accountants and auditors	Examine, analyze, and interpret accounting records to prepare financial statements, give advice, or audit and evaluate statements prepared by others. Install or advise on systems of recording costs or other financial and budgetary data.	Accounting, account reconciliation, balance sheet, financial reporting, budgeting	141	142	1%	High	High-skill

Occupation and common titles in job postings	O* NET Description	Top skills requested in job postings	2019 Michigan employment in food production	2020 Michigan employment in food production	Michigan projected 5-year growth in food production	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
First-line supervisors or office and administrative workers <ul style="list-style-type: none"> <li>▪ Customer success manager</li> <li>▪ Office manager</li> <li>▪ Client success manager</li> </ul>	Directly supervise and coordinate the activities of clerical and administrative support workers.	Customer service, onboarding, customer contact, account management, project management	42	41	-1%	High	High-skill

# What are the career pathways for food production?

The maps below indicate the most common occupations in this field as well as wages, opportunities for advancement, typical time to advance, education required and on-the-job training.

**Figure 1**  
Michigan's Food System Career Pathway Map Key

## Skill Levels

Color	Preparation Level	Definition
	Entry-Level	<ul style="list-style-type: none"> <li>High School Diploma or No High School Diploma</li> </ul>
	Middle-Skill	<ul style="list-style-type: none"> <li>Basic Postsecondary Certificate</li> <li>Advanced Postsecondary Certificate</li> <li>Associate Degree</li> <li>High School Diploma with Experience</li> </ul>
	High-Skill	<ul style="list-style-type: none"> <li>Bachelor's Degree</li> <li>Associate Degree with 5 Years Experience</li> <li>Advanced Postsecondary Degree with 5 Years or More Experience</li> </ul>

## Education Levels

Initials	Credential
H.S.E.	High School Diploma or Equivalency
P.A.	Postsecondary Nondegree Award
A.S. or A.A.	Associate Degree
B.S.	Bachelor's Degree
B.A.	Bachelor of Arts
B.B.A	Bachelor of Business Administration

## On-the-Job Training

**Notes:**

This map is grounded in data collected on the State of Michigan. Other cities or regions may pay different wages or require different skills, credentials, or work experience depending on their local employers.

This map was derived using labor market information data sources, Emsi and Burning Glass from Labor Insight, in November 2020. This information includes the *typical* wages and requirements for jobs and might not exactly match the positions identified by jobseekers. The data included in these maps are constantly updated.

**Food Production**  
Agriculture Pathway

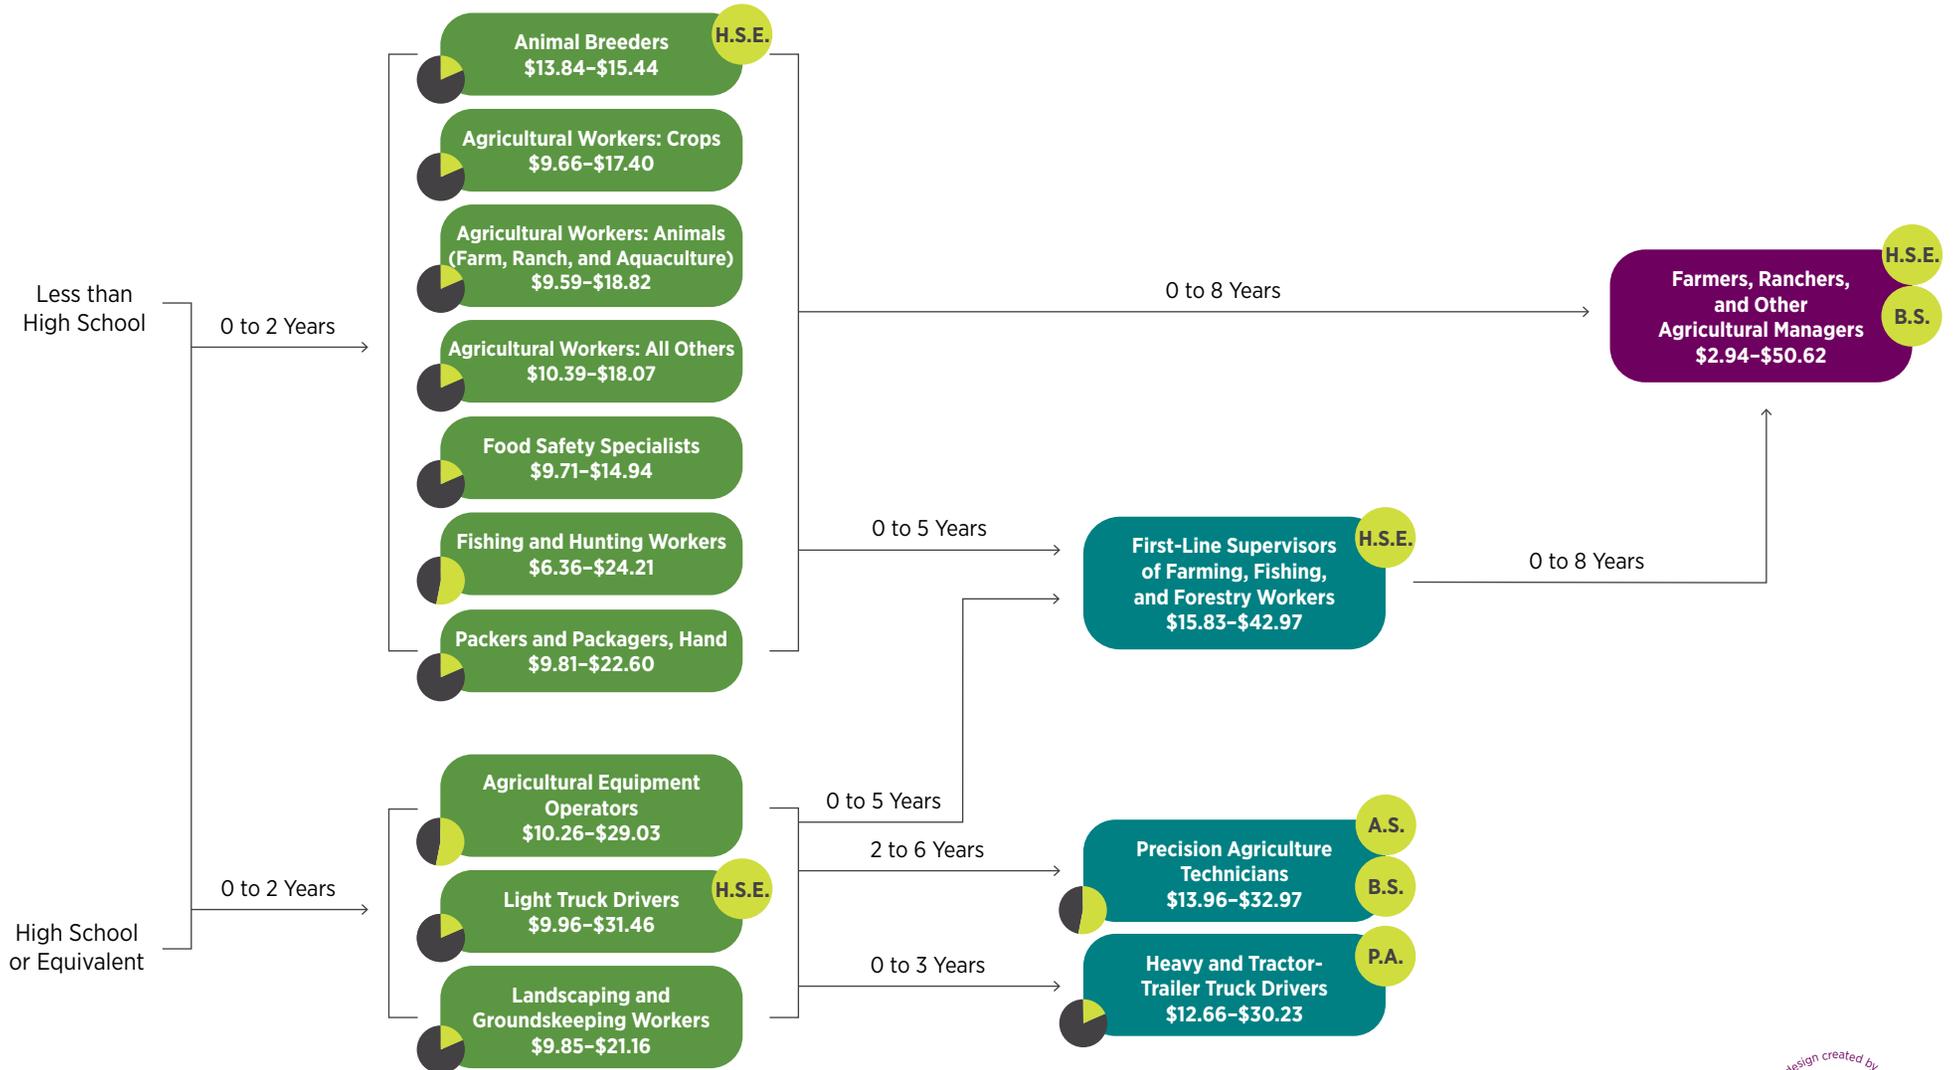

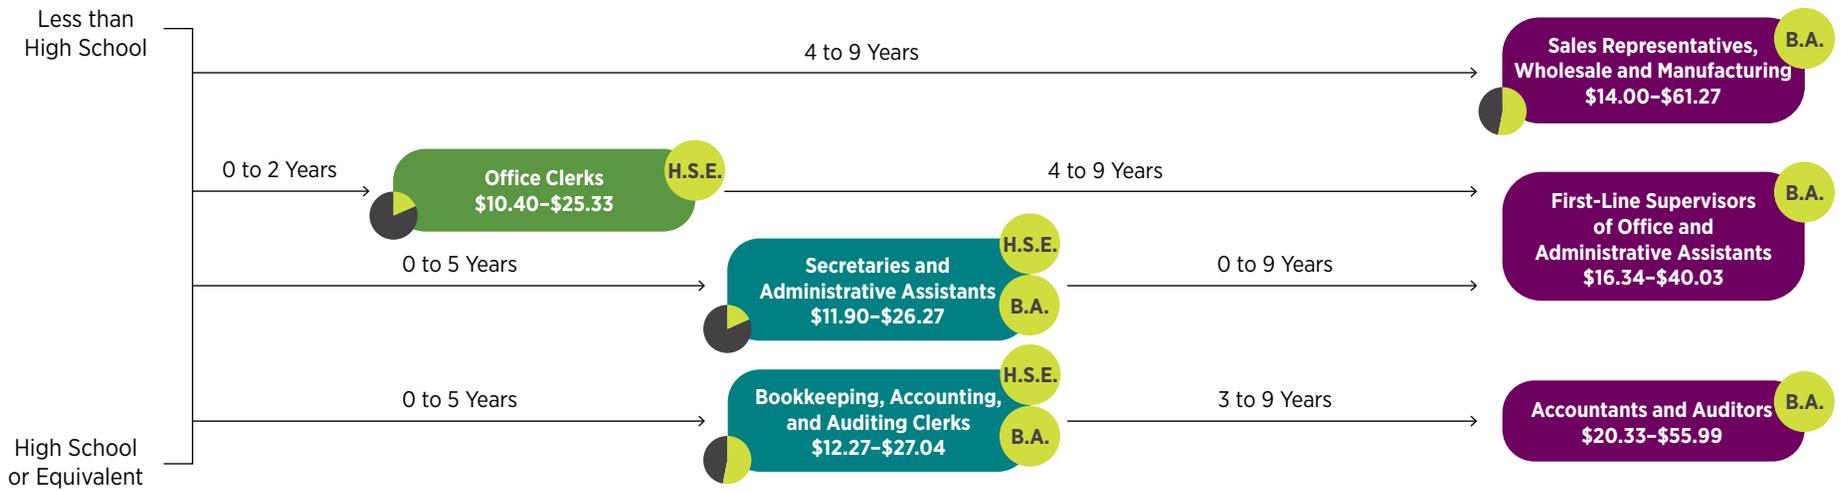

Figure 3

**Food Production**

Administrative and Sales Pathway

## Education programs to pursue food production careers

Examples of educational programs in Michigan where workers and jobseekers can obtain the skills needed for these roles are outlined below. This list is not exhaustive and focuses more on agriculture-specific roles—administrative and sales occupational programs are not included.

**Table 6**

*Food Production Educational Programs*

Program area	Credential	Institutions
Agriculture, general	Young Farmer Job Training Program	Michigan Farm Bureau
	Youth Conservation Corps Job Training Program	SEEDS Ecology and Education Centers
	Agriculture, Food Production Job Training Program	West Michigan Shoreline Food Processing Initiative
	Agriculture, Culinary Arts K-12	10 Cents a Meal for School Kids and Farms
	Agriscience K-12	Calhoun Area Career Center
	Agriculture, Food & Natural Resources K-12	Coleman Community Schools AgriScience Program Detroit Public Schools Community District (DPSCD) Farm-to-School
	West Michigan Youth Programs K-12	Gerber Foundation
	Agriscience/Horticulture K-12	Lapeer County Intermediate School District
	Project RED (Rural Education Days) K-12	Michigan State University (MSU) Extension
	Youth Sugarbeet Project K-12	Michigan Sugar
	Agriculture, Food, and Natural Resources K-12	Monroe County Intermediate School District (MCISD) and Wayne Regional Educational Service Agencies (RESA) Wayne Intermediate School District Career Technical Education (Wayne ISD CTE) Program
	Youth 4-H Program K-12	Pingree Farms
	Agriculture K-12	The Agrarian Adventure Traverse Bay Area Intermediate School District (TBAISD)
	Agriculture, Food and Natural Resources K-12	Traverse Bay Area Intermediate School District (TBAISD) Farm to School
Sustainable/Eco Friendly Agriculture K-12	Tuscola Intermediate School District	

Program area	Credential	Institutions
Agriculture technology	Agriscience and Environmental Technologies K-12	Oakland Schools Technical Campuses
	Agricultural Technology Associate Degree	Jackson College
Animal production and aquaculture	Aquatic Biology/Limnology Bachelor's Degree or Post Baccalaureate Certificate	Eastern Michigan University Western Michigan University
	Dairy Science Certificate	Michigan State University
	Animal Sciences, General Bachelor's Degree	Andrews University Michigan State University
	Animal/Livestock Husbandry and Production Certificate	Michigan State University
	Animal Science, Agriculture, Entrepreneurship Certificate	MSU Extension/4-H
Fishing, hunting, and trapping	Freshwater Science and Sustainability Bachelor's Degree	Western Michigan University
	Fishing and Fisheries Sciences and Management Bachelor's Degree	Lake Superior State University Northern Michigan University
Crop production	Crop Production Certificate or Associate Degree	Michigan State University Northwestern Michigan College
	Fruit and Vegetable Crop Management Certificate or Associate Degree	Michigan State University Montcalm Community College Southwestern Michigan College Wayne County Community College District West Shore Community College
	Agricultural and Horticultural Plant Breeding Associate Degree	North Central Michigan College
	Applied Horticulture/Horticulture Operations, General Associate or Bachelor's Degree	Andrews University Lake Michigan College
	Horticultural Science Certificate or Bachelor's Degree	Andrews University Michigan State University
	Viticulture and Enology Certificate or Associates degree	Lake Michigan College North Central Michigan College Michigan State University
	Summer Youth Apprenticeship Program	Keep Growing Detroit
	Apprenticeship Program	Lansing Urban Farm Project

Program area	Credential	Institutions
Agriculture operations and management	Organic Farmer Training Program Certificate	Michigan State University Student Organic Farm
	Good Agricultural Practices (GAP) Certification Program	Michigan Group GAP Network (coordinated by Michigan Food and Farming Systems)

	Agriculture, Food and Natural Resources Education Bachelor's Degree	Michigan State University
	Agricultural Industries Certificate	Michigan State University
	Agriculture Operations Certificate or Associate Degree	Michigan State University Montcalm Community College Northwestern Michigan College Southwestern Michigan College West Shore Community College
	Agricultural Business and Management, General Certificate, Associate, or Bachelor's Degree	Lansing Community College Michigan State University Wayne County Community College District

## Food Inputs and Services

The food inputs and services pathway encompasses occupations that support services or resources used as inputs in the food system. This includes administrative support roles as well as veterinary care. Farmworkers also appear in the food inputs industry, as they can span the production and input industry classifications (though they represent a smaller proportion of the input industry compared to food production). In this category, a worker classified to the farmworker occupational group may perform support activities such as field preparation or pesticide spraying as a contractor to a farm or production operation. This contrasts to a farmworker employed directly by a farm who may perform other farming roles (in addition to “support activities”). Most jobs in Michigan in this subsector are in veterinary services. It should be noted, however, that not all jobs in veterinary services are tied to the food system.

Table 7 shows the industries within the food inputs and services subsector as well as employment numbers, projected 5-year growth and average earnings.

**Table 7**  
*Employment in the Food Inputs and Services Industries*

Food inputs and services industries	2020 employment	Projected 5-year growth	Average earnings
Support activities for crop production	6,263	2%	\$35,486
Support activities for animal production	986	9%	\$35,989
Veterinary services	11,918	8%	\$48,201
<b>Subsector overall</b>	<b>19,167</b>	<b>6%</b>	<b>\$43,418</b>

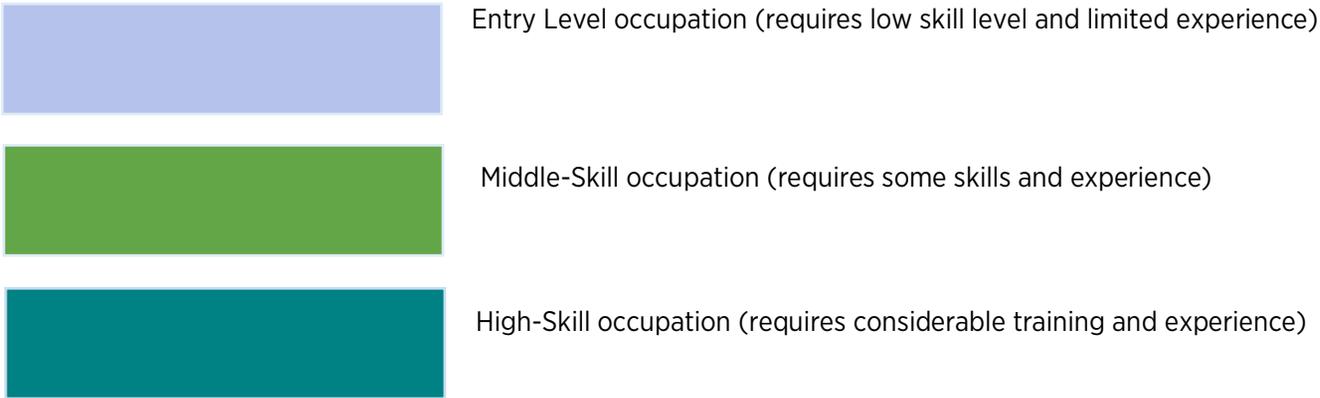

In each of these different organizations, the jobs and titles, pathways, pay, and work will be different. However, many workers in this field find themselves working for one of these types of organizations or with these products:

- Agricultural equipment
- Animal feed producer or supplier
- Beekeeper supplier
- Compost producer or supplier
- Custom cropping
- Feed store
- Fertilizer supplier
- Land access / conservation
- Livestock breeder
- Maple sugaring supplies and equipment
- Nursery / Greenhouse and season extension
- Pest and disease control
- Regulatory authority
- Seed producer or supplier
- Soil / Mulch producer or supplier

## Occupations and demand in the food inputs and services subsector

Below are the top occupations in the food inputs and services subsector, their common job titles, the work involved, skills required, how much demand there is currently, and how much demand is expected in the future. Farming, fishing, and forestry job postings are under-represented as often these jobs are filled by word of mouth.<sup>5</sup> Because of this, job postings data were pulled for the nation rather than only Michigan for certain farming, fishing, and forestry occupations, and in some cases data for the entire agriculture sector was used not only food inputs and services data.

Tables 8-10 provide food inputs and services sector employment data for the “crop and animal production supports” pathway, “veterinary services” pathway, and “administrative and sales” pathway, respectively. The occupations are color coded by skill level for entry to the occupation. The color code is as follows:

---

<sup>5</sup> Benchmarking June 2020 Brief from Burning Glass

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Farmworkers and laborers, crops	Manually plant, cultivate, and harvest vegetables, fruits, nuts, horticultural specialties, and field crops. Use hand tools, such as shovels, trowels, hoes, tampers, pruning hooks, shears, and knives. Duties may include tilling soil and applying fertilizers; transplanting, weeding, thinning, or pruning crops; applying pesticides; or cleaning, grading, sorting, packing, and loading harvested products. May construct trellises, repair fences and farm buildings, or participate in irrigation activities.	Repair, fertilizers, machinery, hand tools, cleaning	3,349	3,388	1%	Low	Entry level
Packers and packagers, hand Warehousing shipping clerk Inventory/ pick pack Produce packer	Pack or package by hand a wide variety of products and materials.	Lifting ability, forklift operation, machinery, food safety, packaging	316	321	4%	Medium	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Food safety specialists (graders and sorters, agricultural products)	Grade, sort, or classify unprocessed food and other agricultural products by size, weight, color, or condition.	Food safety, food safety and quality, project management, quality assurance and control, chemistry	255	254	0%	Low	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Farmworkers, farm, ranch, and aquacultural animals	Attend to live farm, ranch, open range, or aquacultural animals that may include cattle, sheep, swine, goats, horses and other equines, poultry, rabbits, finfish, shellfish, and bees. Attend to animals produced for animal products, such as meat, fur, skins, feathers, eggs, milk, and honey. Duties may include feeding, watering, herding, grazing, milking, castrating, branding, de-beaking, weighing, catching, and loading animals. May maintain records on animals; examine animals to detect diseases and injuries; assist in birth deliveries; and administer medications, vaccinations, or insecticides as appropriate. May clean and maintain animal housing areas. Includes workers who shear wool from sheep and collect eggs in hatcheries.	Cleaning, biosecurity, farm equipment, repair, animal husbandry	226	231	2%	Low	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Sanitation technicians (janitors and cleaners)	Keep buildings in clean and orderly condition. Perform heavy cleaning duties, such as cleaning floors, shampooing rugs, washing walls and glass, and removing rubbish. Duties may include tending furnace and boiler, performing routine maintenance activities, notifying management of need for repairs, and cleaning snow or debris from sidewalk.	Cleaning, food safety, forklift operation, repair, machinery	106	107	10%	Very High	Entry level
Maintenance and repair workers Maintenance technician Service technician Breeder service technician	Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of a building in repair. Duties may involve pipe fitting, VAC maintenance, insulating, welding, machining, carpentry, repairing electrical or mechanical equipment, installing, aligning, and balancing new equipment, and repairing buildings, floors, or stairs.	Repair, plumbing, HVAC, preventative maintenance, welding	103	104	9%	Very High	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Quality technician (inspectors, testers, sorters, samplers, and weighers)	Inspect, test, sort, sample, or weigh nonagricultural raw materials or processed, machined, fabricated, or assembled parts or products for defects, wear, and deviations from specifications. May use precision measuring instruments and complex test equipment.	Quality assurance and control, food safety, packaging, lifting, forklift operation, Hazard Analysis Critical Control Point	73	73	2%	High	Entry level
Farm equipment mechanics and service technicians	Diagnose, adjust, repair, or overhaul farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.	Repair, farm equipment, welding, power tools, machinery	45	45	5%	Low	Entry level
Pesticide handlers, sprayers, and applicators	Mix or apply pesticides, herbicides, fungicides, or insecticides through sprays, dusts, vapors, soil incorporation, or chemical application on trees, shrubs, lawns, or crops. Usually requires specific training and state or federal certification.	Fertilizers, crop production, product delivery and sales, herbicides, calibration	39	38	5%	Medium	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
First-line supervisors of farming, fishing, and forestry workers Head grower Master grower	Directly supervise and coordinate the activities of agricultural, forestry, aquacultural, and related workers.	Scheduling, fertilizers, repair, food safety, botany	197	198	6%	Low	Middle-skill
Agricultural inspectors Agriculture commodity grader Brand inspector Consumer compliance examiner	Inspect agricultural commodities, processing equipment, and facilities, and fish and logging operations, to ensure compliance with regulations and laws governing health, quality, and safety.	Economics, quality assurance and control, performance appraisals, scheduling, contract preparation	11	11	4%	Low	Middle-skill

**Table 9***Veterinary Services Pathway Employment Data*

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Veterinary assistants and laboratory animal caretakers	Feed, water, and examine pets and other nonfarm animals for signs of illness, disease, or injury in laboratories and animal hospitals and clinics. Clean and disinfect cages and work areas, and sterilize laboratory and surgical equipment. May provide routine postoperative care, administer medication orally or topically, or prepare samples for laboratory examination under the supervision of veterinary or laboratory animal technologists or technicians, veterinarians, or scientists.	Preventative care, natural resources, biotechnology, veterinary medicine, patient bathing	3,116	3,137	8%	Medium	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Veterinary technologists and technicians Wildlife technician Animal technician Animal research technician	Perform medical tests in a laboratory environment for use in the treatment and diagnosis of diseases in animals. Prepare vaccines and serums for prevention of diseases. Prepare tissue samples, take blood samples, and execute laboratory tests, such as urinalysis and blood counts. Clean and sterilize instruments and materials and maintain equipment and machines. May assist a veterinarian during surgery.	Customer service, health care industry knowledge, patient flow, medical records maintenance, medical coding	2,301	2,322	9%	Medium	Middle-skill
Veterinarians Livestock inspection Beef cattle veterinarian	Diagnose, treat, or research diseases and injuries of animals. Includes veterinarians who conduct research and development, inspect livestock, or care for pets and companion animals.	Veterinary medicine, medical records maintenance, preventative care, patient care, medical coding	2,286	2,314	9%	Medium	High-skill

**Table 10***Administrative and Sales Pathway Employment Data*

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Office clerks	Perform duties too varied and diverse to be classified in any specific office clerical occupation, requiring knowledge of office systems and procedures. Clerical duties may be assigned in accordance with the office procedures of individual establishments and may include a combination of answering telephones, bookkeeping, typing or word processing, office machine operation, and filing.	Scheduling, administrative support, customer service, general office duties, data entry	481	481	4%	High	Entry level
Receptionists and information clerks	Answer inquiries and provide information to the general public, customers, visitors, and other interested parties regarding activities conducted at establishment and location of departments, offices, and employees within the organization.	Administrative support, customer service, scheduling, appointment setting, data entry	1,680	1,675	4%	High	Entry level

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Customer service representatives Tasting room associate Customer support	Interact with customers to provide basic or scripted information in response to routine inquiries about products and services. May handle and resolve general complaints. Excludes individuals whose duties are primarily installation, sales, repair, and technical support.	Customer service, customer contact, order management, order entry, supply chain management	171	171	5%	Very High	Entry level
Secretaries and administrative assistants	Perform routine administrative functions such as drafting correspondence, scheduling appointments, organizing and maintaining paper and electronic files, or providing information to callers.	Administrative support, scheduling, customer service, appointment setting, data entry	188	186	1%	Very High	Middle-skill
First-line supervisors of office and administrative assistants	Directly supervise and coordinate the activities of clerical and administrative support workers.	Staff management, conflict management, budgeting, scheduling, order entry	202	203	6%	High	High-skill

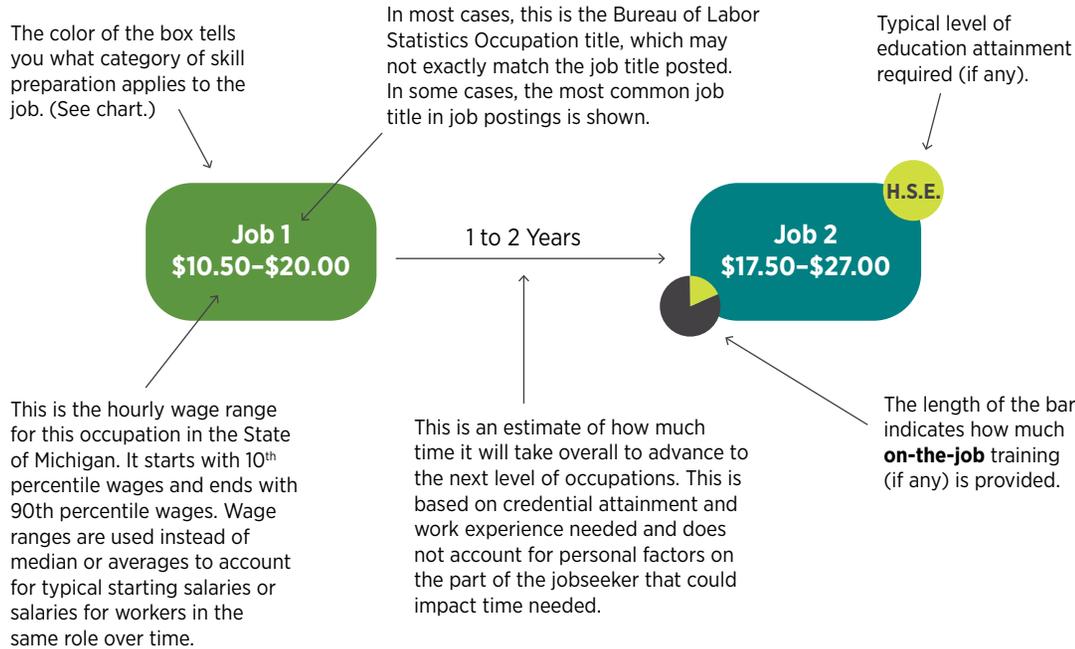

Occupations and common titles in job postings	O*NET description	Top skills requested in job postings	2019 Michigan employment in food inputs and services	2020 Michigan employment in food inputs and services	Michigan projected 5-year growth in food inputs and services	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Sales representatives, wholesale and manufacturing Agronomy sales Account manager Wholesale fertilizer sales	Sell goods for wholesalers or manufacturers where technical or scientific knowledge is required in such areas as biology, engineering, chemistry, and electronics, normally obtained from at least 2 years of postsecondary education.	Sales, customer service, agronomy, crop production, fertilizers	34	34	7%	Very High	High-skill

# What are the career pathways for food inputs and services?

The maps below indicate the most common occupations in this field as well as wages, opportunities for advancement, typical time to advance, education required and on-the-job training.

**Figure 4**

## Michigan's Food System Career Pathway Map Key

### Skill Levels

Color	Preparation Level	Definition
	Entry-Level	<ul style="list-style-type: none"> <li>High School Diploma or No High School Diploma</li> </ul>
	Middle-Skill	<ul style="list-style-type: none"> <li>Basic Postsecondary Certificate</li> <li>Advanced Postsecondary Certificate</li> <li>Associate Degree</li> <li>High School Diploma with Experience</li> </ul>
	High-Skill	<ul style="list-style-type: none"> <li>Bachelor's Degree</li> <li>Associate Degree with 5 Years Experience</li> <li>Advanced Postsecondary Degree with 5 Years or More Experience</li> </ul>

### Education Levels

Initials	Credential
H.S.E.	High School Diploma or Equivalency
P.A.	Postsecondary Nondegree Award
A.S. or A.A.	Associate Degree
B.S.	Bachelor's Degree
B.A.	Bachelor of Arts
B.B.A	Bachelor of Business Administration

### On-the-Job Training

**Notes:**

This map is grounded in data collected on the State of Michigan. Other cities or regions may pay different wages or require different skills, credentials, or work experience depending on their local employers.

This map was derived using labor market information data sources, Emsi and Burning Glass from Labor Insight, in November 2020. This information includes the *typical* wages and requirements for jobs and might not exactly match the positions identified by jobseekers. The data included in these maps are constantly updated.

## Education programs to pursue food input and services careers

Examples of educational programs in Michigan where workers and jobseekers can obtain the skills needed for these roles are outlined in Table 11. This list is not exhaustive and focuses more on agriculture-specific roles—administrative and sales occupational programs are not included.

**Table 11**  
*Food Inputs and Services Educational Programs*

Program area	Credential	Institutions
Crop and animal production supports	Quality Control and Safety Technologies/Technician's Certificate or Associate Degree	Siena Heights University Monroe County Community College Macomb Community College Mott Community College Muskegon Community College Ferris State University Grand Rapids Community College Delta College Madonna University
	Quality Control and Safety Technologies/Technician's, Bachelor's, Master's, or Postbaccalaureate Certificate	Eastern Michigan University Madonna University Siena Heights University
	Agricultural Mechanization, General Associate Degree	Baker College
	Agriculture Mechanics and Equipment/ Machine Technology Certificate	Glen Oaks Community College
	Building/Property Maintenance Certificate or Associate Degree	Michigan Career and Technical Institute Washtenaw Community College Northern Michigan University
	Mechanics and Repairers, General Associate Degree or Certificate	Henry Ford College Kellogg Community College Grand Rapids Community College Kellogg Community College
Veterinary services	Pre-Animal Health Technology Certificate	Montcalm Community College
	Pre-Animal Health Technology Job Training Program	Montcalm Community College
	Pre-Veterinary Studies Associate or Bachelor's Degree	Grand Rapids Community College Alpena Community College Michigan State University Madonna University
	Veterinary/Animal Health Technology/Technician and Veterinary Assistant Certificate	Ross Medical Education Center-Canton Ross Medical Education Center-Madison Heights Ross Medical Education Center-New Baltimore Ross Medical Education Center-Portage Michigan State University
	Veterinary/Animal Health Technology/Technician and Veterinary Assistant Associate Degree	Baker College Macomb Community College Oakland Community College Wayne County Community College District
	Veterinary/Animal Health Technology/Technician and Veterinary Assistant Bachelor's Degree	Siena Heights University Michigan State University
	Veterinary Medicine Doctorate	Michigan State University
	Large Animal/Food Animal and Equine Surgery and Medicine Doctorate or Master's Degree	Michigan State University
	Zoology/Animal Biology Bachelor's, Master's or Doctorate Degree	Andrews University Northern Michigan University Michigan State University

# Food Manufacturing and Processing

The food manufacturing and processing pathway looks at roles involved in the processing of raw food and the manufacturing of food and beverage products. Most jobs in Michigan within this subsector are in food manufacturing.

Table 12 shows the industries within the food manufacturing and processing subsector as well as employment numbers, projected 5-year growth and average earnings.

**Table 12**  
*Employment in the Food Manufacturing and Processing Industries*

Food manufacturing and processing industries	2020 employment	Projected 5-year growth	Average earnings
Food manufacturing	39,035	1%	\$63,085
Beverage manufacturing	8,945	11%	\$56,232
<b>Subsector overall</b>	<b>47, 980</b>	<b>3%</b>	<b>\$61,807</b>

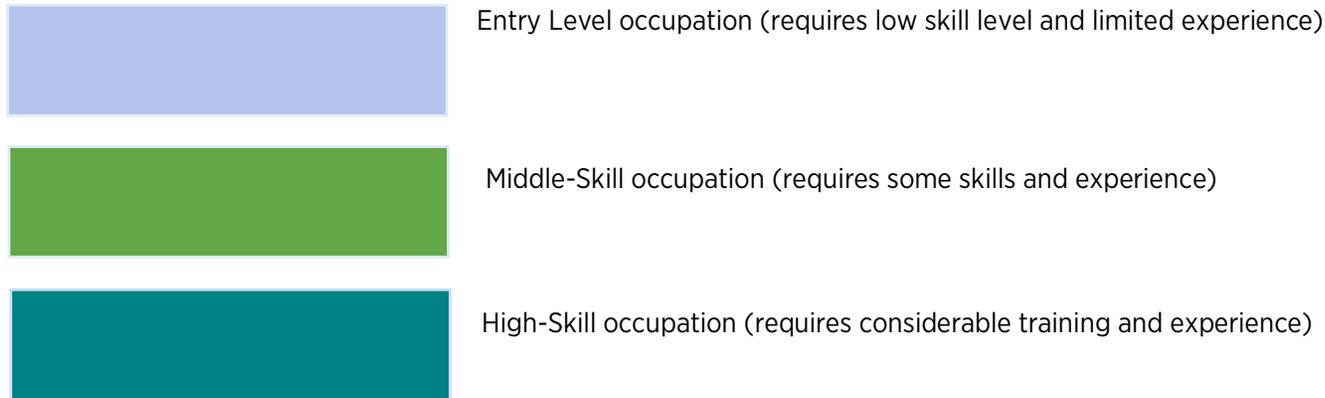

In each of these different organizations, the jobs and titles, pathways, pay, and work will be different. However, many workers in this field find themselves working for one of these types of organizations or with these products:

- Bakery
- Brewery, winery
- Cheese, other dairy processing, fluid milk, ice cream, yogurt
- Cider mill, cidery / hard cider
- Chocolatier
- Coffee roasters, tea
- Co-packer / contract manufacturer
- Distillery / Spirits
- Food incubator
- Food processing facility
- Maple candy / sugar
- Meat processing
- Non-alcoholic beverages
- Grain mill, maltery
- Shared-use commercial kitchen
- Slaughterhouse
- Specialty foods / snacks

## Occupations and demand in the food manufacturing and processing subsector

Below are the top occupations in this subsector, their common job titles, the work involved, skills required, how much demand there is currently, and how much demand is expected in the future.

Tables 13-15 provide food manufacturing and processing sector employment data for the following pathways: “production,” “maintenance and engineering,” and “regulation, quality assurance, and research and development” respectively. The occupations are color coded by skill level for entry to the occupation. The color code is as follows:

**Table 13**  
*Production Pathway Employment Data*

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in food manufacturing and processing	2020 Michigan employment in food manufacturing and processing	Michigan projected 5-year growth in food manufacturing and processing	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Packaging and filling machine operators and tenders <ul style="list-style-type: none"> <li>▪ Packaging line operator</li> <li>▪ Brewery packaging operator</li> <li>▪ Filler operator</li> </ul>	Operate or tend machines to prepare industrial or consumer products for storage or shipment. Includes cannery workers who pack food products.	Packaging, machinery, Good Manufacturing Practices (GMP), food safety, forklift operation	5,754	5,786	3%	Medium	Entry level
Food batchmakers <ul style="list-style-type: none"> <li>▪ Head brewer</li> <li>▪ Production brewer</li> <li>▪ Cheesemaker</li> </ul>	Set up and operate equipment that mixes or blends ingredients used in the manufacturing of food products. Includes candy makers and cheese makers.	Packaging, cleaning, quality assurance and control, Good Manufacturing Practices (GMP), machinery	3,486	3,501	3%	Medium	Entry level

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in food manufacturing and processing	2020 Michigan employment in food manufacturing and processing	Michigan projected 5-year growth in food manufacturing and processing	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Packers and packagers, hand <ul style="list-style-type: none"> <li>▪ Picker/packer</li> <li>▪ Line attendant</li> <li>▪ Warehouse packer</li> </ul>	Pack or package by hand a wide variety of products and materials.	Packaging, food safety, preventative maintenance, machinery, Good Manufacturing Practice (GMP)	1,876	1,883	4%	Medium	Entry level
Laborers and freight, stock, and material movers, hand <ul style="list-style-type: none"> <li>▪ General labor</li> <li>▪ Loader</li> <li>▪ Material handler driver</li> </ul>	Manually move freight, stock, or other materials or perform other general labor. Includes all manual laborers not elsewhere classified.	Forklift operation, cleaning, product sales, packaging, Good Manufacturing Practice (GMP)	1,649	1,666	5%	Very High	Entry level
Helpers--production workers <ul style="list-style-type: none"> <li>▪ Production operator</li> <li>▪ General production operator</li> <li>▪ Line operator</li> </ul>	Help production workers by performing duties requiring less skill. Duties include supplying or holding materials or tools and cleaning work area and equipment.	Food safety, machinery, Good Manufacturing Practice (GMP), packaging, hand tools	1,180	1,184	3%	Medium	Entry level

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in food manufacturing and processing	2020 Michigan employment in food manufacturing and processing	Michigan projected 5-year growth in food manufacturing and processing	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Slaughterers and meat packers <ul style="list-style-type: none"> <li>▪ Debone supervisor</li> <li>▪ Meat processor</li> <li>▪ Kill floor trainer</li> </ul>	Work in slaughtering, meat packing, or wholesale establishments performing precision functions involving the preparation of meat. Work may include specialized slaughtering tasks, cutting standard or premium cuts of meat for marketing, making sausage, or wrapping meats.	Machinery, food safety, operations management, packaging, cleaning	1,388	1,396	7%	Low	Entry level
Meat, poultry, and fish cutters and trimmers <ul style="list-style-type: none"> <li>▪ General production</li> <li>▪ Poultry care person</li> </ul>	Use hand or hand tools to perform routine cutting and trimming of meat, poultry, and seafood.	Cleaning, machinery, personal protective equipment, hand tools, food safety	1,095	1,104	12%	Low	Entry level

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in food manufacturing and processing	2020 Michigan employment in food manufacturing and processing	Michigan projected 5-year growth in food manufacturing and processing	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Separating, filtering, clarifying, precipitating, and still machine setters, operators, and tenders <ul style="list-style-type: none"> <li>▪ Pub brewer</li> <li>▪ Processing technician</li> <li>▪ Distiller</li> </ul>	Set up, operate, or tend continuous flow or vat-type equipment; filter presses; shaker screens; centrifuges; condenser tubes; precipitating, fermenting, or evaporating tanks; scrubbing towers; or batch stills. These machines extract, sort, or separate liquids, gases, or solids from other materials to recover a refined product. Includes dairy processing equipment operators.	Packaging, food safety, forklift operation, repair, industrial equipment industry knowledge	1,002	1,017	8%	Medium	Entry level
Mixing and blending machine setters, operators, and tenders <ul style="list-style-type: none"> <li>▪ Blender operator</li> <li>▪ Processing line attendant</li> <li>▪ Dry mixer</li> </ul>	Set up, operate, or tend machines to mix or blend materials, such as chemicals, tobacco, liquids, color pigments, or explosive ingredients.	Machinery, basic math, product knowledge, machine operation, cleaning	543	544	2%	Low	Entry level

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in food manufacturing and processing	2020 Michigan employment in food manufacturing and processing	Michigan projected 5-year growth in food manufacturing and processing	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Food cooking machine operators and tenders <ul style="list-style-type: none"> <li>▪ Cooker operator</li> <li>▪ Food manufacturing</li> <li>▪ Sauce operator</li> </ul>	Operate or tend cooking equipment, such as steam cooking vats, deep fry cookers, pressure cookers, kettles, and boilers, to prepare food products.	Packaging, cleaning, Good Manufacturing Practices (GMP), cooking, machinery	350	354	3%	Low	Entry level
First-line supervisors of production and operating workers <ul style="list-style-type: none"> <li>▪ Production supervisor</li> <li>▪ Line lead</li> <li>▪ Plant manager</li> </ul>	Directly supervise and coordinate the activities of production and operating workers, such as inspectors, precision workers, machine setters and operators, assemblers, fabricators, and plant and system operators.	Scheduling, food safety, supervisory skills, Good Manufacturing Practices (GMP), budgeting	1,924	1,931	1%	High	Middle-skill
Lead bakers <ul style="list-style-type: none"> <li>▪ Pastry chef</li> <li>▪ Artisan baker</li> </ul>	Mix and bake ingredients to produce breads, rolls, cookies, cakes, pies, pastries, or other baked goods.	Food safety, customer service, supply ordering, recipe development, quality assurance	NA	NA	NA	NA	Middle-skill

### Education Levels

Initials	Credential
H.S.E.	High School Diploma or Equivalency
P.A.	Postsecondary Nondegree Award
A.S. or A.A.	Associate Degree
B.S.	Bachelor's Degree
B.A.	Bachelor of Arts
B.B.A	Bachelor of Business Administration

### On-the-Job Training

**Notes:**

This map is grounded in data collected on the State of Michigan. Other cities or regions may pay different wages or require different skills, credentials, or work experience depending on their local employers.

This map was derived using labor market information data sources, Emsi and Burning Glass from Labor Insight, in November 2020. This information includes the *typical* wages and requirements for jobs and might not exactly match the positions identified by jobseekers. The data included in these maps are constantly updated.

## Education programs to pursue food manufacturing and processing careers

Examples of educational programs in Michigan where workers and jobseekers can obtain the skills needed for these roles are outlined in Table 16. This list is not exhaustive.

**Table 16**

*Food Manufacturing and Processing Educational Programs*

Program area	Credential	Institutions
Production	Baking and Pastry Arts/Baker/Pastry Chef Certificate, Associate of Arts degree and Associate Degree	Bakers College Dorsey School of Business - Roseville Grand Rapids Community College Henry Ford College Macomb Community College Mott Community College Northwestern Michigan College Oakland Community College Schoolcraft College The Culinary Institute of Michigan Kalamazoo Valley Community College Washtenaw Community College
	Brewing and Distillation Technology Certificate and Associates in General Studies	Schoolcraft College
	Craft Brewing Certificate	Wayne County Community College District
	Craft Brewing, Packaging, and Service Operations Certificate	Grand Rapids Community College
	Food Processing Technician Registered Apprenticeship Program	Michigan Career and Technical Institute
	Food Processing, Technology and Safety Certificate and Associate Degree	Michigan State University's Institute of Agriculture Technology (IAT) Delta College, University Center Kellogg Community College, Battle Creek Lansing Community College Muskegon Community College, Muskegon Wayne Community College District -- Downriver, Taylor
	Food Science, Bachelor's Degree	Michigan State University
	Fundamentals of Food Processing Certificate	Michigan Manufacturing Technology Center
	Sustainable Brewing Certificate and Associate of Science degree	Kalamazoo Community College
	Sustainable Brewing, Bachelor's Degree	Western Michigan University
Maintenance and engineering	Manufacturing Engineering Technology/Technician Certificate and Associate Degree	Glen Oaks Community College Grand Rapids Community College Henry Ford College Jackson College Kellogg Community College Macomb Community College Monroe County Community College Northern Michigan University Schoolcraft College Washtenaw Community College

Program area	Credential	Institutions
	Manufacturing Engineering Technology Associate Degree	Alpena Community College Delta College Lake Superior State University Lawrence Technological University Montcalm Community College Mott Community College Northwestern Michigan College St Clair County Community College Wayne County Community College District
	Manufacturing Engineering Technology Bachelor's Degree	Central Michigan University Eastern Michigan University Jackson College Lake Superior State University Wayne State University Western Michigan University
Regulation, quality assurance, research and development	Food Processing, Technology and Safety Certificate and Associate Degree	Michigan State University's Institute of Agriculture Technology (IAT) Delta College, University Center Kellogg Community College, Battle Creek Lansing Community College Muskegon Community College, Muskegon Wayne Community College District -- Downriver, Taylor
	Global Food Safety Certification (GFSI)	NSF International
	Food Science, Bachelor's Degree	Michigan State University

## Retail Food Distribution

The retail food distribution pathway encompasses occupations involved in selling and distribution of food directly to individual consumers in a retail setting. Most jobs in this subsector are in grocery stores.

Table 17 shows the industries within the retail food production subsector as well as employment numbers, projected 5-year growth and average earnings.

**Table 17**

*Employment in the Retail Food Distribution Industries*

Retail food distribution industries	2020 employment	Projected 5-year growth	Average earnings
Grocery stores	58,790	-8%	\$31,208
Specialty grocery stores	11,331	11%	\$28,347
Beer, wine, and liquor stores	7,616	1%	\$31,859
<b>Subsector overall</b>	<b>77,737</b>	<b>-4%</b>	<b>\$30,855</b>

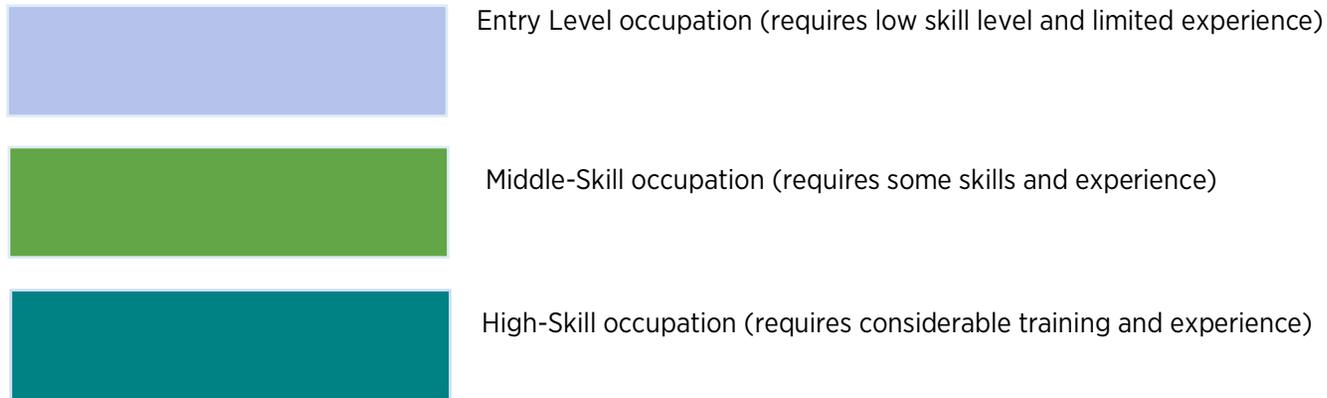

In each of these different organizations, the jobs and titles, pathways, pay, and work will be different. However, many workers in this field find themselves working for one of these types of organizations.

- Butcher shop
- Co-op
- Convenience, country, grocery, or natural / health food store
- Online market
- Specialty foods store
- Community Supported Agriculture (CSA)
- Farm stand / farm store
- Farmers market
- Food hub
- Beer, wine, liquor store

## Occupations and demand in the retail food distribution subsector

Below are the top occupations in this subsector, their common job titles, the work involved, skills required, how much demand there is currently, and how much demand is expected in the future.

Tables 18 and 19 provide retail food distribution sector employment data for the “food sales and management” pathway and the “operations, business management, and administration” pathway, respectively. The occupations are color coded by skill level for entry to the occupation. The color code is as follows:

**Table 18**

*Food Sales and Management Pathway Employment Data*

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in retail food distribution	2020 Michigan employment in retail food distribution	Michigan projected 5-year growth in retail food distribution	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
<p>Cashiers</p> <ul style="list-style-type: none"> <li>▪ Food clerk</li> <li>▪ Greeter</li> </ul>	Receive and disburse money in establishments other than financial institutions. May use electronic scanners, cash registers, or related equipment. May process credit or debit card transactions and validate checks. ## Education programs to pursue retail food distribution careers

Examples of educational programs in Michigan where workers and jobseekers can obtain the skills needed for these roles are outlined in Table 20. This list is not exhaustive.

**Table 20**

*Retail Food Distribution Educational Programs*

Program area	Credential	Institutions
Food sales and management	Selling Skills and Sales Operations Certificate and/or Associate Degree	Alpena Community College Ferris State University Jackson College Lansing Community College Washtenaw Community College
	Retailing and Retail Operations Certificate and Associate Degree	Delta College
	Baking and Pastry Arts Certificate	Dorsey School of Business - Roseville Grand Rapids Community College
	Baking and Pastry Arts/Baker/Pastry Chef Certificate and/or Associate Degree	Bakers College Henry Ford College Macomb Community College Mott Community College Northwestern Michigan College Oakland Community College Schoolcraft College The Art Institute of Michigan Washtenaw Community College
Operations, business management, and administration	Sales, Distribution, and Marketing Operations, General Certificate and Associate Degree	Baker College Grand Rapids Community College Lansing Community College North Central Michigan College West Shore Community College
	Market Manager Certificate Program Certificate	Michigan Farmers Market Association (MIFMA)

## Wholesale Food Distribution or Storage

The wholesale food distribution or storage pathway looks at roles involved in the large-scale sales of regional food, as well as the storage, transportation, and supply chain within the food system. Most jobs in Michigan in this subsector are in grocery merchant wholesalers.

Table 21 shows the industries within the wholesale food distribution or storage subsector as well as employment numbers, projected 5-year growth, and average earnings.

**Table 21**  
*Employment in the Wholesale Food Distribution or Storage Industries*

Wholesale food distribution or storage industries	2020 employment	Projected 5-year growth	Average earnings
General line grocery merchant wholesalers	6,610	3%	\$72,376
Other grocery and related products merchant wholesalers	4,870	1%	\$66,378
Refrigerated warehousing and storage	2,675	9%	\$57,628
Beer and ale merchant wholesalers	2,484	-2%	\$63,160
Fresh fruit and vegetable merchant wholesalers	2,402	0%	\$66,006
Farm and garden machinery and equipment merchant wholesalers	2,119	-4%	\$69,966
Farm supplies merchant wholesalers	1,954	-2%	\$65,432
Confectionery merchant wholesalers	1,902	9%	\$75,795
Wine and distilled alcoholic beverage merchant wholesalers	1,441	8%	\$81,978
Meat and meat product merchant wholesalers	1,261	8%	\$75,440
Dairy product (except dried or canned) merchant wholesalers	1,215	3%	\$70,031
Grain and field bean merchant wholesalers	835	-2%	\$73,799
Fish and seafood merchant wholesalers	411	0%	\$50,151
Packaged frozen food merchant wholesalers	287	10%	\$111,203
Farm product warehousing and storage	275	7%	\$58,377
Livestock merchant wholesalers	267	4%	\$41,080
Other farm product raw material merchant wholesalers	240	14%	\$61,576
Poultry and poultry product merchant wholesalers	44	1%	\$85,708
<b>Subsector overall</b>	<b>31,291</b>	<b>2%</b>	<b>\$68,695</b>

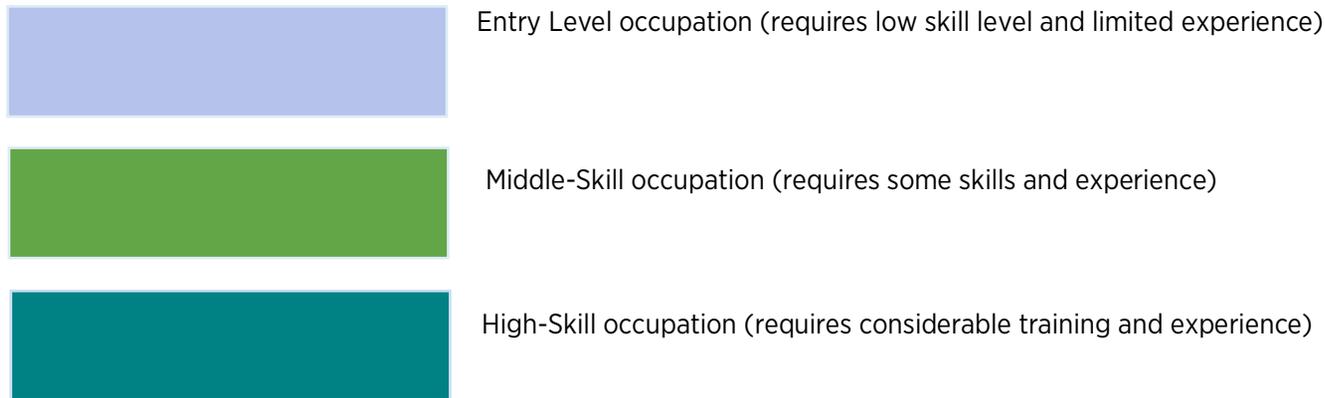

In each of these different organizations, the jobs and titles, pathways, pay, and work will be different. However, many workers in this field find themselves working for one of these types of organizations:

- Aggregation facility / food hub
- Broker / Sourcer
- Cold / Refrigerated storage facility
- Distributor
- Dry storage facility

## Occupations and demand in the wholesale food distribution or storage subsector

Below are the top occupations in this subsector, their common job titles, the work involved, skills required, how much demand there is currently, and how much demand is expected in the future.

Table 22 and 23 provide wholesale food distribution or storage sector employment data for the “sales, purchasing and administration” pathway and the “operations” pathway, respectively. The occupations are color coded by skill level for entry to the occupation. The color code is as follows:

**Table 22**  
*Sales, Purchasing, and Administration Pathway Employment Data*

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in wholesale food distribution or storage	2020 Michigan employment in wholesale food distribution or storage	Michigan projected 5-year growth in wholesale food distribution or storage	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Driver/sales workers <ul style="list-style-type: none"> <li>▪ Delivery driver</li> <li>▪ CDL delivery driver</li> </ul>	Drive truck or other vehicle over established routes or within an established territory and sell or deliver goods, such as food products (including restaurant take-out items), or pick up or deliver items such as commercial laundry. May also take orders, collect payment, or stock merchandise at point of delivery.	Commercial driving, customer service, injury prevention, hand trucks, post trip inspections	1,811	1,813	5%	Very High	Entry level

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in wholesale food distribution or storage	2020 Michigan employment in wholesale food distribution or storage	Michigan projected 5-year growth in wholesale food distribution or storage	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Office clerks	Perform duties too varied and diverse to be classified in any specific office clerical occupation, requiring knowledge of office systems and procedures. Clerical duties may be assigned in accordance with the office procedures of individual establishments and may include a combination of answering telephones, bookkeeping, typing or word processing, office machine operation, and filing.	Data entry, accounting software, accounting, invoice processing, customer service	859	848	-3%	High	Entry level
Merchandisers (merchandise displayers and window trimmers)	Plan and erect commercial displays, such as those in windows and interiors of retail stores and at trade exhibitions.	Merchandising, retail industry knowledge, scheduling, sales, store merchandising	750	746	3%	Very High	Entry level

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in wholesale food distribution or storage	2020 Michigan employment in wholesale food distribution or storage	Michigan projected 5-year growth in wholesale food distribution or storage	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Shipping, receiving, and traffic clerks <ul style="list-style-type: none"> <li>▪ Transportation clerk</li> <li>▪ Warehouse receiver</li> </ul>	Verify and maintain records on incoming and outgoing shipments involving inventory. Duties include verifying and recording incoming merchandise or material and arranging for the transportation of products. May prepare items for shipment.	Scheduling, shipping, forklift operation, receiving, data entry	705	699	2%	High	Entry level
Customer service representatives <ul style="list-style-type: none"> <li>▪ Sales service representative</li> </ul>	Interact with customers to provide basic or scripted information in response to routine inquiries about products and services. May handle and resolve general complaints. Excludes individuals whose duties are primarily installation, sales, repair, and technical support.	Customer service, customer contact, invoicing, data entry, scheduling	512	506	-1%	Very High	Entry level
Sales representatives, wholesale and manufacturing <ul style="list-style-type: none"> <li>▪ Outside sales representative</li> <li>▪ Direct sales representative</li> <li>▪ Agricultural sales representative</li> </ul>	Sell goods for wholesalers or manufacturers to businesses or groups of individuals. Work requires substantial knowledge of items sold.	Sales, customer service, sales planning, retail industry knowledge, merchandising	4,476	4,469	2%	Very High	High-skill

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in wholesale food distribution or storage	2020 Michigan employment in wholesale food distribution or storage	Michigan projected 5-year growth in wholesale food distribution or storage	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
First-line supervisors of non-retail sales workers <ul style="list-style-type: none"> <li>▪ Location manager</li> <li>▪ Inside sales manager</li> </ul>	Directly supervise and coordinate activities of sales workers other than retail sales workers. May perform duties such as budgeting, accounting, and personnel work, in addition to supervisory duties.	Sales, supervisory skills, customer service, budgeting, sales management	543	545	3%	Medium	High-skill
Buyers and purchasing agents <ul style="list-style-type: none"> <li>▪ Category planner</li> <li>▪ Procurement buyer</li> </ul>	Purchase products either for further processing or resale. Buy merchandise or commodities for resale to consumers at the wholesale or retail level, including both durable and nondurable goods. Analyze past buying trends, sales records, price, and quality of merchandise to determine value and yield. Select, order, and authorize payment for merchandise according to contractual agreements. May conduct meetings with sales personnel and introduce new products. May negotiate contracts.	Retail industry, knowledge, purchasing, merchandising, logistics, negotiation skills	405	399	-2%	Low	High-skill

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in wholesale food distribution or storage	2020 Michigan employment in wholesale food distribution or storage	Michigan projected 5-year growth in wholesale food distribution or storage	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Sales managers <ul style="list-style-type: none"> <li>▪ Territory manager</li> <li>▪ Business development manager</li> </ul>	Plan, direct, or coordinate the actual distribution or movement of a product or service to the customer. Coordinate sales distribution by establishing sales territories, quotas, and goals and establish training programs for sales representatives. Analyze sales statistics gathered by staff to determine sales potential and inventory requirements and monitor the preferences of customers.	Sales, customer service, sales management, negotiation skills, prospective clients	297	297	4%	Very High	High-skill
First-line supervisor of office and administrative workers <ul style="list-style-type: none"> <li>▪ Regional customer service manager</li> <li>▪ Customer service supervisor</li> <li>▪ Office manager</li> </ul>	Directly supervise and coordinate the activities of clerical and administrative support workers.	Customer service, scheduling, accounting, budgeting, staff management	261	261	0%	High	High-skill

	High-Skill	<ul style="list-style-type: none"> <li>Bachelor's Degree</li> <li>Associate Degree with 5 Years Experience</li> <li>Advanced Postsecondary Degree with 5 Years or More Experience</li> </ul>

## Education Levels

Initials	Credential
H.S.E.	High School Diploma or Equivalency
P.A.	Postsecondary Nondegree Award
A.S. or A.A.	Associate Degree
B.S.	Bachelor's Degree
B.A.	Bachelor of Arts
B.B.A	Bachelor of Business Administration

## On-the-Job Training

### Notes:

This map is grounded in data collected on the State of Michigan. Other cities or regions may pay different wages or require different skills, credentials, or work experience depending on their local employers.

This map was derived using labor market information data sources, Emsi and Burning Glass from Labor Insight, in November 2020. This information includes the *typical* wages and requirements for jobs and might not exactly match the positions identified by jobseekers. The data included in these maps are constantly updated.

## Education programs to pursue wholesale food distribution or storage careers

Examples of educational programs in Michigan where workers and jobseekers can obtain the skills needed for these roles are outlined in Table 24. This list is not exhaustive.

**Table 24**

*Wholesale Food Distribution or Storage Educational Programs*

Program Areas	Credential	Institutions
Operations	Medium/Heavy Vehicle and Truck Technology/Technician Certificate or Associate Degree	Baker College
	Truck and Bus Driver/Commercial Vehicle Operator and Instructor Certificate	Baker College Henry Ford College Gogebic Community College North Central Michigan College U.S. Truck Driver Training School Wayne County Community College District
	Truck Driver Entrepreneur Certificate	Montcalm Community College
	Global/Supply Chain Management Associate Degree	Macomb Community College Washtenaw Community College
	Certified Supply Chain Professional (CSCP) Exam Prep Certificate	Davenport University
	Purchasing and Supply Chain Management Purchasing and Supply Chain Management + Freight Broker/Agent Training Certificates	Central Michigan University
	Risk Management and Total Cost of Ownership for Supply Chain Certificate	Michigan Manufacturing Technology Center
	Supply Chain Operations Certificate	Washtenaw Community College
	Packaging Associate Degree and Packaging Science	Michigan State University
Sales, purchasing, and administration	Consumer Merchandising/Retailing Management Certificate, Associate, and Bachelor's Degree	Madonna University
	General Merchandising, Sales, and Related Marketing Operations, Other Associate or Bachelor's Degree	Baker College Eastern Michigan University
	Merchandising and Buying Operations Certificate and Associate Degree	Delta College Washtenaw Community College
	Selling Skills and Sales Operations Certificate and Associate Degree	Alpena Community College Ferris State University Jackson College Lansing Community College Washtenaw Community College
	Marketing Associate Degree	Lansing Community College
	Food and Consumer Package Goods Marketing—Bachelor Business Administration	Western Michigan University
	Sales, Distribution, and Marketing Operations, General Certificate and Associate Degree	Baker College Grand Rapids Community College Lansing Community College North Central Michigan College West Shore Community College

## Food Preparation and Service

The food preparation and service pathway encompass occupations involved in the preparation, cooking, and serving of food. Most jobs in this subsector are in restaurants and other eating places.

Table 25 shows the industries within the food preparation and service subsector as well as employment numbers, projected 5-year growth, and average earnings.

**Table 25**

*Employment in the Food Preparation and Service Industries*

Food preparation and service industries	2020 employment	Projected 5-year growth	Average earnings
Special food services	24,383	-1%	\$27,998
Restaurant and other eating places	294,507	0%	\$20,544
<b>Subsector overall</b>	<b>318,890</b>	<b>0%</b>	<b>\$21,113</b>

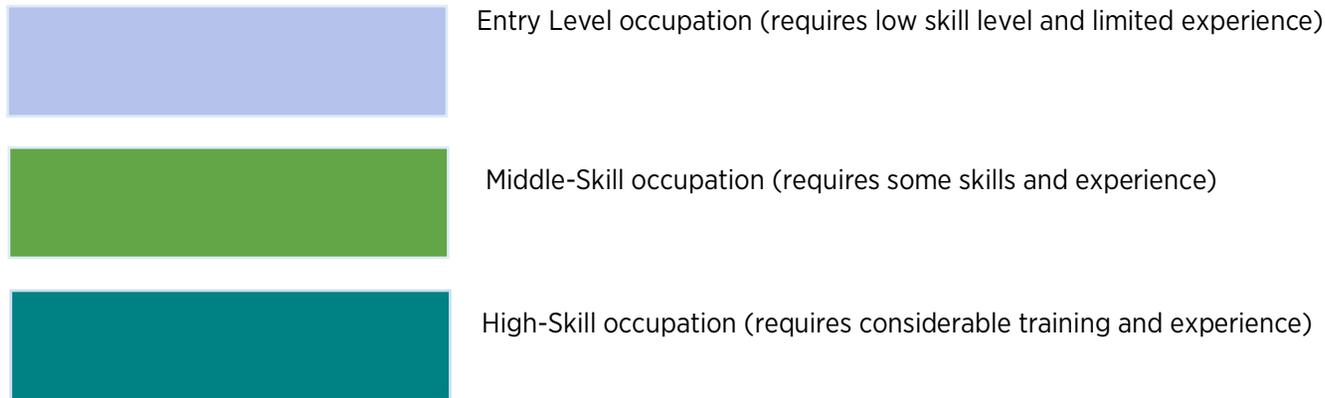

In each of these different organizations, the jobs and titles, pathways, pay, and work will be different. However, many workers in this field find themselves working for one of these types of organizations or with these products:

- Restaurant / Café, including fine dining, farm-to-table, and organically certified restaurants
- Fast food, deli
- Food trucks
- Dining service / cafeteria
- Grocery store to-go meals and other prepared foods

## Occupations and demand in the food preparation and service subsector

Below are the top occupations in this subsector, their common job titles, the work involved, skills required, how much demand there is currently, and how much demand is expected in the future.

Table 26 provides food preparation and service sector employment data for the corresponding career pathway. The occupations are color coded by skill level for entry to the occupation. The color code is as follows:

**Table 26**

*Food Preparation and Service Pathway Employment Data*

Occupation and common titles in Michigan job postings	O*NET description	Top skills requested in Michigan job postings	2019 Michigan employment in food preparation and service	2020 Michigan employment in food preparation and service	Michigan projected 5-year growth in food preparation and service	Michigan current demand level for occupation (across all industries)	Skill level for entry into the occupation
Fast food and counter workers	Perform duties such as taking orders and serving food and beverages. Serve customers at counter or from a steam table. May take payment. May prepare food and beverages.	Customer service, food preparation, food safety, food service experience, retail industry knowledge	103,910	104,193	4%	Very High	Entry level
Waiters and waitresses	Take orders and serve food and beverages to patrons at tables in dining establishment.	Customer service, food delivery, food preparation, customer checkout, cleaning	65,605	64,881	-1%	High	Entry level
Cooks, restaurant <ul style="list-style-type: none"> <li>▪ Line cook</li> <li>▪ Prep cook</li> </ul>	Prepare, season, and cook dishes such as soups, meats, vegetables, or desserts in restaurants. CSW catalyzes change in educational and labor market systems, policies and practices to increase economic mobility, particularly for people of color and others historically excluded from success. We focus on achieving scalable improvements in worker skills, lifelong learning, and job quality. CSW collaborates with change makers to develop strategies, identify evidence to inform strategies, build the capacity of organizations, manage initiatives, and evaluate lessons learned.

Center for  
Regional Food Systems

The Michigan State University Center for Regional Food Systems advances regionally rooted food systems through applied research, education, and outreach by uniting the knowledge and experience of diverse stakeholders with that of MSU faculty and staff. Our work fosters a thriving economy, equity, and sustainability for Michigan, the nation, and the planet by advancing systems that produce food that is healthy, green, fair, and affordable.
