Dear 4-H supporter,

Thank you for your support and dedication to the 4-H youth in Monroe County. This year, MSU Extension made the very difficult decision to suspend face-to-face programs during the COVID-19 pandemic. As many of you know, the fair industry has also been devastated by this health crisis and is unable to offer a fair in the traditional experience. Because the 4-H youth were already engaged in raising livestock and growing personally in their knowledge and skills, Monroe County MSU Extension and the Monroe County Fair have partnered to offer a virtual learning showcase and auction. We felt it was important to offer an experience for participants to showcase the skills they have learned and receive feedback that will assist in their growth and development as well as to assist them with marketing their animals.

Due to the prevention measures for the COVID-19 pandemic, the Monroe County 4-H Junior Livestock Association and Small Animal Associations have converted their normal auction(s) into an Online Virtual Auction format. Both the large and small animal auctions will last 60 hours. As a buyer, you will be able to sign-in and bid regularly on the site. Once you have placed a bid, an email notification will be sent to you in the event of being outbid.

The Online Auctions for Livestock and Small stock are scheduled as follows:

- **Large Livestock Auction:** Opens Monday, August 3 at 10AM and closes on Wednesday, August 5 at 10PM.
- **Small Animal Auction:** Opens Wednesday, August 5 at 10 AM and closes on Friday, August 7 10PM.

Registration for the online virtual auction is a convenient and easy process following the instructions below. Once the auction goes live, you will be able to log in and bid on animals between the dates and hours listed above. As a potential buyer, when you bid on a project and someone bids higher, you will receive an email notifying you that you are no longer the top bidder. This will allow you to up your bid or support another exhibitor. Additionally, if you would like to do add-on bids, the system allows you to support an exhibitor without actually purchasing the animal. Just click on the add-on button and enter the amount to which you would like to support the exhibitor. We encourage you to visit the site frequently in order to support the youth and the hard work they have put into their projects.

Previous Buyers: Thank you for your support as a buyer in previous years. If we have an email on file, a profile has already been created in the FairEntry auction platform for
