

Virtual Field Trip Follow Along: Flowers and Pollinators

Name:

Date:

What is the mystery we are trying to solve today?

What is **one** way that flowers attract pollinators?

Draw a flower and the pollinator it attracts. You can use an example from the video or another you have thought of

What kinds of smells attract pollinators?

What types of pollinators like flowers that open at night?

If you were a flower, how would you attract pollinators? What strategy would you use?
