

Undergraduate Research Assistant Position

Edger Lab Blueberry and Strawberry Breeding

The Edger lab is looking for two part-time, 20hr-30hr, undergrad students to assist mainly with field and greenhouse work, along with some lab work from April-Oct. Most work will be at the Horticulture Farm and on campus, with some travel to SWMREC. There will be weeks longer than 30hrs depending on time of season.

Duties:

- plant care for blueberries and strawberries in the field and greenhouse; weeding, planting, pruning, harvest, labeling, watering, monitoring for pest and disease
- physical work associated with field and greenhouse
- data collection and recording
- will travel to other research sites from time to time, SWMREC
- assist with general lab work

Qualifications:

- Interest in Horticulture, greenhouse, field and physical work
- Driver's License, car and basic computer skills
- Preferably some experience in research, greenhouse and field work but not required, training will be provided

Pay:

- Based on experience and availability
- Please Contact Josh Moses mosesjos@msu.edu with more questions or to schedule an interview
