## Why Keep Records?

The purpose of keeping accurate records for your livestock is:

1. To acquire an understanding of market animal production by preparing for, purchasing, caring for, and record keeping.
2. Help you learn about the animals, their rate of growth, the feed they require, the cost of feed they require, and their habits.
3. Increased understanding of your project's financial outcome.
4. Improve your management practices.
5. To develop integrity, sportsmanship, and cooperation.
6. To develop leadership abilities, build character, and assume citizenship responsibilities.
7. To keep track of your project activities and learning experiences.
8. To allow you to better plan for future livestock projects.

### DRUG STATEMENT

This is to acknowledge that I have been advised that the presence of any drug, antibiotic or biological residue in my market animal at slaughter will result in the condemnation of the carcass and forfeiture of all sale proceeds and premiums.

I hereby certify that any drug, antibiotic or biological residue which may have been administered by myself, or any other person, was done so in strict compliance with the manufacturers' label requirements or as prescribed by a veterinarian.
