Vandenburg Bulb

Admin Assistant:

Kathy Boyer

2021 Call for Proposals

Dear Michigan State University Floriculture Researcher(s) and/or Extension Specialist(s),

The Metropolitan Detroit Flower Growers Association would like you to consider submitting research or extension proposals on any issue relevant to the floriculture industry. Proposals can be on any aspect of production, marketing, economics, or related issues that will benefit greenhouse growers in Metro-Detroit and Southeastern Michigan.

Michigan State University (MSU) Researchers can submit a minimum of one-full page to two-page proposal and budget through the MSU KC System (EBS). A proposal development document is required for each proposal. The deadline for submitting proposals is **Friday, December 17, 2021 by 5:00 p.m.**

All successful recipients are expected to give a brief project summary report at the December, 2022 Great Lakes Expo "MSU Research Update" in Grand Rapids, MI. In addition, all successful recipients are expected to submit a one page summary report by December 31, 2022.

We look forward to receiving proposals from as many of you as possible. Decisions on funding will be made by our board in late-December.

If you have specific questions, please feel free to contact me.

Sincerely,

Jerry Tuinier, President
Metro Detroit Flower Growers Association
