

Position: Landscape Workshop Intern

About

The LW intern program provides college students real-world experience as an industry professional and great opportunity for professional and personal growth. For 8-10 weeks, interns work directly in the field at one of our 9 branches across the southeast. Under the guidance of a seasoned Account Manager, interns receive training in a wide array of departments, including maintenance, enhancements, irrigation, seasonal color, and business development to name a few. We know our students are just as varied as the industry, so our approach with each intern is highly intentional. Through goal-setting, regular evaluations, and the mentorship of an Account Manager, each intern receives personalized assignments, guidance, and feedback.

Job Description

As an intern, you will participate on a field crew to provide quality landscape services on a variety of commercial properties. This includes but is not limited to:

- Following the instruction and leadership of your assigned Account Manager
- Working alongside crew members to accomplish tasks
- Use and upkeep of maintenance equipment necessary for mowing, edging, blowing, and installing on properties
- Upholding all safety and performance standards of Landscape Workshop
- Communicating with several points of contact
- Participating in team meetings, trainings, and events as assigned
- Participating in monthly evaluations, written assignments, and final presentations to the Management Team

All positions are outdoors, very physical and fast paced. Weekly schedule may be four 10-hour days or five 8-hour days, depending on branch location. Estimated start time is 7:00am till 4:30pm. All schedules vary depending on branch location, traffic, weather and job tasks.

Preferred Skills

- Excellent oral and written communication skills
- Collaborative contributor to a team
- Reliable and responsible
- Familiarity with and ability to safely operate lawn care equipment
- Willing to work outdoors in extreme conditions

Preferred Education Background

- Industry-related field of study, including but not limited to Horticulture, Agronomy, Agriculture Business, Turf Management, and Arboriculture
