Swine Guidelines

- Swine exhibitors must be 8 years of age by January 1st of current year.
- Youth members must attend 2 countywide meetings to participate in the Kalamazoo County Fair. Members 14 and under must have an adult family member present during meetings.
- Swine members who are 16 years of age and older, who exhibited in the swine project the previous year at the Kalamazoo County Fair, are eligible to exhibit up to four individual market animals; providing space is available. Space will be determined by the Superintendents, a lotto system will be used to decide which exhibitors may exhibit four market animals. This will be determined in July after fair enrollment deadline. Please consider this when purchasing pigs in the spring.
- All animals exhibited must be in the possession of the exhibitor by May 1 of current year. Each exhibitor may identify up to five (5) project animals.
- The identification must be on record at the 4-H Office or superintendents no later than May 31st.
- Animals may be market barrows or gilts. Gilts may be shown provided they are sold in the livestock sale. Hogs may be purebred, grade or crossbred, but must be farrowed between January 20 and March 1 of current year.
- Any market hogs weighing less than 200 lbs. are ineligible to show and will be sold through the 4-H livestock auction as a roaster.
- The Kalamazoo County 4-H swine show is terminal; all swine less than 200lbs will go through the 4-H livestock auction and will go to a market or slaughter facility.
- Trucking of feeder pig animals will be handled by LSA.
- Quality assurance program requirements (YQCA) must be completed annually by every swine exhibitor.
- All market hogs that come to the Kalamazoo County Fair must have been given the Swine Influenza vaccine plus booster prior to July 15th.
- Swine that have been fed Ractopamine (Paylean, Explode, XXL, etc) will **NOT** be allowed at the fair. Each exhibitor must verify their pigs have not been fed Ractopamine.
- First through tenth place ribbons will be given.
- Market hogs will be weighed-in on Tuesday of fair week, to determine weight classes for judging and official weight for the 4-H Market Livestock Sale.
- All pigs will be unloaded into the show arena. The final weight will be determined when the pigs cross the scales, the first time. There will be no re-weighs!
- All exhibitors must participate in showmanship, unless excused by superintendents.
- Barn tear down will take place the last Saturday night of fair after load out. All members or household member must be present, and stay until the barn is packed up. If this does not take place a fee of 10% of the 4-Her's swine sale check will be taken out. This fee will be put into the 4-H swine project's account. All members or household members **MUST** check in and out with a swine superintendent. If you can't tear down for religious reasons you need to get with a swine superintendent by the last swine meeting. They will give you another assignment.

FITTING AND SHOWMANSHIP GUIDELINES

- **Exhibitor Class Entry:**

The class the 4-Her will enter (Junior 8-11, Intermediate 12-15, or Senior 16 and over) is determined by their 4-H age. Age of the 4-Her as of January 1 of current year.

- **Appearance Of The Exhibitor:**

The exhibitor should be neat and clean. No hats or T-shirts with any kind of printing on them are allowed. A plain colored T-shirt is allowed, but a collared shirt is recommended. Showman should wear clean jeans or pants, no shorts are allowed. Leather footwear should be worn for your protection. No open toe, open heel or any kind of athletic footwear should be worn. No gum, chewing tobacco, or phones are allowed in the show ring.

- **Appearance Of The Pig:**

The pig should be thoroughly washed, including the feet and ears (do not get water into pigs ears) with a mild soap such as Orvus, Castile, or similar non-detergent soaps. Animals should be healthy and free from internal and external parasites. Pig clipping is allowed, a minimum of 1/2 inch clipping, no shaving. **NO clipping allowed at fair. Exhibitors may not apply any skincare products for the show, only water is allowed on show day.**

- **Show Ring Procedure:**

Enter the show ring promptly with the pig under control at all times. Showing your pig at his best advantage takes precedence over all other things. Two things you must know: a. where your pig is; and b. where the judge is. When driving your pig have your cane or whip in one hand, a small brush in your pocket, and have one hand free to open gates. When you use a cane hold the straight end in your hand and guide the pig with the curved end. The hook should be curved down. This gives more surfaces to guide the pig. Your pig may be driven by gently tapping him on the shoulder or neck. Tap the pig behind the front flanks or on the side to move him forward. NEVER hit the pig on the back, rump or snout. NEVER place your hand on the pig. NEVER shove, knee, or kick your pig to make him move. Keep the pig between you and the judge. Never get between the pig and the judge. Try to keep your pig in the judge's view and not too close or too far away. Generally speaking, the pig should be about 10 to 15 feet away from the judge. Keep your pigs walking at a slow walk, pigs look better at a walk then while standing still. If your pig should take off and run, do not run after him. Watch where it goes and walk up to it slowly.

SWINE SCIENCE

A 4-H swine educational exhibit is a requirement and is necessary for the sale of your swine project. It needs to be turned in completed on Saturday at Still Exhibit Judging in the Youth Exhibit Area. Your educational exhibit must be a Swine Record Book. (Download this on the Kalamazoo County 4-H Website). Your Swine Record Book should be presented in a notebook, portfolio or 3 ring binder.

Information Given and Idea Expressed

- Theme – Swine related topic which will educate the public
- Simplicity – Keep the message brief and direct, limited to one idea.
- Originality – Freshness of idea, use of independent thought or constructive imagination.

Attractiveness of Swine Notebook

- Dynamic, eye catching – Will the exhibit cause viewers to notice it and stop? Does it keep their interest?
- Neat – Clean, easy to read.

Construction

- Durable – Project should be able to withstand a week at the fair.
- Completed and on time – Project needs to be finished and presented to judges on Saturday of Still Project Judging.

Knowledge of Project

- 4-Her's ability – Will be determined by age and years in project. What did you learn from this project?
- Judges Opinion – Given by discretion of the judge.

The swine identification record sheet, and photos of current pigs with ear tags showing in ears must be turned into the 4-H office or to the swine superintendents by May 31st of the current year. To comply with MDA, we need to have a current record system on hand. If we **DO NOT** receive a swine identification record sheet with photos by May 31st of current year, the 4-H member will not be eligible to compete for Champion at the current year's fair. If the 4-H member still does not turn these items in prior to July 1st of the current year, the 4-H member is not eligible to bring swine to the current years' fair. Kalamazoo County 4-H swine project is a terminal show and sale.
