# Why Keep Records?

Keeping records on your project can be interesting and fun-not dull or boring.

Good Records will:

- Help you learn about animals, their rate of growth, the feed they require, the cost of feed and their habits.
- Help you plan future projects.
- Let you know if you made or lost money and how much.
- Improve your management practices.
- Give you a record of your project activities.

Keep this record as part of your Personal Records. This information is helpful for you to plan future year's market projects, and to apply for awards and scholarships.

Remember-Records are no better than what YOU put into them!
