

Establishing appropriate NAIP monitoring and evaluation systems to achieve SDG2 and Malabo commitments

Sheryl Hendriks & Nosipho Mabuza

Purpose of the Analysis

Alignment with the BR

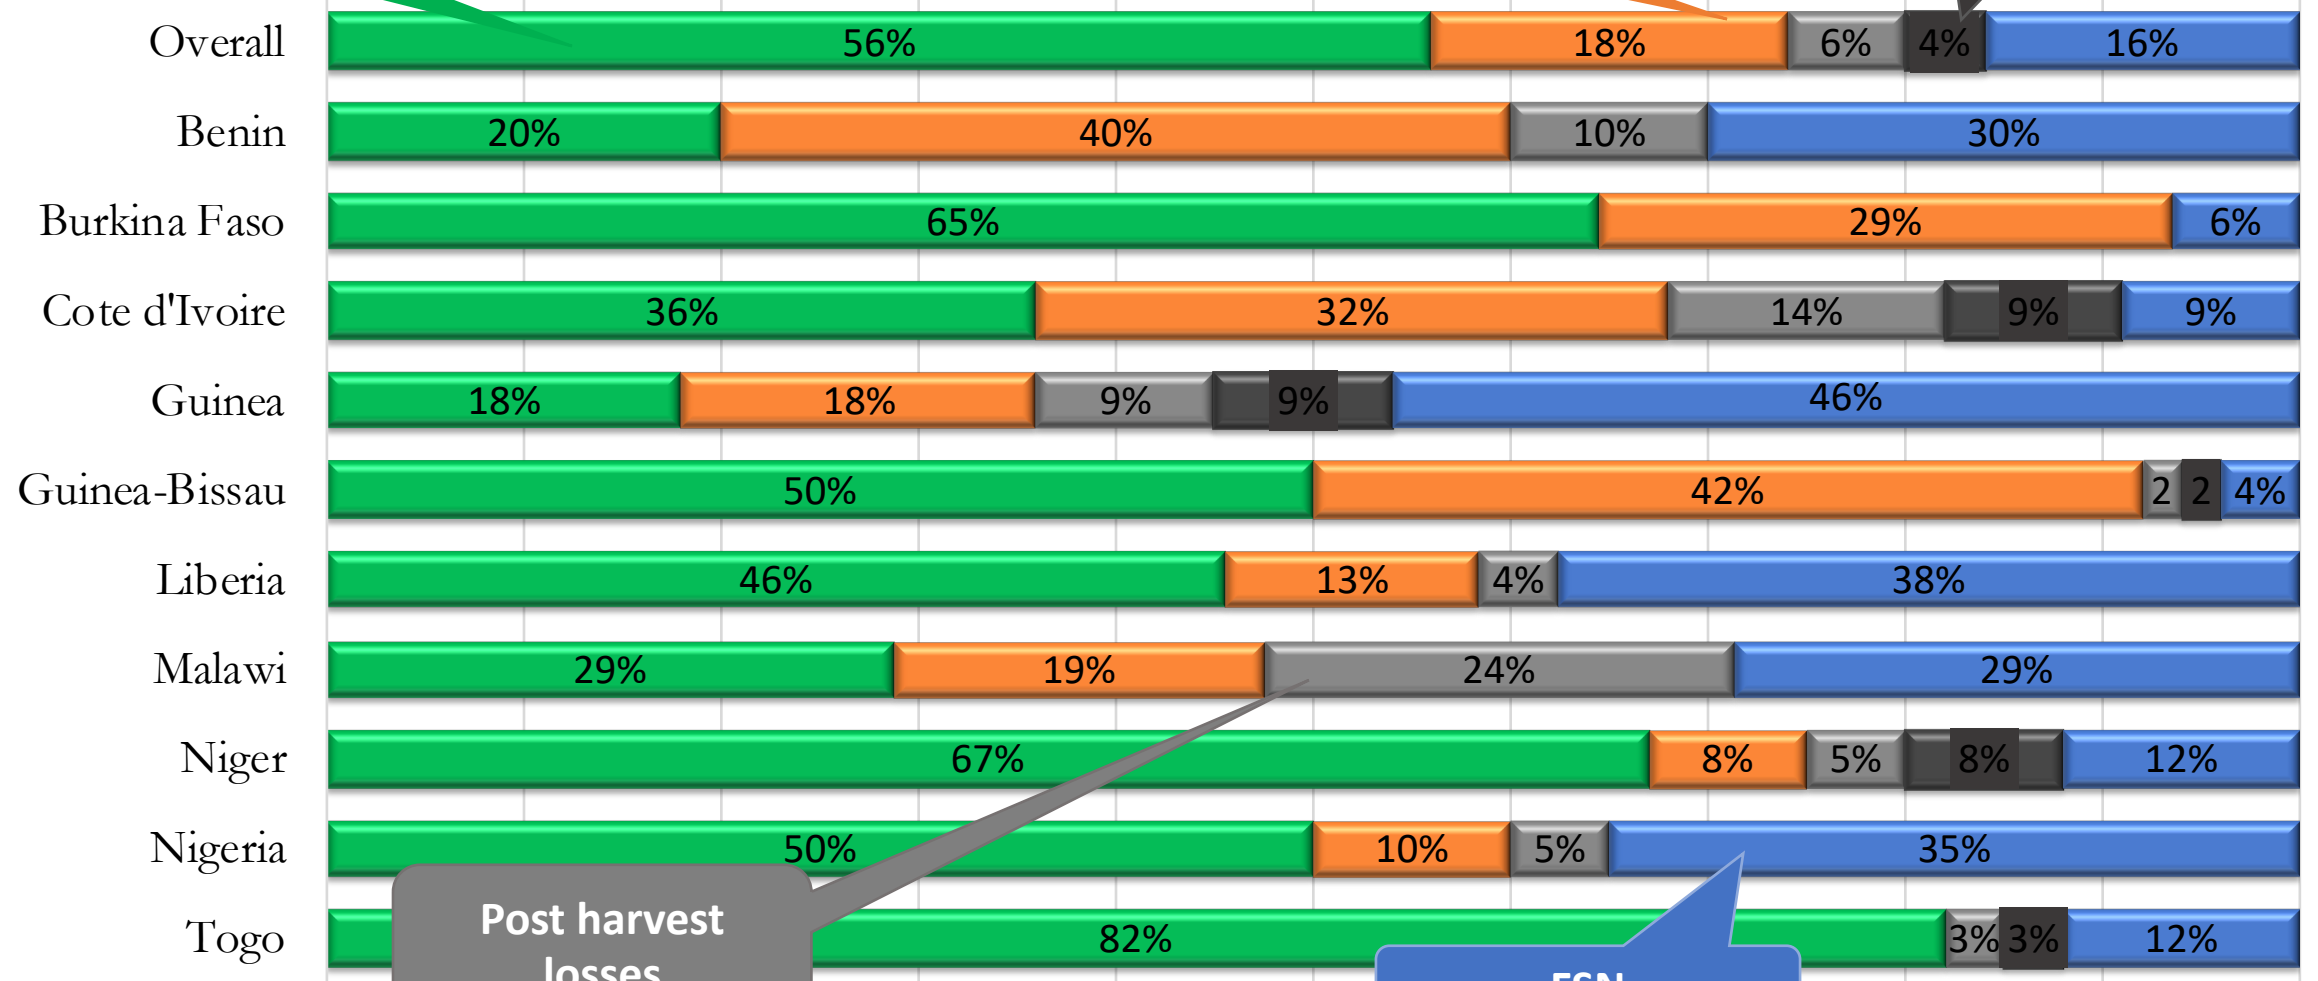

- Commitments to CAADP process
- Investment finance in agriculture
- Ending hunger
- Eradicating poverty through agriculture
- Intra-African trade in agriculture commodities
- Resilience to climate variability
- Mutual accountability for actions and results
- Innovations not captured by the BRR indicators

Theme 3: Ending hunger

Access to inputs and technologies

Ag productivity

Social protection

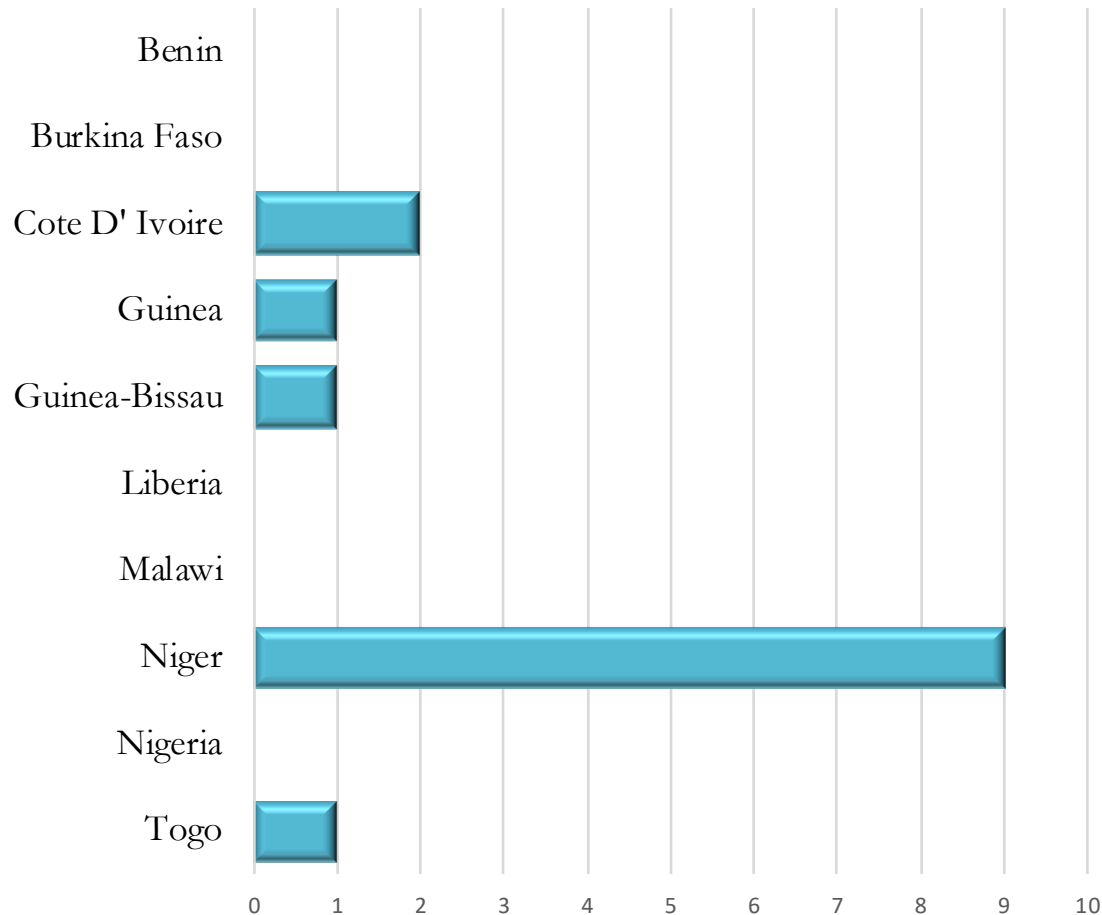

Post harvest losses

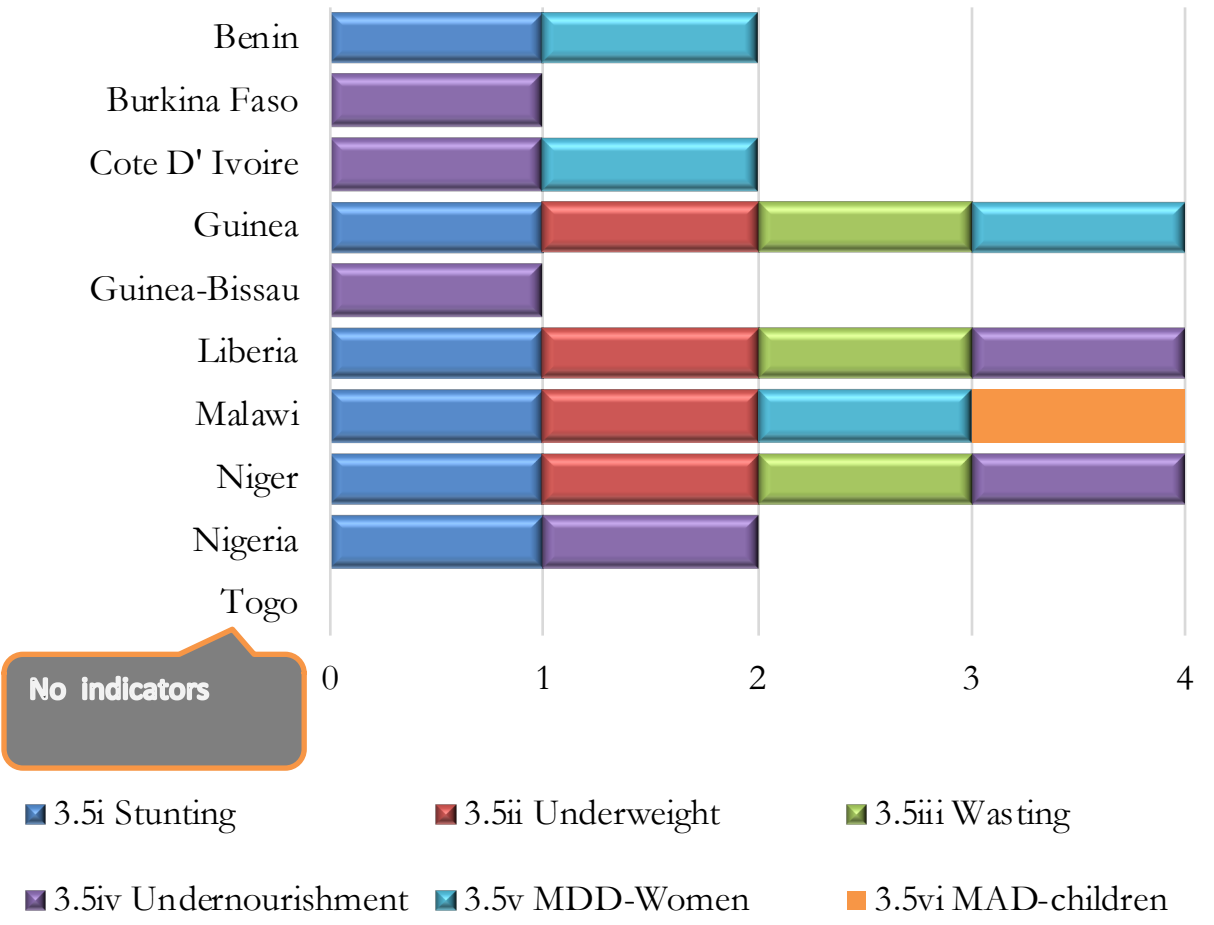

FSN

Theme 3: Ending hunger

3.4 Social Protection

3.5 Food security and nutrition

Alignment with the SDGs and Agenda 2063

- Compliant with agriculture and food security indicators.
- Gaps identified.
- Some countries adopted a more progressive approach.
- Strengthening of the BR.

Conclusion & Recommendations

- Development planning at country, continental and global level still seems confined to silos.
- A balance between outputs, outcomes & impacts indicators.
- Lack of appreciation of the full scope of food security.
- Composition of the M&E drafting team.
- Training of the NAIP drafting team.
