This is Nicotiana alata ‘Saratoga Lime’. Keep going and make it to the final bed to see it included in a design and for more information on the plant. Below is the next plant description.

Plant Eleven Description

- Large, wild, airy, floppy form
  - Gray green leaves
  - Silver/green stem
- Leaves form an x or t when looking straight down the stem (more noticeable on smaller/younger plants)
  - Small tubular purple/blue flowers
- Flowers wrap around the end of the stem making it look like a blue spike
