313-410-9431

Come explore the marshes of Lake St. Clair Metropark to experience how invasive species management is transforming the landscape and discover how these southeast Michigan wetlands can become your outdoor classroom.

Who should participate? Both formal and informal teachers interested in science and natural resources are invited to participate in this free workshop.

Topics include:

- What characteristics give invasive species a leg up on natives?
- How do invasive species impact biodiversity?
- What is being done to reduce invasive species?
- How is invasive Phragmites managed in the park?
- Sample activities for your outdoor classroom.

In addition to classroom presentations, this workshop will include a walking tour of nearby wetlands that have recently undergone invasive species management focusing on non-native Phragmites. This workshop will take place rain or shine so please dress accordingly.

**Date:** Monday June 23, 2014

**Time:** 9:00 a.m. — Noon

**Location:**

The Nature Center @  
Lake St. Clair Metropark  
31300 Metro Parkway  
Harrison Twp, MI

REGISTER: [bohling@msu.edu](mailto:bohling@msu.edu) or 313-410-9431
