10 CENTS A MEAL 2023–2024 EVALUATION RESULTS: DOUBLING INVESTMENT AND GROWING IMPACT

10 Cents a Meal for Michigan’s Kids and Farms, administered by the Michigan Department of Education, supplements funding for schools and other non-school sponsors to purchase Michigan-grown fruits, vegetables, and dry beans. This section is part of the [10 Cents a Meal 2023–2024 Evaluation Results: Doubling Investment and Growing Impact](#).

Our sincere appreciation to the 10 Cents a Meal for Michigan’s Kids and Farms (10 Cents a Meal) grantees for their participation in the 2023–2024 program year, including completing evaluation surveys and submitting purchase information. Their hard work, care, and dedication in serving children local foods are what make this program possible, and their thoughtful feedback helps to improve it over time.

We also wish to thank Megan Maddox and Wendy Crowley, Michigan Department of Education, and Cassandra Bull, National Farm to School Network, for their careful reviews of this report; Emma Beauchamp and Mel Hill of Michigan State University (MSU) Center for Regional Food Systems (CRFS) for communications guidance; Amethyst Macelli for copyediting services; and Julia Fiorello of Happy Strategy for design.

As always, thank you to the 10 Cents a Meal program team for their ongoing collaboration and partnership, especially the Michigan Department of Education (MDE) team for their continued leadership and vision in administering this important program. The 2023–2024 10 Cents a Meal team consisted of staff members from MDE, Groundwork Center for Resilient Communities, Michigan Department of Agriculture and Rural Development (MDARD), and CRFS. Additionally, this program is supported by the collective impact of collaborative partners, including MSU Extension Educators. We are grateful for their dedication to supporting those involved in this program across the state.

This evaluation was conducted through funding support from the W.K. Kellogg Foundation and 10 Cents a Meal’s administrative funds for organizational partners. 10 Cents a Meal and its administrative funds have been part of the annual state K–12 budget since it began as a regional pilot in 2016–2017. At the time of this writing, however, 10 Cents a Meal remains unfunded in the state budget for the 2025–2026 year.
