

2024 Request For Proposals

October 16, 2023

MSU Floriculture Researcher/Extension Specialists,

The Western Michigan Greenhouse Association would like you to consider submitting research or extension proposals on any issue relevant to the floriculture industry. Proposals can be on any aspect of production, pest management, marketing, economics, or related issues that will benefit greenhouse growers in Michigan.

MSU Researchers can submit a one- to two-page proposal and budget through the MSU KC System (EBS). A proposal development document is required for each proposal. The deadline for submitting proposals is Tuesday, December 5, 2023 by 5:00 p.m.

All successful recipients are expected to give a brief project summary report at the December 2024 Michigan Greenhouse Expo “MSU Research Update” in Grand Rapids.

We look forward to receiving proposals from as many of you as possible. Decisions on funding will be made by our board in mid-December 2023.

If you have specific questions, please feel free to contact me.

Sincerely,

Brian Weesies, President
Western Michigan Greenhouse Association
Phone: (616) 784-0583
