<div><div></div><div></div>generated_note_name_39</div>	<p>My name is <b>[a1_label]</b> and I would like to interview you for a survey that is being conducted by researchers from several universities and research institutes. They include University of Ibadan, Babcock University, Michigan State University, Federal University of Agriculture, Abeokuta, Ahmadu Bello University, University of Jos, Kebbi State University of Science and Technology, and Ebonyi State University. We are conducting a research study to understand the structure, conduct, and performance of <b>[GLV] [Wholesale]</b> in order to inform policy and investment decisions in <b>[GLV]</b> supply chains. This survey is part of a broader Bill and Melinda Gates-funded project called RSM2SNF, which is focused on improving the ability of micro, small and medium scale enterprises in Nigeria to deliver affordable, safe and nutritious foods in Nigeria. Your participation in this survey is voluntary and information we receive from you will be used for research purposes only. You can stop participating at any time without any loss or harm to you. If you choose to participate, your cooperation in answering these questions is greatly appreciated.</p> <p>The survey is expected to take about 60-90 minutes. Your responses will be kept completely confidential, and your name will never be associated with any response provided. In quantitative analysis of the survey responses, your responses will be pooled together with those of other respondents, and only general averages will be reported. If you have questions or concerns about your role and rights as a research participant, or if you would like to receive more information about this study, you may contact, anonymously if you wish, Mrs. Grace Amadi at 09162066036.</p>
