

## Our Mission

Michigan State University Extension helps people improve their lives through an educational process that applies knowledge to critical issues, needs and opportunities. MSU Extension receives federal funding from the U.S. Department of Agriculture, which enables us to deal with national issues at the local level; state funding, which allows us to serve all Michigan residents; and local funding, which allows us to provide services close to home. MSU Extension also seeks and receives funding from various government and private funders to help us broaden our mission and reach, often in partnership with other organizations.

### Looking for research-based information at your fingertips?

At [www.msue.msu.edu](http://www.msue.msu.edu), you will find hundreds of current articles and information on upcoming educational programs in youth development, agriculture, land use, entrepreneurship, nutrition, food safety, family, lawn and garden, natural resources, and state and local government.

You will also find exciting ways to connect with experts who can help.
