or by phone 1 312 626 6799

Meeting ID: 223 010 989

MSU is an affirmative-action, equal-opportunity employer. Michigan State University Extension programs and materials are open to all without regard to race, color, national origin, gender identity, religion, age, height, weight, disability, political beliefs, sexual orientation, marital status, family status or veteran status. Persons with disabilities may request accommodations by contacting Laurie Rivetto at 734-727-7234 or rivettoL@msu.edu by March 18th to make arrangements. Requests received after this date will be met when possible.

DESCRIPTION:

Many of the large commercial processors for swine will not accept swine that have been fed ractopamine. With that in mind some fairs have banned the use of any feed that contains ractopamine.

Join Brigitte Grobbel from Purina Animal Nutrition to learn the following:

- What is ractopamine?
- Where is it found?
- Why are commercial processors banning it?
- What are alternative feeds to achieve the same results?

Brigitte will be happy to help with questions and answers about feeds, supplements and achieving desired “show ring looks/eye appeal”
