Spring fishery workshop offers current research and information related to the status of the Lake Erie fishery.

Michigan Sea Grant and Michigan State University Extension, in partnership with the Monroe Commission on the Environment & Water Quality, Department of Natural Resources Fisheries Division, Michigan Office of the Great Lakes, University of Michigan, NOAA Center of Excellence for Great Lakes and Human Health, and local fishery organizations will be hosting an evening regional workshop.

The workshop is open to the public, and will provide valuable information for anglers, charter captains, resource professionals, and other community members interested in attending, including status updates on Lake Erie fish populations and angler catch data, updates of fisheries management activities, Asian Carp report, Harmful Algal Blooms and other Lake Erie related topics of local interest.

You are invited to participate!

Open to the public at **no cost**

Date: Thursday, April 17

Time: 7:00 — 9:00 p.m.

Location:

City of Monroe Council Chambers
City Hall
120 East First Street
Monroe, MI 48161-2169

Workshop details available online:
