Appendix A

- The focus should be on the animal, not the exhibitor. However, at some point in the video you must include a shot of the exhibitor and the animal with the exhibitor's face visible
- All videos must start with the state identification tags. RFID, Straple, and NEUS tag with numbers readable.
- Please show all views and angles of the animal.
- Proper animal welfare must be taken into consideration at all times.
- Your animal must be clean.
- Fit your animal as if you were going into the live show ring per industry standards. (i.e sheep-slicked sheared, swine-1/2 inch or longer, etc.)
- Appropriate show attire must be worn-per local fair rules and guidelines.
- No preview awards, banners, etc. may be in the background of the video. Belt Buckles can be worn.
- Do not state your name, club, breeder or any details about your project. No talking is permitted in the submitted video unless allowed per project.
- All videos should be continuous, follow species specific guidelines for length and narration. No more than 4GB and submitted in the horizontal 16x9 (1080 pixel) aspect ratio. (Simply rotate your phone to "landscape Mode"-see image below.
- Do not alter the raw video by placing overlay, etc.
- No narration during video, unless specified.

* Please follow species and/or class specific patterns, if specified on U.P. 4-H Virtual Showcase website: <https://www.canr.msu.edu/menominee/4-h/upper-peninsula-virtual-showcase>

Appendix C - When engaging youth in virtual learning experiences, it is important to consider youth safety. Consider the following:

Limit identifiable details. Consider much and what types of personal information are being shared. If at all possible, don't share a youth's hometown, age, school, or parent's name. Best practice indicates only the youth's first name and 4-H club should be shared online.

Online photos and videos have permanency. Remember that photos and videos shared online always have the potential for becoming a permanent part of history. Even if deleted, they can easily be recovered and shared. Consider who else might see the information once the virtual learning experience is complete, such as potential employers, college admission officers, scholarship selection committees, etc.

Photos and Videos create a legacy. While photos and videos are developed to share about learning experiences, projects, shows and auctions, they will be viewed by judges and receive a rating. Consider distractions such as articles of clothing, backgrounds items the viewer can see, and noises that occur in videos that can detract from the project.

Communication should be clear and effective. Be sure photo and video quality is good. Double check for proper grammar and misspellings. Have another person review materials to ensure what is submitted is high quality and free of mistakes.
