Teens as Teachers, A Unique Michigan 4-H Workshop

This workshop (<http://bit.ly/2m0dhcw>), for Michigan 4-H'ers (<http://bit.ly/12NxjLN>), who are 13 to 19 years old, as of January 1, 2017, provides opportunities to:

- Learn skills such as: communication, critical thinking, evaluation, facilitation, leadership, organization, responsibility, self-motivation and teamwork
- Use the *4-H Experiential Learning Model* (<http://bit.ly/2mxjdN6>) to engage youth in rich learning experiences
- Make learning fun and relatable to the young people they teach
- Serve as positive role models for other youth
- Bring new programming and ideas back to their 4-H clubs, county programs and local communities
- Find out about career opportunities

Participants will select one of the following workshop tracks:
4-H Ag Innovators Experience (<http://bit.ly/2m0IT2W>) - To meet the challenges of feeding a growing world population, we need more young people entering the science and agriculture workforce. This track features the *Healthy Soils CSI Challenge* (<http://bit.ly/2lhXfO8>). While teaching life skills, the challenge promotes career exploration in science, technology, engineering, math (STEM) and agriculture.

In Michigan, it will reach a minimum of 1,000 youth in classrooms, afterschool, camps or 4-H groups.

Leadership Through Parliamentary Procedure - In this track, teens will learn multiple activities to assist other young people to use parliamentary procedure to improve meeting productivity and become better leaders! This is one of Michigan 4-H's most requested trainings.

Money Skills Education - If you are interested in (1) helping younger youth, (2) making a positive impact in your community or (3) teaching children, this track will give you the skills to do so! Track participants will teach basic financial concepts, using children's books and hands-on activities, to 200 elementary-school students in classrooms, afterschool programs, camps or 4-H groups.

Share Your Love of Science - The *True 4-H Science Leaders* (<http://bit.ly/2lDD2hD>) program is designed to help teens develop skills, implement plans and voice their love of science with others in their community. In addition, participants will engage in a variety of hands-on science investigations to learn ways to help others experience the excitement of science exploration!

When and Where Is the Workshop? May 20-21, 2017 at Kettunen Center (<http://bit.ly/2lHuDdk>)

What Is the Workshop Cost? \$45 - This covers meals, lodging and program materials.

Community College. I worked for the Huron Intermediate School District for 34½ years as a paraprofessional, teacher, and social worker. I have experience working with children and young adults with various diverse backgrounds.

I am married to Doug Errer and have three children - Shannon, Amanda and Jason. I have two granddaughters, Lucy and Katie. My husband and I were members of 4-H and our children belong to 4-B's 4-H Club. Most recently, I was the Youth Advisor/4-H Liaison for the Huron Community Fair Board, working collaboratively with the 4-H office. I am looking forward to meeting everyone and working together to provide the youth of Huron County a successful 4-H experience.
