RURAL FABRIC

Composite urban pattern of streets, buildings, and open spaces - the "fabric" of the city
- Colin Rowe in Roger Trancik’s, Finding Lost Space

Webberville Park

Nestled along the Kalamein Creek is the Webberville Park. Attracting vehicular traffic from Grand River and pedestrian traffic from the trail system, the green space greets visitors with a rain garden full of lively vegetation. The trail continues creating an interesting walking or riding experience. Located in the heart of the park are small seat wall enclosures. These spaces are for park users to share with one another or for individual contemplation. The spaces are surrounded by fences and shrubs for shade and privacy. The space is also home to picnic areas for members of the community. Further into the park is the newly located Bernie Simmons Memorial Gazebo. This iconic town structure is tucked back in the park to reduce noise from Grand River.

Community Garden

Across from the historic elementary school of Webberville is the Community Garden. The designated crop areas give the entire community a hands-on educational area where they can come together and engage in activities they enjoy. This garden also acts as a place of relaxation. Pieces of art balance out the plantings, creating an aesthetically pleasing experience as visitors stroll through. The garden’s very own gazebo gives patrons a place to rest and enjoy the surrounding area. The character of this gazebo is reminiscent of the Bernie Simmons gazebo located in the Webberville Park. The similar style creates a personality that ties the two patches of Webberville together.

Trolley Station: BRT Link

In the heart of downtown where Main Street meets Grand River are the Webberville Trolley Station and the Bus Rapid Transit stop. The trolley, running primarily on weekends, connects the village of Webberville to Meridian Township. It is a fast, environmentally friendly passage to downtown Lansing. Similar to Lansing’s Entertainment Express, it will stop at major points of interest within the village of Webberville such as the Community Garden, Recreation Hall and the Fool’s Gold Saloon. Once the trolley leaves Webberville it travels directly to Meridian where it provides a connection to Lansing. The trolley becomes an attractant to the town, allowing visitors to explore the town.
