Message from the District Director

Thank you for another great programming year of partnership between Jackson County and Michigan State University (MSU) Extension! Because of your continued support, we've been able to make a difference in the lives of youth, families, businesses and communities. MSU Extension offers a broad range of research-based educational outreach to county residents. Our programs reach all audiences and age groups. From youth learning essential life skills and farmers exploring ways to increase efficiency and effectiveness, to older adults being able to access healthier foods and local communities discovering ways to increase economic impact.

Over this past year, we've empowered families and individuals to live healthier lives, supported new and local businesses, created opportunities for youth leadership development and career exploration, helped farmers with business management and mental health and much more. Our staff live and work alongside county residents, are rooted in community relationships and are responsive to community needs.

The following pages highlight some of the programming staff delivered to Hillsdale County residents in 2024. We continue to provide our programs in a variety of spaces and delivery methods that are convenient for our participants to engage in and access. Our partnership with you makes this all possible. On behalf of the MSU Extension team serving the County, thank you for another great year! We look forward to your continued support and hope you will be able to join us during one of our upcoming programs.

671 participants from the county attending programs

5 Extension Master Gardeners from the county with **228** volunteer hours

403 youth enrolled in 4-H

172 volunteers

Overall Impact

671 participants from the county attending programs

127 of client consultations

242 programs (across the state) attended by participants from this county

29,264,562 contacts through social media, web activity, e-newsletters, and handouts (STATEWIDE)

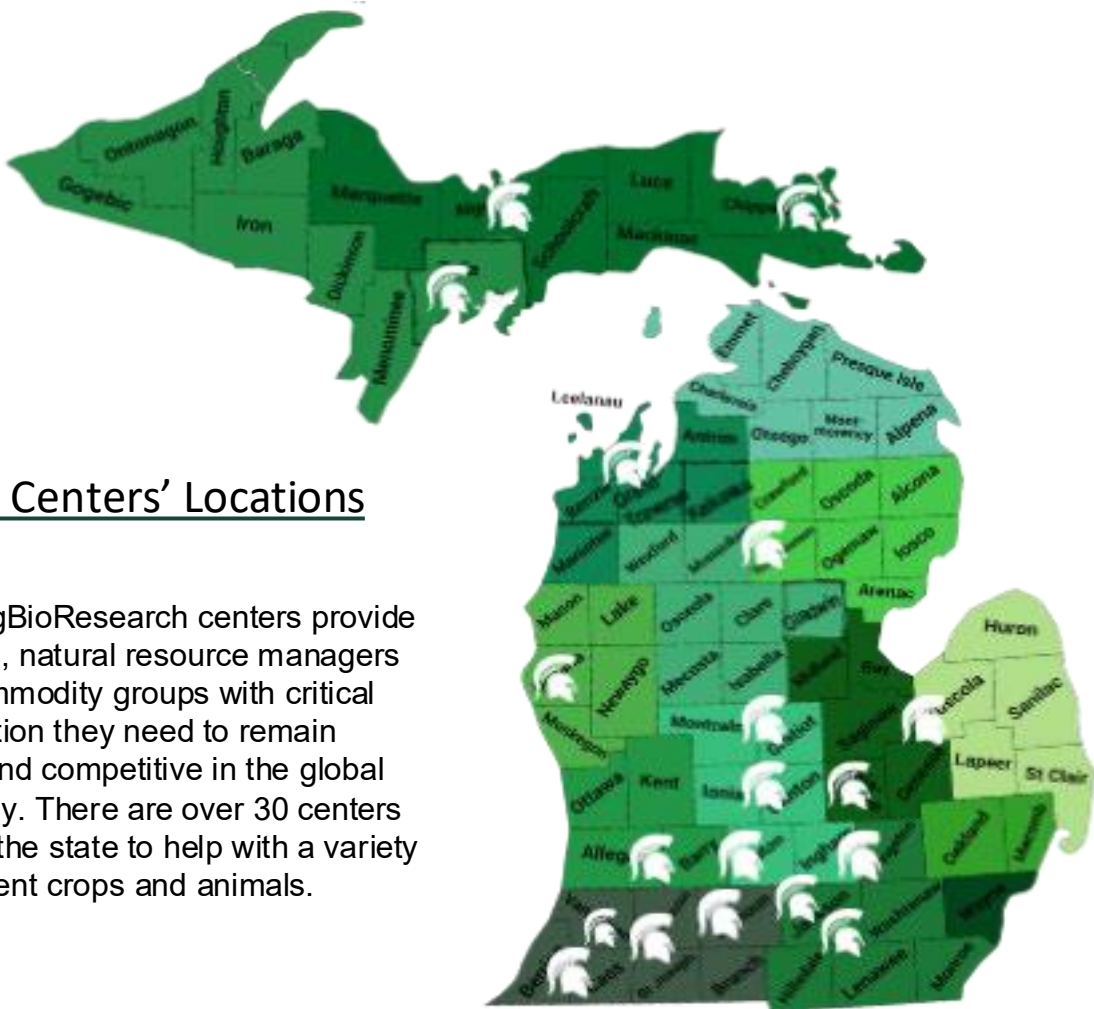

18 Ask Extension questions answered

6,418 contacts through e-newsletters, and handouts

AgBio Centers’ Locations

MSU AgBioResearch centers provide growers, natural resource managers and commodity groups with critical information they need to remain viable and competitive in the global economy. There are over 30 centers around the state to help with a variety of different crops and animals.

Economic Development, Environmental Conservation, and Agricultural Productivity

67,320 participants in community, food, and environment programs from across Michigan

470 virtual programs related to Financial Education, Food Systems, Water and Environmental Quality, Government and Businesses

309 participants in county agriculture programs

\$246.5 billion annual impact of food and agriculture on Michigan's economy (STATEWIDE)

EMERGENCY RESPONSE FOR
ACCIDENTS INVOLVING LIVESTOCK

Animal control officers and first responders do not frequently have the opportunity to work with large animals when responding to emergency situations. MSU Extension has assembled several tools and resources to help animal control officers, and first responders develop their skills in working with large animals.

Climate Ready Farm Assessments

Risk is not new to farming but the risks a variable climate brings are! How do you usually respond to risk? University professors and educators from the north central region have created this tool to help you determine your farm's vulnerability to the evolving climate. The Climate Ready tool was made using the current body of research around mitigation and adaptation to climate change in crop, dairy, tree fruit and swine production. This is a tool for inward reflection, only looking to help each unique farm find the best choices for their operation. Since each farming system has a built-in amount of risk, achieving a "no risk status" is nearly impossible. So, the goal is to move the bar towards less climate risk.

Climate Ready Assessments: <https://climateready.rsgisnext.msu.edu/>

Public Health, Nutrition, and Youth Programming

403 youth enrollments in 4-H

9,808 people participating in Food Safety programs including ServSafe (Statewide)

\$5,149.17, 4-H volunteer hour value

59 nutrition and physical activity participants hosted in-county

663 total youth participants

162 county residents who participated in health and nutrition programs

12,861 total volunteers (statewide)

Food Preservation

"I am well-experienced with home food preservation, but I don't know it all. [MSU Extension] makes research and science-based information non-threatening, logical, safe and high quality."

—Preserving MI Harvest class participant

Food Safety

"Over the years I have availed myself to the courses offered by Michigan State Extension (I have taken your Cottage Law session three times and many Apiary Program sessions) because they are some of the best in the country. Rest assured, I will probably be taking [this] session again."

—Participant in Selling Honey and Maple Syrup Safely class

Learning about Glass Art

A group of youth attended the 4-H Day at the Glass Act Studio in Hillsdale. With several youth requesting that MSU Extension host this opportunity again. This opportunity was offered by MSU Extension and paid for by the Hillsdale County 4-H Council. One participant said,

"I had no idea what this class would be about, but I am so glad I came. I learned so much from how to cut glass pieces, how to lay them out so they fused properly, and how different pieces require different hanging options."

A Statewide Network of Resources to Help You

MSU Extension is the home of the latest in research, education and outreach covering a wide range of issues from agriculture & agribusiness, health and nutrition, youth education and outreach and community and economic vitality. If MSU Extension doesn't have an expert in your county to answer your questions, we can connect you to our statewide resources to connect you to the information you need.

Ask Extension offers one-to-one answers from MSU Extension experts and Extension Master Gardener volunteers on topics such as lawns, gardening, agriculture, nutrition and physical activity, food safety, food preservation, natural resources, community development, youth programming and more! **Ask Extension:** www.canr.msu.edu/outreach/ask-an-expert

Lawn and Garden Hotline:

888-678-3464 (option 1)

Hours: M/W/F, 9:00 am - 12:00 pm (Year round)

Crabgrass, brown spots, or powdery mildew, the Lawn and Garden Hotline can give you information on all your home gardening questions.

Soil Mailers: MSU Extension home lawn and garden and commercial soil mailers provide access to personalized fertilizer recommendations for thousands of Michigan residents every year. The home lawn and garden mailer can be purchased in person at MSU Extension offices or online from the MSU Extension bookstore. Commercial soil mailer are purchased in person at MSU Extension offices. Questions about soil results can be sent to MSUsoiltest@msu.edu.

Food Safety Hotline:

877-643-9882 Hours M/W/F, 9:00 am - 5:00 pm

Do you have questions about food expiration dates, how long food will last or preserving foods at home? The Michigan State University Extension food safety hotline can help answer these types of questions and concerns.

MSU Extension Bookstore: <https://shop.msu.edu/collections/msu-extension-bookstore> Look for bulletins, publications and MSU Extension products at the Bookstore!
