Ipomoea	Sweet Caroline	Kiwi	Proven Winners	Sun	Ground	5	5	5	5	5	5	5.00	6/27/18: unique fine texture, red edge to leaves 7/12/18: Wow! Tidy, not spreading all over. 8/23/18: A carpet! Very uniform 9/5/18: Uniform, vigorous
Lantana	Luscious®	Citrus Blend Imp	Proven Winners	Sun	Ground	4	4	4	5	4	4	4.17	6/27/18: Nice red/orange combo, fuller than Havanas 7/26/18: Lots of buds coming along. 8/23/18: Lumpy, lots of flowers, filled in 9/5/18: Not uniform, but no gaps, lots of flowers
Lavender		Big Time Blue	Great Lakes Lavender Growers Association	Sun	Ground	5	4	4		5		4.50	6/5/18: Tons of buds, small than Folgate but also very large/full plants, Buds almost ready to open (earliest of all varieties) 6/15/18: Flowers fully open. Flower spikes about 12-18" tall. Dark blue color, very vibrant. 6/26/18: In full bloom, tons of flower spikes. 14-20" in bloom. Nice dark blue color 7/3/18: Still in full bloom 7/12/18: Flopping over after rain last night, brown on inflorescences, uniform plants. 7/20/18: Still some good color, but some brown on inflorescences. 7/26/18: Done flowering. 8/23/18: Completely filled in, no purple left
Lavender		Folgate	Great Lakes Lavender Growers Association	Sun	Ground	5	4	4		5		4.50	6/5/18: Tons of buds, plants look huge and full, no die back over winter 6/15/18: Flowers fully open, gorgeous plants. Flower spikes about 2' tall. Light blue color. 6/26/18: Fantastic color of fullness. Many many flower spikes on each plant. 25" tall in bloom 7/3/18: Still in full bloom 7/12/18: Brown on inflorescences, flopping over after rain last night, uniform plants. 7/20/18: Beyond the harvestable stage now. 7/26/18: Starting to get yellow foliage in the middle of clumps. Done flowering. 8/23/18: Completely filled in, tiny bit of purple left in front
Lavender		Gros Bleu	Great Lakes Lavender Growers Association	Sun	Ground	2	3	4		4		3.25	6/5/18: A couple plants almost dead after winter, lots of immature buds 6/15/18: Flowers not open yet. 6/26/18: Not in bloom yet, but almost, dead parts are looking better (concealed by new growth), about half the plants are 30" tall in bloom, while other half are 17" tall in bloom 7/3/18: Just starting to bloom 7/12/18: In full bloom. Lots of dead lower branches still showing. 7/20/18: Inflorescences starting to turn brown, but still pretty good looking. 7/26/18: Still some good color, covered in bees, still harvestable. 8/23/18: Some dieback, still has purple
Lavender		Mailette	Great Lakes Lavender Growers Association	Sun	Ground	3	4	4		5		4.00	6/5/18: Good survival over winter, a few stems dead but good overall, Lots of immature flower buds 6/15/18: Flowers not open yet. 6/26/18: Not quite full bloom, but very close. 15-16" in bloom. Very pale dusty color 7/3/18: Full bloom 7/12/18: Showing some brown on inflorescences, very tidy and compact/uniform. 7/20/18: Beyond the harvestable stage now. 7/26/18: Done flowering. 8/23/18: Very uniform, all flowers dead
Lavender		Munstead	Great Lakes Lavender Growers Association	Sun	Ground	4	3	3		4		3.50	6/5/18: Many buds almost mature, a little bit of die back 6/15/18: Flowers just starting to open. Flower spikes about 12" tall. Very pale silver/blue, not very vibrant or eye-catching, but maybe they'll color up more as they mature. 6/26/18: In full bloom. Pale purple color in comparison to Folgate and Big Time Blue. 19" tall in bloom. Flowers are more sparse than Folgate and Big Time Blue, but still good fullness. 7/3/18: Still in full bloom 7/12/18: Completely done blooming already, lots of brown, little blue left. Uniform plants. 7/20/18: Done, first variety to be done. 7/26/18: Done flowering. 8/23/18: Some dieback, some purple, some gaps
Lavender		Violet Intrigue	Great Lakes Lavender Growers Association	Sun	Ground	3	4	4		4		3.75	6/5/18: Still very small compared to other varieties, lots of variability in plant size, bud quantity, and bud development 6/15/18: Flowers are open on larger plants, but not quite open on smaller plants 6/26/18: Full bloom, pale dusty purple, 17" in bloom. 7/3/18: Still in full bloom 7/12/18: Starting to get some brown on inflorescences. 7/20/18: Beyond the harvestable stage now. 7/26/18: Done flowering. 8/23/18: Not uniform, but still has purple flowers
