Landscape Design Assistant

Help become an important part of a growing and dynamic design team to help develop and craft custom landscape plans for clients across the lakeshore. Part time to Full time position with potential for growth, depending on experience.

- Assist existing design team with development of plans and administrative tasks
- Assist installation teams by facilitating/organizing materials in the field, if needed
- Requires use of CAD and hand drawing when applicable
- Reports to Lead Designer
- Utilize good design principles and plant knowledge
